June 2026

MESSAGE FROM THE MAYOR

A Message from Mayor Zack Stratton

Dear Vineyard Residents,

As we approach the end of June, I want to take a moment to thank everyone who helped make Vineyard Days 2026 such a tremendous success.

This year's celebration was especially remarkable because of the timeline behind it. In late February, our new administration stepped in to help lead the planning and execution of Vineyard Days. What would normally take close to a year of preparation had to be organized, coordinated, and delivered in just over three months.

Holding the Line on Taxes, Reducing Fees, and Budgeting Responsibly | By Mayor Zack Stratton

As Vineyard City prepares to adopt the FY 2026–2027 budget, I want to give residents an update on our approach to the City budget, the certified tax rate, and our ongoing commitment to fiscal responsibility.

One of the commitments I made to Vineyard residents was that we would work hard to provide excellent services while being careful stewards of taxpayer dollars. This proposed budget reflects that commitment.

MESSAGE FROM THE MAYOR

A Message from Mayor Zack Stratton

(Continued from Page 1)

Because of their leadership, the dedication of our City team, and the support of many volunteers and community partners, Vineyard Days came together in a way our residents can be proud of.

This year's celebration included several major highlights: Vineyard's first-ever motorized Vineyard Days Parade, a huge fireworks show, Brown's Amusements, Friday night's amazing party hosted by Vineyard Cares, and a wonderful Heritage Day organized by the Vineyard Heritage Foundation. Each of these events helped bring families, neighbors, and friends together to celebrate our community.

One of the most meaningful moments of this year's Vineyard Days Parade was the tribute to our veterans and the remembrance of Augusto D'Avila, a dedicated member of the VFW Post 4918 Timpanogos Post Color Guard. Following Augusto's passing, just a week prior, his daughter and son stepped forward to carry on his role during the flag presentation in the parade. Their participation honored their father's legacy of service, patriotism, and commitment to our community. It was a powerful reminder that the values he embodied continue through the next generation.

We were honored to recognize all who have served our country, and we are especially grateful to Augusto's family for sharing such a heartfelt tribute with Vineyard.

We were also honored to welcome Vineyard resident and Team USA Olympian Caleb Furnell as the first-ever Grand Marshal of the Vineyard Days Parade. Caleb represented the United States at the 2026 Winter Olympics as a member of the U.S. four-man bobsled team. Before competing on the world stage, he was a standout sprinter at Utah Valley University, earning All-WAC honors and helping lead a conference championship relay team. His journey from track athlete to Olympian happened in just over a year after attending a bobsled combine, showing the kind of dedication, determination, and work ethic that inspires all of us.

Thank you, Caleb, for representing Vineyard so well and for helping make Vineyard Days 2026 a celebration our community will remember.

Another exciting highlight was the return of the Mountain View High School marching band. After 30 years, the band is back, and the Vineyard Days Parade was their first performance in three decades. What a special moment for the students, families, alumni, and everyone who was able to cheer them on.

I also want to extend a special thank you to the Veterans of Foreign Wars, Timpanogos Honor Guard, the Army National Guard, the Colonial Heritage Festival, the Utah County Sheriff's Office — Vineyard Division, Orem Fire Department, Orem City, Mountain View High School, Franklin Discovery Academy, Vineyard Public Works, Vineyard Parks and Recreation, Maverik Country Stores, the Vineyard Library, our Vineyard crossing guards, and every volunteer, sponsor, and community partner who contributed to this year's events.

Vineyard Days is more than a city celebration. It is a reminder of who we are. We are a growing city, but we are also a community that values family, service, patriotism, heritage, and neighborly connection. This year's celebration brought those values to life.

Thank you to every resident who attended, participated, volunteered, cheered from the parade route, helped behind the scenes, or simply showed up to celebrate Vineyard. You made this year's Vineyard Days special.

With gratitude,
Mayor Zack Stratton
Vineyard City

VINEYARD DAYS
FIRST EVER MOTORIZED PARADE

Vineyard Days 2026 made history with our first-ever motorized parade, and the community showed up in a big way! From creative floats and decorated vehicles to local organizations, businesses, and community groups, the parade route was filled with excitement and community pride.

