GFOA BUDGET AWARD

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of Vineyard, Utah, for its Annual Budget for the fiscal year beginning July 1, 2023. In order to receive this award, a government unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communication device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

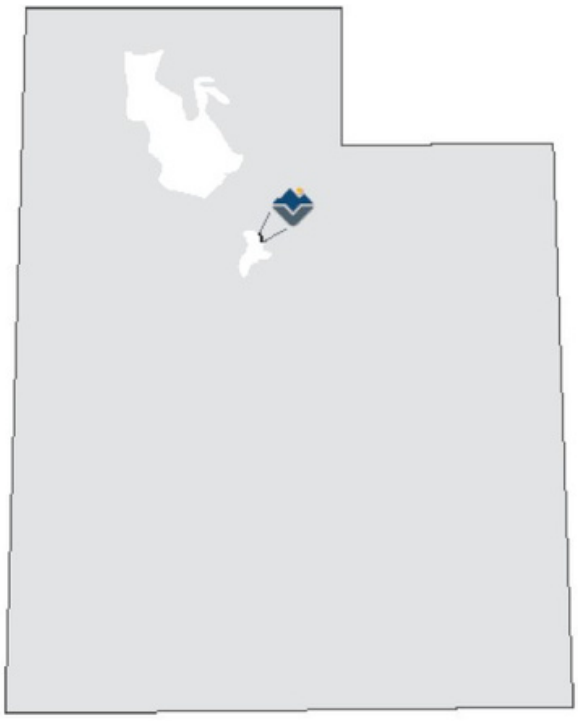
CITY PROFILE

The City of Vineyard, incorporated in 1989, is located in the heart of Utah County, Utah, less than an hour south of the state's capital, Salt Lake City. Vineyard connects to freeways and the UTA FrontRunner rail service, accessing other notable cities along the Wasatch Front. Vineyard provides all the charm of a rural community, with easy access to a full range of amenities in neighboring cities, and beyond. The City sits on the lakefront of Utah Lake, and is within driving distance of 5 national parks, 6 national forests, 7 national monuments, 14 world class ski resorts, and hundreds of thousands of acres of diverse terrain for any and all outdoor activities.



Vineyard occupies a land area of 5 square miles and currently ranks as one of the top growth areas in the country. The recent and continuing redevelopment of the area formerly encompassing the Geneva Steel mill, as well as surrounding farmland, has created 2,500 acres of prime land in the middle of a nearly built-out area which is attracting many families to the community. Since 2000, the city's population has expanded from about 200 residents to over 21,500 in 2023.

GOVERNANCE

The City of Vineyard operates under the strong-mayor form of government. Legislative authority is vested in the City Council, consisting of four city council members, and a mayor who serves as the executive authority. The City Council's responsibilities include, but are not restricted to, passing ordinances, adopting the budget, and appointing members to various boards. The City Manager, appointed by the Mayor and Council, is responsible for the hiring and day-to-day operations of city employees. Department managers are responsible for their various departments and report to the City Manager.

MISSION

Vineyard is committed to sustainable growth, accessibility, and creating a city that inspires a sense of belonging where people are enticed to live, work, and play.

SERVICES

The City of Vineyard provides water, sewer, garbage, and recycling services.

CITY AMENITIES

EDUCATION

Vineyard schools are part of the Alpine School District. Vineyard has two public elementary schools and two charter elementary schools. Students attend junior high and high schools in neighboring Orem. The city is also a short distance from the campuses of Utah Valley University, Brigham Young University, and a satellite campus of Utah State University.

WALKING AND BIKING TRAILS

Vineyard has 60+ miles of sidewalks, trails, curbing, and gutters, which includes bike trails as well as multi-use trails throughout the city.

PARKS

Vineyard currently has 52.29 acres of parks with approximately 28 acres of parks planned for development within the next 5 years. Currently, there is an 18-acre sports complex with a splash pad, tennis and basketball courts, and open fields; 2 neighborhood parks; 6 pocket parks; 5 detention parks; and a 6-acre community park.

TRANSPORTATION

The city maintains 32+ miles of public roadways with 2 bridges, 500+ streetlights, and hundreds of traffic and informational signs. Additionally, a public commuter railway station opened in 2022. This station directly connects Vineyard to downtown Provo in the south, Ogden City in the north, and several other cities along the Wasatch Front, including Salt Lake City.

ENTERTAINMENT

The Vineyard (Larry H. Miller) Megaplex movie theater features 13 screens, luxury seating, and a full-service food court. The Megaplex also provides adaptive services for guests with special needs, open and closed captioning, and wheelchair accessibility. The TopGolf facility includes 2 levels of hitting

and lounge bays with 36 bays on each level, full-service dining facilities, corporate event/ private party space, and a 15,000 square foot outdoor putting course with outdoor dining and seating for day and night use. Additionally, several new restaurants and businesses have recently opened in Vineyard, with many more dining and entertainment opportunities planned in the city's developing downtown.

CITY PROFILE

STRATEGIC PLAN

Vineyard's strategic plan was developed in 2017 by the Municipal Council and executive staff. Council and staff met during a retreat to brainstorm the plan's key strategies, strategic initiatives, and metrics. After determining the plan's general components, staff further refined the plan and presented it in a regularly scheduled public City Council meeting for formal approval by the Municipal Council.

PRIMARY DIRECTIVE

Vineyard is committed to sustainable growth, accessibility, and creating a city that inspires a sense of belonging where people are enticed to live, work, and play.

ENHANCED AMENITIES

Provide enhanced amenities by age, interests, and abilities. Investing in a connected system of parks and trails that will highlight the uniqueness of our community and set us apart.

STRATEGIC INITIATIVES

Securing additional land for future uses such as parks, trails, and other amenities that will set us apart as a community.

METRICS

We have increased our open space. We provide amenities that are utilized by residents and attract visitors from other communities.

