THE VINE

June 2024

THE MAYOR'S MESSAGE
JULIE FULLMER

As Vineyard Days comes to a close, we begin month six of our Discover Your Home communications initiative. Thank you for celebrating with us and taking the opportunity to come together, taking part in some of what makes our community special, and actively contributing to its continued growth and unity.

Vineyard Days has grown into our largest event, fostering connections, strengthening and shaping our community, and defining our City as we carry that spirit forward.
Whether you're attending a City event or simply enjoying a walk in one of our beautiful parks, you can feel a sense of belonging and community. Vineyard offers the perfect backdrop for summer adventures.

There is something here for everyone:

***Grove Park Splash Pad*:** Beat the heat at our popular splash pad! This family-friendly spot is perfect for kids to cool off and play while parents relax and enjoy the sunny days. It's a wonderful place for neighbors to gather and watch their children make new friends.

***City Events*:** The City hosts a variety of events designed to bring the community together. From outdoor movie nights to a fantastic fireworks show, there's always something happening to keep you entertained and engaged. These events are a great way to meet new people and strengthen the bonds within our community.

***City meetings*:** The City is finalizing the budget and priorities this June. Make sure to come and share your thoughts, and participate in our surveys. Vineyard is conducting a random sampling survey to gather insights and opinions. This survey is a vital tool for understanding what matters most to our residents and how we can improve our City. Your feedback will directly influence our future initiatives and policies. If you receive a postcard, please lend your voice.

***Volunteer*:** We have so many opportunities to volunteer for events, create a thriving community, and participate in special opportunities (such as the bid for the 2034 Olympics!).

Contact feedback@vineyardutah.org to see how you can get involved, or text the City at (435) 228-5083.

Every contribution, no matter how small, adds to the strength of our community. While Vineyard Days provides a wonderful occasion to gather and celebrate, your ongoing engagement and feedback are critical for our continued success.

Your participation in the survey, community activities, and connectivity as neighbors help shape the culture, policies, and initiatives that will define our City's future.

Mayor Julie Fullmer

REGISTER FOR ACTIVITIES

The Vineyard City Public Works Department significantly enhances residents' and businesses' quality of life through its meticulous planning, building, managing, and operating of essential infrastructure. Their work ensures that daily life proceeds smoothly and efficiently, providing a foundation for a thriving community.

The Streets and Stormwater Division maintains and improves the city's roadways, sidewalks, and traffic control systems while managing stormwater runoff to prevent flooding and water pollution. This division ensures that roads are safe and well-maintained, clears streets of snow and ice during winter months, and manages traffic signals and signage to facilitate efficient traffic flow and safety. Additionally, by maintaining and improving drainage infrastructure such as storm drains and retention basins and implementing flood control measures, this division helps protect property and the environment. These efforts result in safer, more reliable transportation and a healthier, more resilient community.

The Water and Sewer Division, another vital part of the Public Works Department, is responsible for managing the city's water supply and wastewater systems. Their work ensures access to clean water and effective wastewater treatment. By maintaining and upgrading water mains and pipelines, overseeing sewage collection and treatment processes, and ensuring the water supply meets health and safety standards, this division safeguards public health and supports businesses' daily operations.

The Facilities Maintenance Division is responsible for the upkeep and repair of public buildings and facilities. By ensuring these buildings are safe, functional, and well-maintained, implementing energy-efficient practices to reduce operational costs, and providing cleaning and maintenance services, this division supports the smooth operation of public services and amenities, enhancing the overall experience of living and working in Vineyard City.

The Engineering Division of Vineyard City's Public Works Department enhances residents' quality of life by designing and implementing efficient transportation networks, reliable water and wastewater systems, and effective stormwater management. Their work reduces traffic congestion, ensures a clean water supply, mitigates flood risks, and supports the development of safe, enjoyable parks and public spaces. The division fosters long-term environmental health and resilience by incorporating sustainable practices and technologies, creating a well-maintained and thriving community.

The Vineyard City Public Works Department plays a crucial role in maintaining and improving the infrastructure that supports everyday life. Their efforts ensure that residents enjoy a safe, clean, and well-functioning environment while businesses benefit from reliable services and infrastructure, fostering economic growth and community well-being.

To report an infrastructure issue or concern, please Report A Concern HERE, via the online chat on our website, or call us at 801-266-1929 option 4 during working hours. For after-hours emergencies please contact; **801-226-1929 option 7**.