One of the most meaningful moments of this year's Vineyard Days Parade was the tribute to our veterans and the remembrance of Augusto D'Avila, a dedicated member of the VFW Post 4918 Timpanogos Post Color Guard. Following Augusto's passing, his daughter and son stepped forward to carry on his role during the flag presentation, honoring their father's legacy of service, patriotism, and commitment to the community.

Their participation was a powerful reminder that the values he embodied continue through the next generation. We were honored to recognize all who have served our country and especially grateful to Augusto's family for sharing this heartfelt tribute with our community.

Thank you to everyone who participated, created a float, volunteered, and came out to cheer along the route. The incredible turnout made this a memorable celebration for our entire community

We were honored to welcome Vineyard resident and **Team USA Olympian Caleb Furnell** as the first-ever Grand Marshal of the Vineyard Days Parade!

Caleb represented the United States at the 2026 Winter Olympics as a member of the U.S. four-man bobsled team. Before competing on the world stage, he was a standout sprinter at Utah Valley University, earning All-WAC honors and helping lead a conference championship relay team. His journey from track athlete to Olympian happened in just over a year after attending a bobsled combine, a testament to his dedication and determination.

Thank you, Caleb, for inspiring our community and helping make Vineyard Days 2026 such a memorable celebration. We are proud to call you one of our own!

VINEYARD DAYS 2026

TOUCH-A-TRUCK

Thank you to everyone who joined us for Touch-a-Truck! More than 200 children attended to explore emergency vehicles, construction equipment, and other specialty trucks up close. We loved seeing so many families come out and enjoy the event together!

Holding the Line on Taxes, Reducing Fees, and Budgeting Responsibly

Message from Mayor Zack Stratton

(Continued from Page 1)

This year, Vineyard is moving forward with the certified tax rate. For most residents, that means there will be no increase in the City portion of your property taxes.

In simple terms, by accepting this year's certified tax rate, Vineyard is not seeking a tax increase. We are not asking residents for an increase above the certified rate. Instead, we are allowing the certified tax rate process to work as intended.

At the same time, the proposed budget includes meaningful reductions and efficiencies across several departments. Over the past six months, we have been reviewing department budgets, reducing costs where possible, reorganizing operations, and focusing resources on the services residents depend on most.

Several department budgets are proposed to be reduced from the current amended budget. These reductions reflect a serious effort to tighten operations, control costs, and make better use of existing resources.

I also want to highlight one of the most important changes for residents and businesses: the elimination of the Transportation Utility Fee. This fee would have placed an additional burden on households and businesses at a time when families are already dealing with higher costs. The proposed budget does not rely on that fee. Instead, we are using existing City resources and responsible transfers to continue supporting transportation needs.

The proposed General Fund budget includes approximately $17.79 million in total revenue and transfers, with approximately $17.5 million in expenditures and transfers out. Leaving us with an approximate surplus of $277,000 and a carry over of approximately $900,000 of savings from the previous budget year.

This budget still protects the essentials, makes investments for the future, and increases funding for public safety. But we are doing so with a clear expectation that every department must be thoughtful, efficient, and accountable.

Government should live within its means, just as families and businesses do. This proposed budget holds the line on the City's property tax rate through the certified tax rate process, eliminates the Transportation Utility Fee, reduces spending in several areas, and continues to provide the services our residents expect.

I appreciate the work of our City staff, Finance Director, and City Council as we continue through this budget process. Most importantly, I appreciate the trust Vineyard residents place in us.

My administration remains committed to transparency, responsible budgeting, lower fees, and keeping Vineyard one of the best places in Utah to live, work, and raise a family.

--

We would love to have your feedback and attendance at City Council meetings.

JULY 1-2 AMERICA 250 CELEBRATION

Celebrate America 250 with two fun-filled evenings in Vineyard!

🎬 **Drive-In Movie Night – July 1 at 9:00 PM**
Join us at the Utah City Play Area Parking Lot for a drive-in showing of The Sandlot. Enjoy the movie from the comfort of your vehicle with audio broadcast through your car radio. Concessions will be available for purchase through the Vineyard Heritage Foundation.

🧺 **Neighborhood Fireworks & Picnic – July 2 at 6:30 PM**
Gather at Grove Park for free hot dogs (while supplies last), games, prizes, food trucks, and root beer floats for sale. Don't miss the Firework Competition as neighbors compete for the title of Vineyard's best firework show! Be sure to ride your bike to skip the parking hastle and take advantage of the bike valet!