CONNECTIVITY

Provide a multi-modal transit system, as well as technology and infrastructure that promotes connectivity.

STRATEGIC INITIATIVES

Incorporate smart city technology. Construction of FrontRunner station, Vineyard Connector, and interconnected trail system. Increased collaboration with outside entities.

METRICS

We have improved accesibility and transportation within the City. Additionally, our citywalk score and ridership has increased.

KEY STRATEGIES

ECONOMIC DEVELOPMENT

Continued focus on economic development to provide a diverse and sustainable tax base for the City and amenities for the residents.

STRATEGIC INITIATIVES

Remediation, rail spur removal, infrastructure, diverse development.

METRICS

The site is clean with infrastructure in place, making Vineyard shovel ready. We have built a sustainable tax base.

LONG RANGE PLANNING

Promote sustainable growth in the City by enchancing our long-range plan.

STRATEGIC INITIATIVES

Capital improvement plan, facility plan, management of growth and services. Update website's user experience to be more intuitive. Development for water conservation.

METRICS

Our emergency response times have improved. We have self-sufficient enterprise funds.

LONG RANGE PLANNING

Vineyard City, located along the scenic shores of Utah Lake, is a rapidly growing community known for its natural beauty, family-friendly atmosphere, and strong sense of connection. As one of Utah's fastest-growing cities, Vineyard is dedicated to balancing growth with the preservation of its natural resources, while enhancing the quality of life for its residents. This Long-Range Plan outlines the City's vision for the future, focusing on expanding parks, amenities, and services to meet the needs of both current and future residents. With a commitment to thoughtful, sustainable development, Vineyard City is shaping a vibrant, inclusive community for years to come.

ENHANCED AMENITIES

Parks and Recreation:

- Parks Master Plan: The comprehensive Parks Master Plan has been finalized, providing a roadmap for future park development, enhancements, and maintenance across Vineyard City. This plan serves as a guide to ensure equitable access to parks, recreational facilities, and open spaces, prioritizing areas with the greatest community need.
- Engagement with Seniors and Teens: To create inclusive and community-driven amenities, Vineyard City is actively engaging with senior residents and teenagers to gather feedback on their specific needs and preferences. This initiative aims to ensure that parks and recreational offerings serve diverse age groups, fostering a more connected and engaged community. Town hall meetings, surveys, and focus groups will continue to be utilized to identify potential projects that cater to these groups.

Grove Park Enhancements:

- Shade Sails Addition: To enhance comfort and accessibility, shade sails will be installed at Grove Park. These structures will provide relief from the sun, encouraging longer visits and greater usage of the park by families and other community members.
- New Benches along Trails: As part of our ongoing commitment to improving the walking and biking experience, 10 new benches will be added along the trails at Grove Park. These benches will allow park-goers to rest and enjoy the natural surroundings.

Penny Springs Pond Enhancement:

- Vineyard City is collaborating with the Utah Division of Wildlife Resources (DWR) to transform Penny Springs Pond into a fishable body of water. This project aims to provide recreational fishing opportunities, attracting visitors and enhancing the natural beauty of the park. Ongoing efforts will include water quality improvement, fish stocking, and habitat restoration.

ECONOMIC DEVELOPMENT

Rail Spurs Removal:

- Vineyard City continues to work on the removal of outdated rail spurs, a critical step in opening up land for future commercial and residential development. This project will improve land usability, enhance transportation infrastructure, and increase the attractiveness of the area to potential businesses and developers.

Crosswalk Enhancements:

- Vineyard City has allocated $180,000 in the city budget for crosswalk enhancements. This funding will support the installation of improved pedestrian crossings, providing safer and more accessible routes for residents, visitors, and students. The enhancements will prioritize key areas with high pedestrian traffic, improving overall safety throughout the City.

Wayfinding and Road Safety on Major Corridors:

- Vineyard City has received grant funding to implement wayfinding and road safety improvements along major corridors. These upgrades will provide clearer signage, better route navigation, and enhanced safety measures for drivers and pedestrians alike, supporting the City's transportation infrastructure and helping businesses attract more visitors and customers.

LONG RANGE PLANNING

Collaboration with UTA on Transit Improvements:

- Vineyard City is actively working with the Utah Transit Authority (UTA) to assess potential locations for bus stops, routes, circulators, and the possibility of future light rail connections. This collaboration aims to improve public transportation options within the City, connecting residents to key destinations and regional hubs, including a potential light rail extension to the county's regional airport.

Cemetery Acquisition and Development:

- $200,000 Allocation for Cemetery Land Acquisition: Vineyard City has allocated $200,000 toward the acquisition of land for a new cemetery. This investment will ensure that our growing population has access to a respectful and well-maintained burial space.
- Partnership with Developer for Land Donation: Vineyard City is currently in negotiations with a local developer to secure a potential land donation for the development of the new cemetery. This partnership would provide significant cost savings and expedite the development process.

City Hall Development:

- To improve local governance and provide better services to residents, Vineyard City has initiated the process of designing a new City Hall. This will involve a Request for Proposals (RFP) to select the best design team. The new facility will offer modern, efficient spaces for City departments, increasing accessibility for residents and accommodating future growth. Regular updates and community input will be sought throughout the design phase to ensure the building meets the needs of the City.

- **Fire Station Construction:** The construction of a new fire station is underway and is expected to open by July 1st, 2025. This new station will help reduce response times and increase the efficiency of emergency services. The station will be strategically located to optimize coverage and accessibility, ensuring quick access during emergencies.

BUDGET MESSAGE

June 30, 2024

I'm pleased to present the Fiscal Year 2024–2025 Budget, a comprehensive financial guide that supports the implementation of the priorities and objectives set by the Mayor and Council. This budget serves as a transparent resource for residents, detailing how public funds are utilized to enhance the City's services and infrastructure. Below is an overview of the key highlights in this budget, reflecting the City's dedication to its long-term goals and strategic plans.

