CAPITAL PROJECTS

Mayor & City Council

Project Reference Guide

Vineyard City

Quick Summary of Each Project

Note: *The projects below represent currently funded capital projects or projects actively moving through planning, design, or construction. Project descriptions are intended to provide a brief overview to assist with prioritization.*

1200 North Overpass Bridge - 500,000 (Grant)

Construction design is underway for the 1200 North Overpass Bridge following execution of the task order. Construction is anticipated during the next construction season to improve regional connectivity and traffic flow. The City received $10 million from the State specifically for this project.

400 South Roadway- additional 100,000 (Transportation Fund)

Transportation improvements for the 400 South corridor to connect into the Holdaway Fields Development. The project is intended to enhance safety, mobility, and long-term transportation needs.

Skate Park- 1,420,000 (Rap Tax and UORG Grant)

Design and construction of a community skate park located south of City Hall. The project has received grant funding and will provide a dedicated recreational space for residents.

S Holdaway Rd Bicycle Boulevard - 25,000 (General Fund)

Planning coordination is underway to evaluate bicycle connectivity and roadway improvements along the Holdaway corridor. The project aims to enhance safety and multimodal transportation options.

170 North & Vineyard Road Crosswalk - 15,000 (General Fund)

Construction of a new pedestrian crosswalk at 170 North and Vineyard Road to improve pedestrian safety, accessibility, and connectivity for residents.

1600 North Geneva Road Intersection Widening - $270,000 (Transportation Impact Fee)

Intersection widening improvements at 1600 North and Geneva Road to increase roadway capacity and improve traffic flow. The project will be reimbursed over seven years through the RDA.

170 South Street Lighting - 15,000 (General Fund)

Installation of new street lighting along 170 South to improve visibility, safety, and the pedestrian experience.

Gammon Park Field- 300,000 plus 40,000 (General Fund)

Design of a new athletic field at Gammon Park to expand recreational opportunities and accommodate future community needs. 4 Tennis courts and dirt infield

Tucker Row Park - 100,000 (General Fund)

Design and construction of Tucker Row Park to provide additional neighborhood park amenities and recreational space for residents.

Public Safety Master Plan - 60,000 (General Fund)

With the assistance of Zion's Bank to calculate impact fees, the comprehensive Public Safety Master Plan evaluates the City's long-term police, fire, and emergency service needs and guide future planning and development.

Vineyard Beach Improvements- 10,000 (General Fund)

Planning and design for improvements to Vineyard Beach, including enhancements to public access and recreational amenities. This project is partially funded through the TRCC Grant Program.

Pedestrian Enhancements at South Main Street Roundabout- 55,000 (RDA)

Construction of pedestrian safety improvements at the South Main Street roundabout to improve accessibility and enhance crossings for pedestrians and cyclists.

Trail Bench Program - 25,000 (General Fund)

Installation of benches throughout the City's trail system to improve accessibility, comfort, and the overall user experience along public trails.

Robin's Property Master Plan- 50,000 (General Fund)

Development of a master plan for Robin's Property to evaluate future park amenities, recreational opportunities, and long-term site improvements.

City Bike Park Improvements - 60,000 (General Fund)

Design and construction of improvements to the City Bike Park to enhance recreational amenities, increase usability, and support future park development.

Shoreline Improvements- 60,000 (General Fund)

Design and construction of shoreline improvements to enhance public access, recreation, and the long-term preservation of Vineyard's waterfront.

Habitat Structure at Penny Springs Pond - 10,500 (Grant)

Installation of habitat structures at Penny Springs Pond to improve fish habitat and support environmental stewardship and recreational fishing opportunities.

300 West Parking Implementation - 50,000 (Transportation Fund)

Implementation of parking improvements along 300 West, including roadway restriping and parking layout enhancements to improve traffic operations and parking efficiency.

Pedestrian Ramp Updates- 75,000 (Transportation Fund)

Construction of ADA-compliant pedestrian ramps at locations including Heritage Boulevard, Main Street, and Center Street to improve accessibility and pedestrian safety.

Fish Cleaning Station at Penny Springs Park - 15,000 (General Fund)

Construction of a fish cleaning station at Penny Springs Park to support recreational fishing and improve amenities for park visitors.

Dumpster Enclosures rollover from FY25 - 40000 (General Fund)

Construction of dumpster enclosures to improve site appearance, organization, and waste containment throughout the City.

Slide Hill 241,238 plus 33,030 (General Fund and Grant)

Construction of a recreational slide hill to provide a new outdoor play feature and expand park amenities for residents.

Concrete Aprons Around Hydrants 60,000 (General Fund)

Installation of concrete aprons around fire hydrants to improve access, reduce erosion, and support long-term maintenance.

Public Works Building Expansion – $1,200,000 (Impact Fees)

Construction of a Public Works facility expansion to accommodate future operational needs, improve efficiency, and support the City's growing workforce.