Bring your family, friends, blankets, and lawn chairs as we celebrate our community and America's 250th anniversary together!

Colonial Heritage FESTIVAL

The Colonial Hertage Festival is a three-day, living history celebration of the founding of the United States of America. It's scheduled each year to coincide with Independence Day. Living Historians come from throughout the country to create a colonial village complete with all the trades you might expect: a candle maker, a cooper, a printer, a woodworker, and many more. There is also a very sizable military presence including Militia, Continental Army, and British Army. Don't miss out on the opportunity to take afternoon tea with the likes of Benjamin Franklin, Thomas Jefferson, or John Adams.

There is no charge for admission but after you have attended, we hope you will feel to donate to support this volunteer-run event. We recommend a donation of at least $5 per person or $20 per family.

In 2026, The Colonial Heritage Festival will be the nation's largest living-history, semiquincentennial celebration west of the original 13 colonies.

Visit https://festival.colonialheritage.org/ for more information!

MEET ED, OUR VINEYARD NEIGHBORHOOD SAFETY AND IMPROVEMENT OFFICER!

Ed helps address neighborhood concerns and connects residents with the right City departments to keep Vineyard looking its best and running smoothly as well as any parking concerns.

If you notice a streetlight outage, pothole, signage issue, property concern, or other issue that needs attention, submit a Report a Concern through VineyardUtah.gov.

Thank you for helping us take care of our community!

VINEYARD NEIGHBORHOOD SAFETY AND IMPROVEMENT PROGRAM

NOTICE

Parkstrip Trees; All trees and plants on the parkstrip in front of your home are the **homeowner's responsibility.**

Per the Vineyard Tree and Landscape Manual- 5/04, the homeowner or person responsible for the residence is required to prune the branches so that they **do not block stop signs** or interfere with people walking on the sidewalk or parking on the street.

For trees, there shall be a clearance of 8' above the sidewalk and 13' above the roadway. No plants shall interfere with the free passage on sidewalks or public rights of way.

If trees or plants cause any injuries to persons or damage to property, the **homeowner could be civilly liable**. This includes accidents caused by a blocked stop sign.

VINEYARD
PUBLIC WORKS

PROTECT UTAH LAKE

Small Actions. Big Impact.

Storm drains in Vineyard flow directly to local waterways.
Everything that enters a storm drain can eventually reach Utah Lake.

WHY IT MATTERS

Excess nitrogen and phosphorus can contribute to:

- Harmful algae blooms
- Poor water quality
- Fish and wildlife impacts
- Reduced recreational opportunities

COMMON SOURCES

- ✓ Lawn fertilizers
- ✓ Grass clippings and leaves
- ✓ Pet waste
- ✓ Soil erosion
- ✓ Overwatering lawns and gardens

ONLY RAIN DOWN THE DRAIN

Keep pollutants out of storm drains to protect Utah Lake.

TIPS FOR LANDSCAPERS & BUSINESSES

- Use phosphorus-free fertilizer unless a soil test recommends otherwise.
- Apply only the amount recommended on the label.
- Avoid fertilizer applications before rain or heavy irrigation.
- Keep fertilizer off sidewalks, driveways, and streets.
- Sweep up fertilizer spills immediately.
- Inspect irrigation systems for leaks and overspray.

TAKE THE PLEDGE

I will:

- ☐ Keep fertilizer off streets and sidewalks.
- ☐ Pick up pet waste.
- ☐ Prevent yard waste from entering storm drains.
- ☐ Help protect Utah Lake and local waterways.

North Pointe
Solid Waste Special Service District

NOTICE OF PUBLIC HEARING

The Administrative Control Board of the North Pointe Solid Waste Special Service District will hold a public hearing on **June 22, 2026**, for the purpose of hearing comments on a potential fee increase:

- Proposed General Fee Increase
- Proposed 2026 Budget Amendment

The Public Hearing will be held at North Pointe Solid Waste Special Service District conference room.

2000 W 200 S Lindon, Utah
Monday, June 22, 2026, at 6:00 p.m.

This notice is hereby provided in accordance with the provisions of the “Fiscal Procedures for Special Districts” and Utah Code Section 17B-1- 643.

A copy of the proposed fee schedule is available at utahcountygarbage.org & the district office.