Budget Overview

Vineyard continues to thrive as one of Utah's fastest-growing cities, welcoming three new commercial developments and approving ten commercial site improvements that diversify the City's tax base. The Building Department is expected to issue approximately 977 new building permits, including projects within our Downtown development, and 262,564 square feet of new commercial space is anticipated. Excitingly, the groundbreaking for a new grocery store is scheduled before the year's end, fulfilling the City’s goal of providing residents with essential amenities within City limits.

Over the past year, the City has focused on refining policies, onboarding talented staff, and enhancing the quality of life through improved City amenities and services. The new budget framework has provided departments with greater clarity, leading to improved accountability and resource management, even amidst slower growth and high inflation. A significant milestone for the City is the planned construction of a new fire station and the addition of six firefighters in early 2025. After thorough budget reviews and strategic adjustments, we have achieved a balanced budget that ensures the continued care of our parks, trails, streets, and other essential services.

Key Highlights

1. Infrastructure Projects: The city remains committed to advancing large-scale infrastructure projects, with annual reviews of priorities by City staff and elected officials.

2. Revenues: Prepared with conservative estimates, the budget reflects strong commercial growth and a higher-than-average residential growth rate, contributing to increases in sales and property tax revenues.

3. Sales Tax: With Vineyard's population growing faster than the state average, the City has seen a significant increase in sales tax revenue, driven by both population growth and expanding commercial development.

4. Property Tax: An 18% adjustment was made to the certified tax rate this year; the first city initiated adjustment in twenty two years. Impacts from ongoing inflation compounded by this year's addition of six firefighters and two additional Sheriff's deputies necessitated the adjustment. With the help of our Community Development team and our RDA Director, a great deal of effort is focused on seeking economic development to foster a more diversified tax base. Attracting commercial entities into the city generates additional jobs and higher revenues to support City services with both property tax and sales taxes.

5. Expenditures: The budget prioritizes stable operations while accounting for growth-related increases in various departments with development impact fees where possible. Key personnel additions include a Deputy City Recorder, a Digital Media Specialist to help with communication and outreach to residents, a Public Works Project Inspector, and a Public Works Utilities Operator.

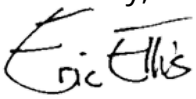
6. Capital Projects: Significant investments include park enhancements, the new fire station, and various studies and designs to effectively plan for future growth.

7. Debt Management: The City maintains no annual debt obligations, with planned revenue bonds for water and sewer projects to be funded by utility fees.

8. Challenges: Inflation and rapid growth pose ongoing challenges, but the budget remains a transparent tool for aligning financial resources with the City's vision.

This budget underscores Vineyard's commitment to smart growth, fiscal responsibility, and enhancing the quality of life for all residents. It is my pleasure to continue sharing and implementing this vision for the City.

Sincerely,



Eric Ellis
Vineyard City Manager

BUDGET PROCESS

Vineyard City adheres to the Utah State laws throughout the budget process to ensure effectiveness and protect taxpayers and City officials. The budget process is a very important element of the City's financial planning, and is the basis of controlling and evaluating its many functions through the next fiscal year. The budget process spans over several months and requires leadership and guidance from City Council and the City Manager as well as planning input and teamwork from all department directors. It also provides residents an opportunity to engage in the governmental process as they speak with their elected representatives and gain a clearer understanding of how their tax dollars are impacting their city. The City develops budgets for each individual fund, which are estimates of future expenditures, and therefore, may require occasional adjustments during the fiscal year.

The budget process consists of three main phases: (1) preparation, (2) adoption, and (3) amendments.

BASIS OF BUDGETING AND ACCOUNTING

Under the direction of the City Manager, using modified accrual as the basis for budgeting and accounting, budgets are prepared for general, special revenue, and capital projects funds. Additionally, budgets are developed for individual departments and programs in collaboration with department heads.

PREPARATION

The various departments conduct workshops and work sessions to analyze and develop the different elements that factor into the City's total budget. The Mayor and Council play a pivotal role throughout the preparation process as they establish priorities and ensure the budget preparation is focused on those priorities.

ADOPTION

Utah Code (Sections 10-6-111 & 10-6-113) outlines that a tentative budget must be presented to the City Council on or before the first regularly-scheduled council meeting in May. At that meeting, the Council reviews and adopts this tentative budget and establishes a time and place to adopt the final budget. Utah Code Section 10-6-112 outlines that the tentative budget becomes public record and is thenceforth available for inspection for at least 10 days prior to the adoption of the final budget. The City holds a public hearing to discuss the tentative budget prior to the adoption of the final budget. Final discussion and adjustments are made by the City Council after the public hearing. The final budget must be adopted by the City Council before June 30, pursuant to Utah Code Section 10-6-118.

AMENDMENT

The procedure for amending the budget is similar to the original adoption by the City Council. Changes that increase the total budget (as opposed to transfers between funds) are required to go through another public hearing prior to adoption. As indicated by Utah Code Section 10-6-128, final amendments by the City Council can be made as late as the last day of the fiscal year.

