MESSAGE FROM THE MAYOR

A Message from Mayor Zack Stratton

Dear Neighbors,
As we close out the first month of this new administration, I want to share an update on what we have accomplished so far and the important opportunities ahead for our city.

Taking Stock January by the Numbers

January has been focused on a comprehensive review of Vineyard City operations. I have met with staff across every department, reviewed ongoing projects, and examined staffing levels, budgets, and programs. This data gathering phase is essential. You cannot manage what you do not measure, and you cannot improve what you do not fully understand.

What we have learned is encouraging. While there are real challenges to address, there are also significant opportunities. I have met with multiple corporations, businesses, and employers who are eager to invest in Vineyard. Economic interest in our city is strong, and we have real potential to expand our tax base while creating quality jobs for residents.

Addressing Audit Findings and Ensuring Accountability

Two independent audits completed last year identified serious concerns within certain city operations, including areas of the RDA and other functions that were flagged as very high risk. Since taking office, I have maintained regular communication with state oversight agencies as we continue to identify issues and work through the necessary reset these findings require.
My commitment to you is simple and firm. We will address these matters fully, lawfully, and transparently, and we will reposition Vineyard on solid footing for the future.
Transparency means more than acknowledging problems. It means investigating them thoroughly and fixing them properly. I am working with the City Council to use a portion of budget savings already achieved to fund a third, more forensic audit. This deeper review will focus specifically on the high risk areas identified previously, giving us the complete picture we need to move forward with confidence. We must understand what happened in the past to ensure it does not happen again.
Restoring confidence with our state partners and with you, our residents, is essential. Self governance is a privilege that requires competence, accountability, and openness. We are committed to earning and maintaining that trust through action, not rhetoric.

MESSAGE FROM THE MAYOR

Protecting the City and Taxpayers from Risk

As part of this reset, we must also address the legal and financial risk to the city. When policies are unclear, internal controls are weak, or staffing structures do not align with operational needs, the city can be exposed to unnecessary liability and avoidable costs. Addressing these vulnerabilities proactively is essential to protecting taxpayers and ensuring long term stability.

This review includes a careful evaluation of organizational structure and staffing. In some cases, improving efficiency and reducing risk may require restructuring or eliminating positions that are redundant, misaligned, or no longer necessary. These decisions are being made based on efficiency, accountability, and compliance with the law.

Our goal is to ensure the city has the right structure, clear roles, and proper oversight so Vineyard can operate responsibly, defensibly, and effectively.

Building Next Year's Budget Efficiency and Value

At the same time, we have begun the critical work of developing next year's budget. Working closely with department heads, we are identifying opportunities to improve efficiency in ways that reduce the tax burden on residents while maintaining, and in some cases improving, service levels.

This approach reflects sound business principles applied to municipal government. We will run this city more efficiently, more carefully, and with greater respect for every taxpayer dollar. You deserve a city government that exercises the same fiscal discipline and risk awareness you do in your own household or business.

Looking Ahead

The opportunities before us are significant. We have a chance to rebuild confidence in city government and create an organization that operates transparently, manages resources responsibly, and delivers strong value to residents.

This work requires discipline and a commitment to doing things right, not rushing through decisions. I appreciate your patience as we make these necessary changes, and I am optimistic about what we can accomplish together.

Thank you for the privilege of serving as your Mayor.

Sincerely,
Zack Stratton
Mayor, Vineyard City