For additional information please call **(801) 225- 8538 X102**

MEET AUSTIN, OUR BUILDING INSPECTOR

This month, we're introducing Austin, a building inspector for Vineyard City who plays a key role in ensuring homes and construction projects meet important safety and building standards. From foundation inspections to final approvals, Austin helps protect the health, safety, and long-term quality of our community.

WHAT IS RADON?

By Austin Davis, Vineyard City Building Inspector

Radon is a naturally occurring radioactive gas formed from the breakdown of uranium in soil, rock, and groundwater. It is colorless, odorless, tasteless, and invisible. While it cannot be seen or detected without testing, it can enter homes and buildings and accumulate indoors. Long-term exposure to elevated radon levels is a leading cause of lung cancer among non-smokers.

Radon can enter structures through a variety of common pathways, including cracks in concrete slabs, floor-wall joints, gaps around pipes and utility penetrations, sump pits, crawl spaces, construction joints, and other openings in foundations. Even newly constructed homes and buildings can experience elevated radon levels depending on site conditions.

In Utah, radon is a particular concern due to the state's natural geology, which contains uranium-bearing soils that can produce radon gas. Because radon levels can vary significantly from one property to another, testing is the only reliable way to determine exposure.

The U.S. Environmental Protection Agency (EPA) recommends action when radon levels reach 4.0 picocuries per liter (pCi/L) or higher. Long-term exposure at or above this level can increase the risk of lung cancer and affects both smokers and non-smokers. Without testing, radon exposure often goes unnoticed.

Modern building practices include radon-resistant construction techniques designed to reduce radon entry and make future mitigation easier if needed. These typically include a gas-permeable layer beneath the slab that allows soil gases to move toward a venting system, a minimum 6-mil plastic vapor barrier to help block gas entry, and sealed joints and openings to reduce pathways into the structure.

Some homes are also built with passive radon systems, which typically include a gravel layer beneath the foundation, a vent pipe that runs through the structure and exits above the roofline, and a rough-in for a future fan installation. If post-construction testing shows elevated levels, these systems can often be upgraded to active mitigation systems by adding a fan.

Homeowners are encouraged to test their homes if they have a basement or crawl space, have never tested before, or have recently purchased or renovated a property. Regular maintenance can also help reduce radon entry by sealing foundation cracks, maintaining sump covers, keeping vapor barriers intact, and repairing crawl space liners. Retesting is recommended after major renovations, after mitigation work, after HVAC changes, or every few years as part of routine home maintenance.

A free radon test can be requested here:

REQUEST A FREE RADON TEST

HOME PROJECTS AND PERMITS: WHAT RESIDENTS SHOULD KNOW

PERMIT **SAFETY TIPS**
From Your Building Inspector

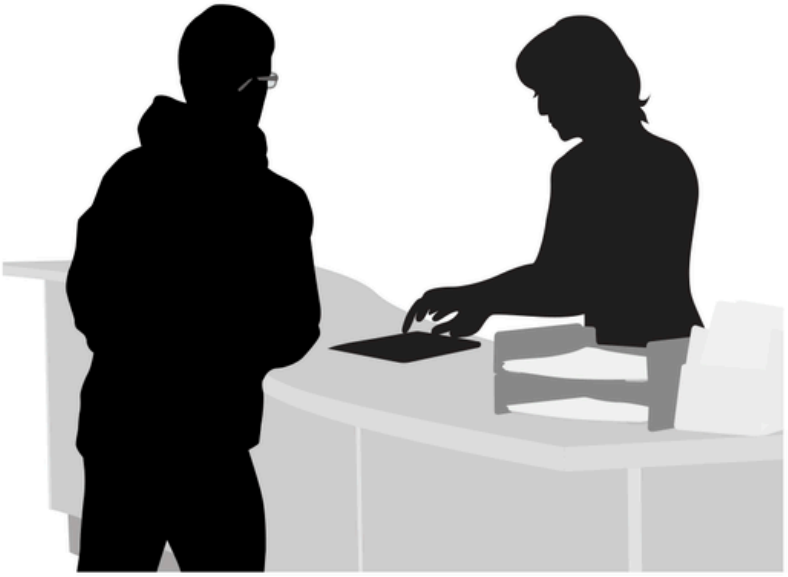
BUILDING SAFETY MONTH

Do I Need a Permit for My Home Project?