BUDGET PROCESS

2025
Road to the Budget

1

FEBRUARY 2024

- City Council Budget Retreat
  Mayor, Council and department heads met to discuss goals for the coming year
- Set City Council Goals/Priorities for FY25
  Mayor, Council and City Manager met to discuss individual priorities and goals for the upcoming year

2

MARCH 2024

- Revenue Projection
  Finance Department began making financial projections
- Goal Analysis
  Finance Department began analyzing goals from the annual retreat
- Budget Packets
  Finance Department sent out budget packets to other departments
- Department Meetings
  Department heads met to discuss budget requests

3

April 2024

- Compile Budget Document
  Finance Department created budget document from department requests
- Budget Distribution
  City Council received preliminary budget and began their review
- Budget Work Session
  Finance Department presented the tentative budget in a work session

4

May 2024

- Tentative Budget Adoption
  Finance Department created budget document from department requests
- Tentative Budget Public Hearing
  City Council heard public comments regarding the tentative budget

5

July 2024

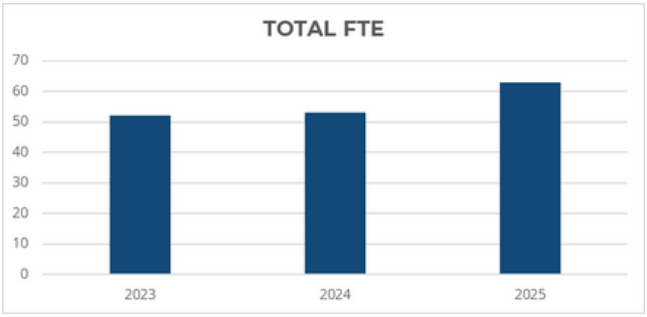
- City Council Adopts the Final Budget
  City Council adopted the final budget and set the certified tax rate
- City Council Sets Certified Tax Rate
  City Council adopted and set the certified tax rate

FINANCIAL
OVERVIEW

POSITION SUMMARY

FY 2025 STAFFING OVERVIEW

Funding for City personnel costs increased approximately 18% this fiscal year. Full-Time Equivalencies (FTEs) increased slightly this fiscal year due to adding new positions and consolidating certain positions, totaling 62.6 FTEs. As the City continues to experience growth, it has added positions to maintain service levels and to staff new programs and services.



Personnel Trends

The City Increased FTEs by 10 overall. By strategically rearranging departments and consolidating positions, staff minimized the number of FTEs necessary while meeting increased service demands. The Position Summary table on the following page provides a detailed breakdown.

Personnel Summary

The City of Vineyard has nine departments, all of which receive at least a portion of funding from the General Fund. In addition, the General Fund is where the majority of the FTEs (42.205) are staffed. Law enforcement and fire services, within the General Fund, are contracted respectively through the Utah County Sheriff's Department and Orem Fire Department; therefore, employees staffed in these departments are not counted as FTEs, aside from crossing guards.

The charts on this page show FTEs by year and department and on the next page, a chart illustrates the FY2025 FTEs by department over the past three years.

Position Changes

Several positions shifted and added this year:

- The PIO/Executive Assistant moved under the Mayor's department.
- The Neighborhood Services Coordinator has transitioned to part time and has been taken over by a part-time Utility Billing Clerk which has transitioned that employee to a FTE.
- In the Building Department, a Building Inspector position was added.
- The crossing guard FTEs have been overbudgeted in the past and were right-sized.
- In the Building Department, a Building Inspector-in-Training position was added.
- In Public Works, a Public Works Inspector position was added.
- In Public Works, another Environmental Utility Operator position was added.
- In the Communications Department, a Digital Media Specialist was added.
- In the Parks Department, the number of part-time Parks Techs decreased, and a new part-time Recreation Coordinator was added as well as a new Recreation Manager.

Space Intentionally Left Blank

REVENUE OVERVIEW

The total operating revenues for Vineyard's combined funds for fiscal year 2025, excluding interfund transfers, bond proceeds, and use of beginning fund balances, amounts to approximately $29.6 million, an increase of 68.5% from the $17.6 million projected for fiscal year 2024 & 2025. The primary reason for the increase in budgeted revenues for fiscal year 2025 is anticipated development fees and building permit revenues due to an expected uptick in residential development in the Vineyard downtown. Water and sewer fund revenues are also expected to increase due to an update to the rates for those utilities.

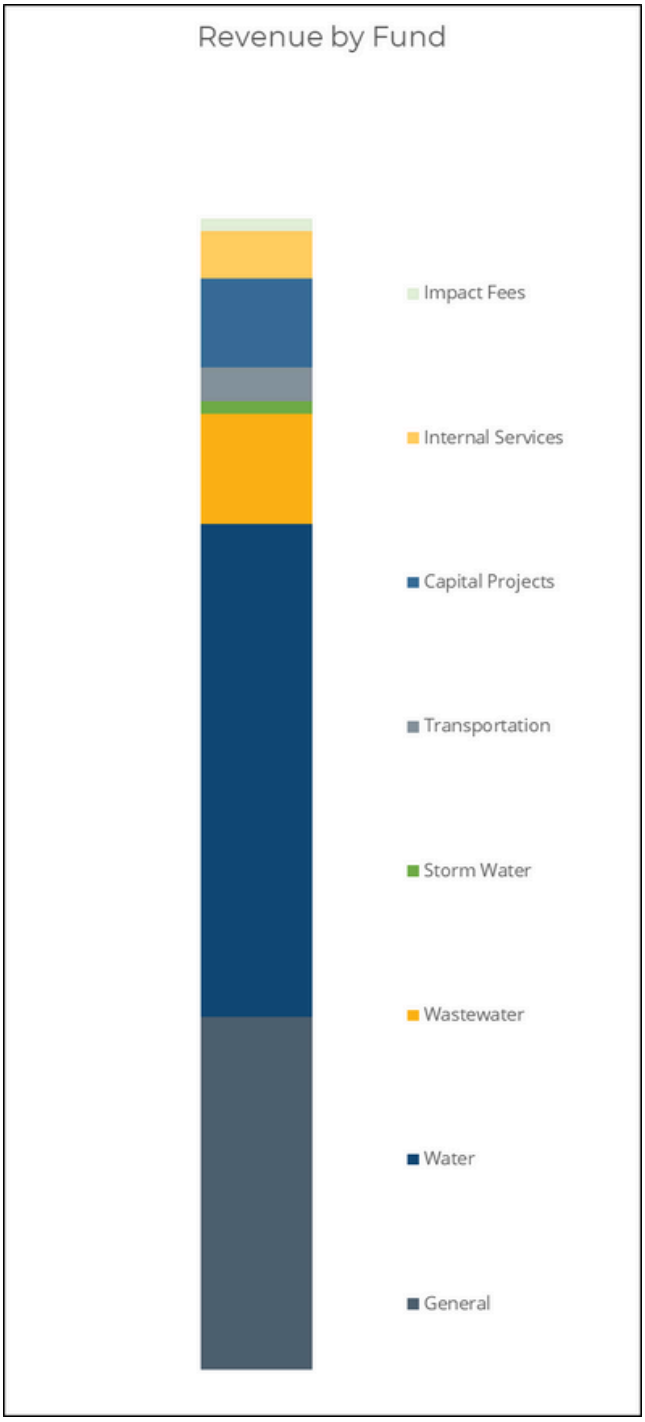
SUMMARY OF TOTAL REVENUE

These charts detail revenues by source and across all funds for the City. They illustrate the overall picture of money received by Vineyard.

