CITY OF RESIDENCE Vineyard

YEARS OF RESIDENCE 7

AGE 32

OCCUPATION County Administrator

I'm Ezra Nair, your neighbor running to represent you on the Vineyard City Council.

My wife and I proudly put our roots down in this community to start a family and now have three wonderful children. I've served previously as your city manager, and as a result, I know what's going well in the city and where we can improve. We're capable of keeping the best things about our city going strong and elevating others so we can become the most enjoyable community in the entire state.

I'm convinced that the more people who have an opportunity to positively engage with our city government, the better the government will serve us, and the more we'll love our community. Town halls, focus groups, and work sessions have been some of my favorite city engagements as a resident. They've truly helped me experience the city from a whole new perspective. I will focus on those types of resident experiences especially when big decisions are being made.

Effective governance requires engagement, collaboration, truthfulness, and an ability to discuss issues respectfully. I look forward to earning your vote and working with whomever is elected alongside me. Together, let's move this city we love forward.