Check with your local building safety department before beginning home improvement projects. Requirements vary, but many building safety departments require permits for home improvement projects, including electrical, mechanical, structural or plumbing work. As a result of getting a permit, an inspector will check the work. Inspections provide a measure of safety to protect your life and property.

Projects That Usually Require Permits

- Re-roofing
- Installing electrical outlets
- Window frame modifications
- Remodeling kitchens or bathrooms
- Installing a pool, spa or hot tub
- Building an addition, including seasonal rooms
- Installing equipment and replacements such as furnaces, water heaters, fireplaces and space heaters
- Building a tall fence and decks



If you are planning to make home improvements, contact your local building safety department to find out what building safety code provisions apply in your area and if you need a permit.

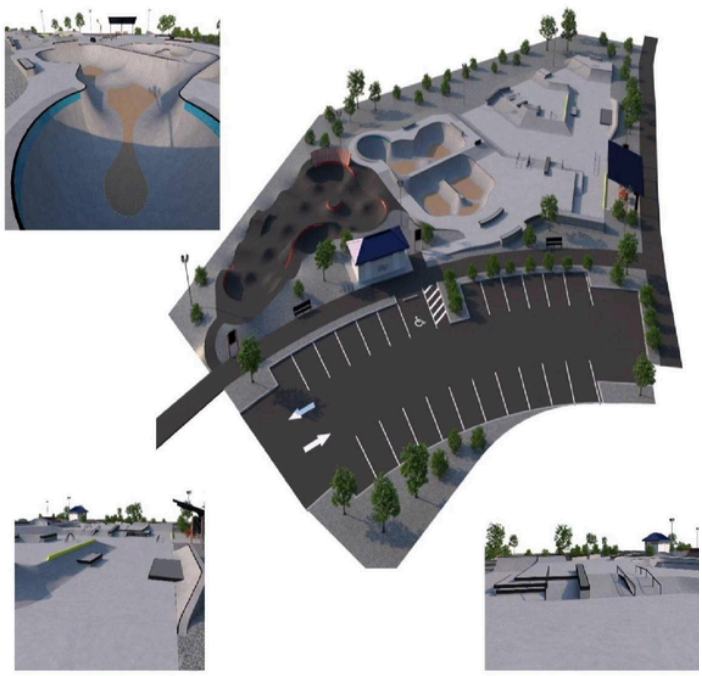
VINEYARD CITY AWARDED NEARLY $700,000 GRANT FOR ALL-WHEELS CONCRETE SKATEPARK

Vineyard City has been awarded a grant of nearly $700,000 from the Utah Outdoor Recreation Division to help fund the construction of the All-Wheels Concrete Skatepark, an exciting new recreation project planned for the community.

The 16,000-square-foot skatepark will be located just southeast of Vineyard City Hall. Construction is expected to be completed by the end of Summer 2027. The park will include a variety of features such as bowls, rails, stairs, mini ramps, curbs, quarter pipes, and more, designed to accommodate skateboarders, scooter riders, BMX riders, rollerbladers, and adaptive athletes of all ages and skill levels.



In addition to the skate features, the project will include trail connections, expanded parking, seating areas, bike racks, landscaping, restrooms, signage, and utility infrastructure to support potential future lighting around the park. Future Phase 2 improvements may include an asphalt pump track, outdoor lighting, and a shade structure, with opportunities for future fundraising support for these enhancements.

City leaders expressed appreciation for the community's involvement throughout the planning process, noting that public input through surveys, social media discussions, and in-person meetings helped shape the final design.

This project represents a major investment in recreation and community development, supporting active lifestyles while enhancing Vineyard's outdoor amenities. City officials also thanked the Utah Outdoor Recreation Grant program and local RAP tax funding for making the project possible.

GROVE PARK SLIDE HILL

Excitement continues as Slide Hill moves through its final stages of construction and improvement.

During installation work, the contractor identified a rare manufacturing defect in the large slide that caused a warp near the end of the slide. To ensure long-term safety, durability, and performance, a replacement slide has been ordered and will be installed prior to opening.

In addition, City staff are reviewing options to further enhance safety along the sod hill slope adjacent to the long slide, helping ensure a safe and enjoyable experience for all users.

These final improvements will help elevate Slide Hill into an even better community amenity for residents to enjoy. The Slide Hill is anticipated to open by the end of August 2026.