- General Fund - Includes taxes (sales, property, etc.), license and permit fees, intergovernmental revenue, and other miscellaneous revenue
- Water - Includes service sales, bond proceeds, and other fee revenues
- Wastewater - Includes service sales, bond proceeds, and impact fees
- StormWater - Includes service sales
- Transportation - Includes transfers from the General Fund
- Capital Projects - Includes transfers from the General Fund and beginning fund balance appropriations
- Internal Services - Includes vehicle sales and transfers from other funds

TOTAL REVENUE CATEGORIES

Taxes - Consists primarily of sales tax and property tax
Fees - Consists of recreation, planning, building, and engineering fees



REVENUE OVERVIEW

- Impact Fees - Includes roadway impact fees and interest, as well as storm and groundwater facilities impact fees.
- Utilities - Consists of service charges for water, sewer, sanitation, and storm drain services
- Impact fees - Fees paid by developers used to fund infrastructure growth or repair and buy-ins
- Bonds - Expected revenue for money borrowed by the City this fiscal year
- Other - Consists of grants, interest earned, interfund transfers, and fines
- Beginning Fund Appropriation - Fund balances from prior fiscal years used to fund one-time projects

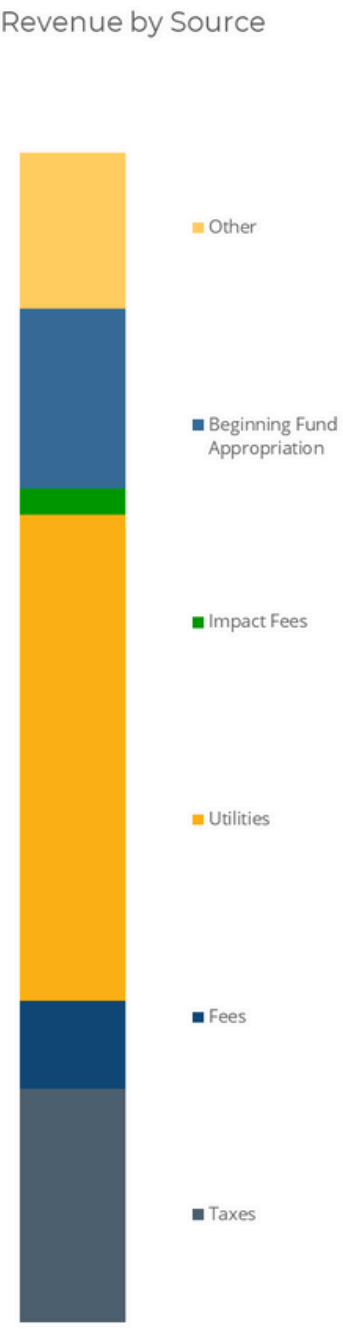
Revenue Projection Methodology

Revenue estimates are developed under the direction of the City Manager using a variety of methods including trend analysis and econometric forecasting.

- Trend analysis involves data describing historical fiscal performance and historical and projected econometric data modified for past, current, and anticipated anomalies.
- Econometric forecasting estimates the impact of past, current, and anticipated economic performances on revenue sources.

Revenue estimates are based on judgment that incorporates information provided by various analytical methods; current and potential legislative and political impacts; and national, state, and local issues and conditions likely to affect local revenue sources.

The City recognizes that a considerable amount of uncertainty surrounds all economic forecasts and that the actual performance of the economy could be somewhat better or worse than estimated. Property tax revenues continue to reflect Vineyard's residential and commercial desirability.



REVENUES & EXPENDITURES BY FUND

FY 2025 REVENUES	General	Water	Wastewater	Stormwater	Transportation	Capital Projects	Internal Services	Impact Fees	Total
Property, Sales, Utility, & Use Taxes	7,933,636								7,933,636

REDEVELOPMENT AGENCY FINANCIAL OVERVIEW

The Vineyard Redevelopment Agency (RDA) is a government body that is tasked with overseeing the cleanup and redevelopment of the Geneva Steel Mill site. Although it is a separate entity from the City of Vineyard, it is governed by the same elected officials and staffed by the same employees.

For 30 years, the RDA will receive 75% of the property tax increment that is collected in its boundaries. The formation of the RDA required the consent of all the taxing entities (Utah County, Alpine School District, Central Utah Water District, and Vineyard) that collect property taxes from properties within the RDA boundaries.

A majority of the RDA funds are used for capital projects associated with cleanup and redevelopment of the Geneva Steel Mill site. For fiscal year 2025, these projects include, among others, Vineyard Beach improvements, Center Street overpass landscaping, Promenade overpass, Main Street pedestrian enhancements, a parking master plan, an economic development strategic plan, and rail spur removal.

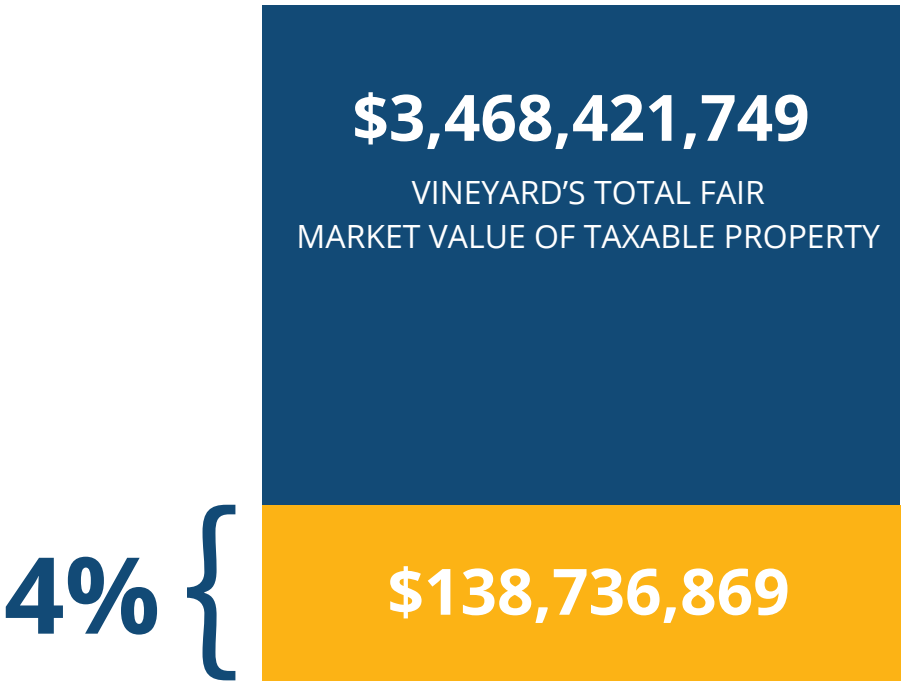
DEBT

In early 2024, Vineyard issued its first ever water and sewer revenue bonds. The bond proceeds of $15,000,000 have been used to help pay for the completion of a 6-million-gallon water storage tank, booster pump station, a water pipeline, and various sewer lift station improvements. The par amount of the bonds was $14,350,000 with 18 total maturities, the final maturity being in 2053. All but two of the maturities have a 5.00% coupon rate. There is a 2048 maturity with a 5.25% coupon rate, and the 2053 maturity has 4.00% coupon rate. Vineyard received a AA- rating from S&P Global Ratings and a AA rating from Fitch Ratings. The debt service, including principal and interest, for the water and sewer bonds will average about $905,000 annually and will be split between the Water Fund and the Wastewater Fund.

All other capital projects taken on by the City are paid for using existing funds, including the RDA fund.

Legally, no city in Utah can become indebted above 4% of the fair market value of the taxable property in the city. Because Vineyard's fair market value of taxable property is $3,468,421,749, the city cannot become indebted above $138,736,869.



FINANCIAL
SCHEDULES

CAPITAL EXPENDITURES

Vineyard has two major types of expenditures: 1) operating expenses, which are expenses related to the operation of the City on a day-today basis and 2) capital expenditures, which are expenses that add capital, or value, to the City. Capital expenditures include purchasing property and vehicles and improving roadways, parks, and other infrastructure. Some expenses recur annually, some are one-time expenses, and some take multiple years to fund and fully build. In total, Vineyard has $21,946,697 budgeted for capital expenditures throughout the 2024-2025 fiscal year. The City currently has water bond obligations to complete the water tank and water pipeline projects. The table below includes the City's projects, a brief description of each project, the cost, funding source, the impact on future operating budgets, and whether the project is recurring or not.

Project Name	Description	Budget	Funding Source	Recurring?	Annual Operating Budget Impact	Operating Impact Comments
Public Safety Master Plan	Includes capital facilities plan and impact fee study	$50,000	Capital Projects Fund Balance	N	$0	N/A
Parks Master Plan	Includes capital facilities plan and impact fee study	$50,000	Capital Projects Fund Balance	N	$0	N/A
Gammon Park Design	Design phase of Gammon Park redevelopment	$50,000	Capital Projects Fund Balance	N	$0	N/A
Trail System Shaded Benches	Shaded benches for residents to use along the city trails	$25,000	Capital Projects Fund Balance	N	$500	Maintenance and repair
Park Benches with Shades	Shaded benches for residents to use in city parks	$40,000	Capital Projects Fund Balance	N	$1,000	Maintenance and repair
Sail Shades	Sail shades to cover playgrounds at Grove Park and Penny Springs Park.	$400,000	Capital Projects Fund Balance	N	$3,000	Seasonal installation, maintenance
Slide Hill at Grove Park	Development of a hill at Grove Park with built-in slides	$300,000	Capital Projects Fund Balance	N	$5,000	Landscape maintenance, replacement parts
Beautification of Entrances & Planned Corridors	Landscaping of some city entrances and corridors. Includes transitioning some park strips from grass to xeriscaping	$270,000	Capital Projects Fund Balance	N	$2,500	Watering, weed control, maintenance
City Facility Dumpster Enclosures	Permanent enclosures to hide dumpsters at city facilities	$40,000	Capital Projects Fund Balance	N	$0	N/A
ARCH Commission RAP Tax Allocation	To be used on arts and recreation projects at the ARCH Commission's discretion	$20,000	Capital Projects Fund Balance	N	$0	N/A
Firestation	Studies, design, and beginning construction of a fire station in Vineyard. This project is also partially funded by the RDA.	$1,708,000	Capital Projects Fund Balance	N	$35,000	Electricity, water, sewer, maintenance
City Hall Design	Design phase of a new City Hall building	$40,000	Capital Projects Fund Balance	N	$0	N/A
Water Tank & Booster Station	Finish construction of a 6-million-gallon water storage tank and booster	$8,200,000	2023 Water & Sewer Bonds	N	$150,000	Power, additional monitoring, servicing
Water Pipeline	Finish construction of a new water pipeline through the city	$5,300,000	2023 Water & Sewer Bonds	N	$7,500	Corrosion protection monitoring, maintenance
Lift Station 1 Access	Improve access to lift station 1 for employee safety and productivity	$300,000	2023 Water & Sewer Bonds	N	$0	N/A
Lift Station 2 Upgrade	Add capacity to lift station 2	$850,000	2023 Water & Sewer Bonds	N	$20,000	Electricity, additional monitoring, servicing
Additional Sewer System Improvements	Removal and replacement of some sewer lines in the city	$350,000	2023 Water & Sewer Bonds	N	$0	N/A
	CAPITAL EXPENDITURES TOTAL	**$17,993,000**				

FUND BALANCE

For the purposes of this document, fund balance can be defined as revenues that exceed expenditures. A fund balance may be used to provide working capital until taxes are collected, to meet emergency expenditures, or to cover a pending year-end excess of expenditures over revenues from an unavoidable shortfall in revenues. As set by the Uniform Fiscal Procedures Act for Utah Cities, the City must hold a fund balance from year to year of at least 5% as a "rainy day" fund. The City may budget this fund balance once it exceeds 5% of the total revenues of the City's General Fund. The City must appropriate General Fund fund balance if it ever exceeds 35% of the total revenues of the City's General Fund.

Vineyard accumulates fund balances in its various funds to assure compliance with State Law regarding necessary "rainy day" funds for unexpected emergencies, to use as working capital between tax collections, and to accumulate funds for planned capital expenditures. All excess City funds are invested as mandated by the Utah State Money Management Act, with resulting interest being budgeted as additional revenue in each fund.
The table below shows beginning and end fund balance as well as the percent change in each of the funds.

The General Fund balance is expected to decrease by approximately 31%. This is due to an increase in transfers out to other funds to use for one-time capital and equipment purchases. The Impact Fee Fund balance is expected to decrease by approximately 7% because there are no large impact fee projects budgeted in fiscal year 2025. The Capital Project Fund balance is expected to be utilized completely for large upcoming projects. The Water Fund is expected to decrease by approximately 79%. The Stormwater Fund is expected to decrease by approximately 92% due to using some of the existing fund balance to pay for a rate study and master plan. The Transportation Fund balance is expected to decrease by approximately 67% due to the use of existing fund balance to pay for needed road repairs on Main Street and to help replace an older work truck.

Fund	Starting Fund Balance (July 1, 2024)	Ending Fund Balance (June 30, 2025)	Increase/(Decrease)	Percent Change
General	$ 3,017,030	$ 2,079,277	$ (937,753)	-31%
Impact Fee	$ 1,326,973	$ 1,231,473	$ (95,500)	-7%
Capital Projects	$ 4,122,221	$ -	$ (4,122,221)	-100%
Water	$ 5,531,497	$ 1,158,256	$ (4,373,241)	-79%
Wastewater	$ 643,771	$ 339,370	$ (304,401)	-47%
Storm Water	$ 365,654	$ 30,962	$ (334,692)	-92%
Transportation	$ 952,622	$ 312,938	$ (639,684)	-67%

DEPARTMENTAL
OVERVIEW

DEPARTMENTAL OVERVIEW

The following section provides a brief introduction to the work performed by each department as well as a three-year overview of financial and performance metrics.

Each department's section is divided into three major components: introduction, a financial summary of funding and expenditures, and goals and performance measurements.

INTRODUCTION

KEY FUNCTION ORGANIZATION CHART - a chart illustrating the organization of each department

DEPARTMENT DESCRIPTION - a brief statement describing the overall purpose of each department and its services and operational divisions where applicable

FINANCIAL

DEPARTMENTAL FUNDING BY CATEGORY - a visual representation of how the department is funded

GENERAL FUND REVENUES - includes major revenue sources for the General Fund such as property tax, sales tax, business tax, and utility tax

ALL OTHER REVENUES - other fund revenue sources include charges for services, grants, and intergovernmental revenues

DEPARTMENTAL EXPENDITURES BY CATEGORY - a visual representation of the total expenditures of a department or division, including the total department/division FTEs

NOTE: Vineyard restructured its Chart of Accounts starting in FY 2023 to enable more specific tracking of expenditures between different departments and divisions. As such, many of the expenditure tables for each department and division will have similar budget categories with different account numbers, identifying which accounts were used in prior years compared with the current budget year.

GOALS AND PERFORMANCE MEASURES

2024-2025 GOALS AND PERFORMANCE MEASURES - yearly goals to track progress toward accomplishing each departmental mission. Icons on each performance measure indicate which key strategic plan goal the measure relates to. Please note there are two years of historical data for some measures, and less if the goals or performance measures were developed more recently.

NON-DEPARTMENTAL

BUDGET DETAIL

The Non-Departmental budgetary division has historically included a variety of contracted services and interfund transfers within the City. Aside from interfund transfers, the current budget year also includes funds for items that don't have a clear tie to a department or division. As such, this is a budgetary division only, with no organizational structure and related goals and measures.

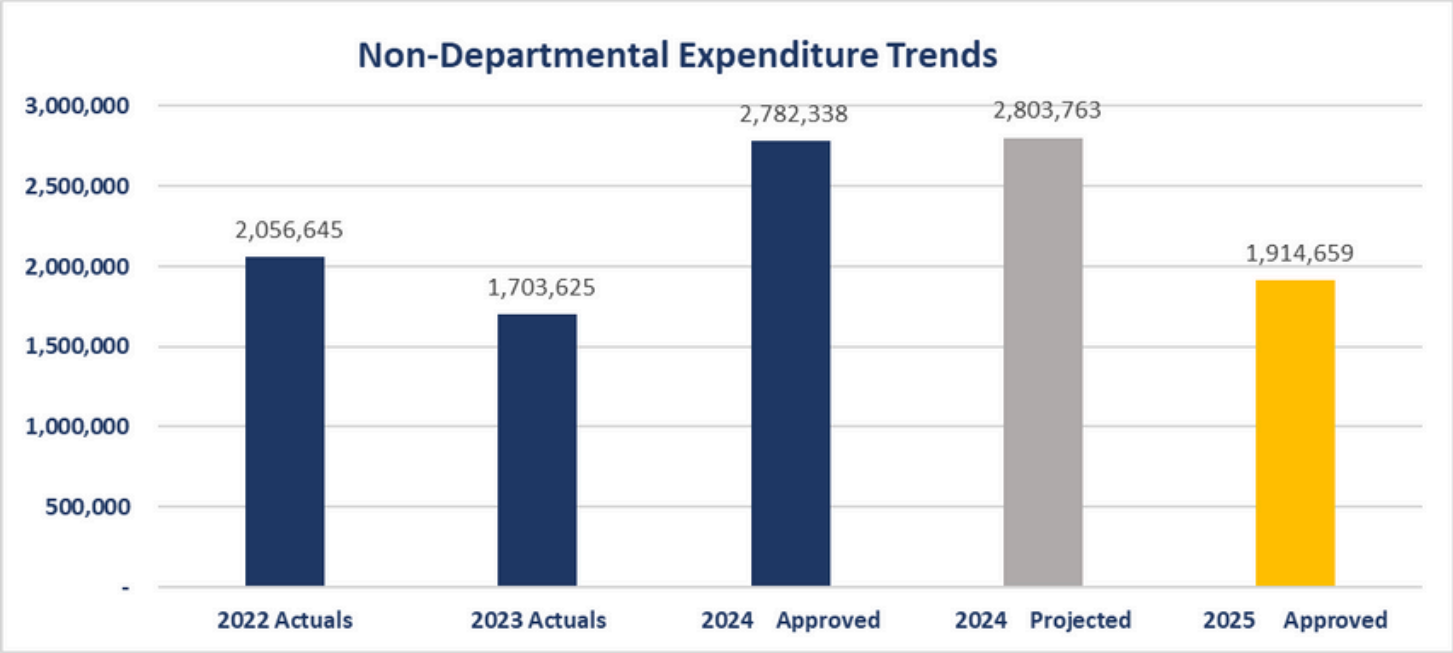
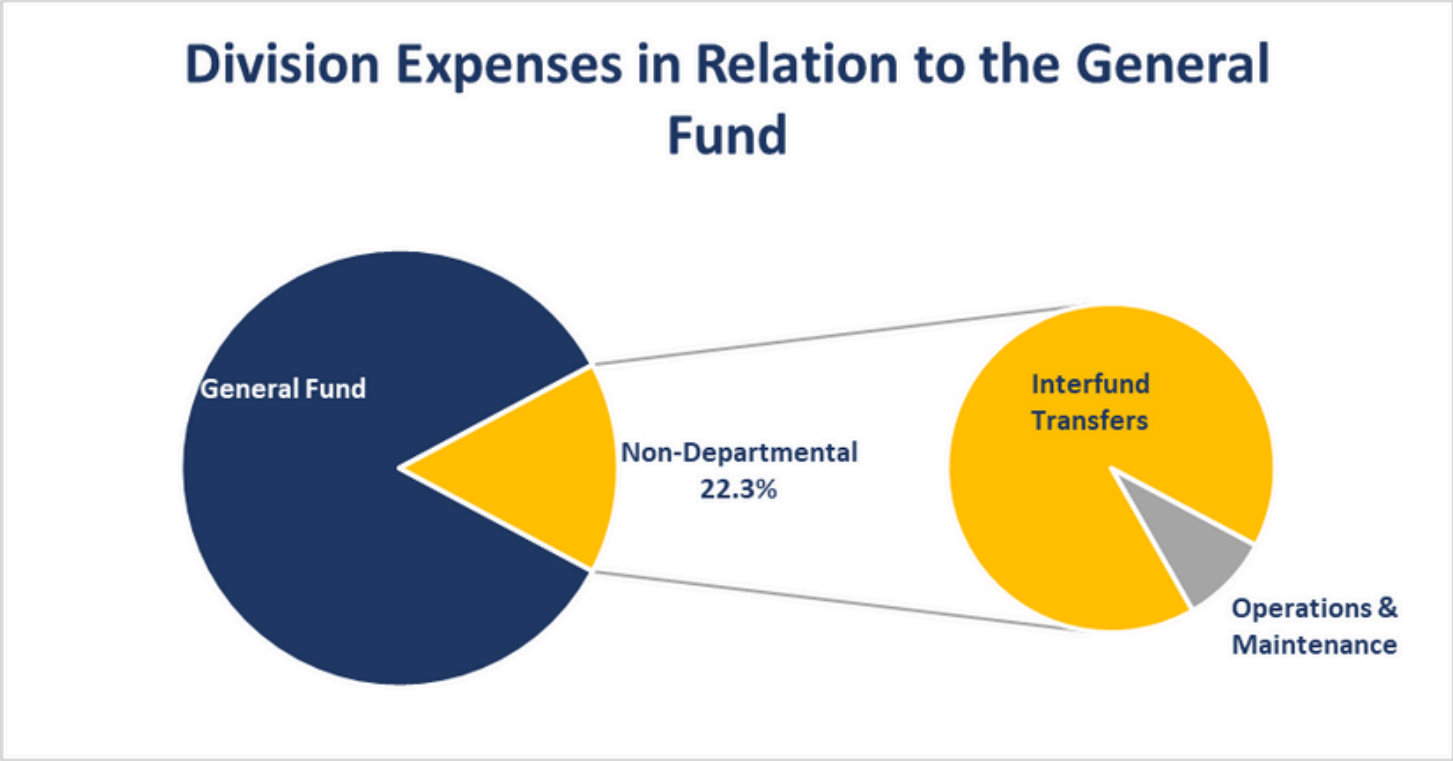
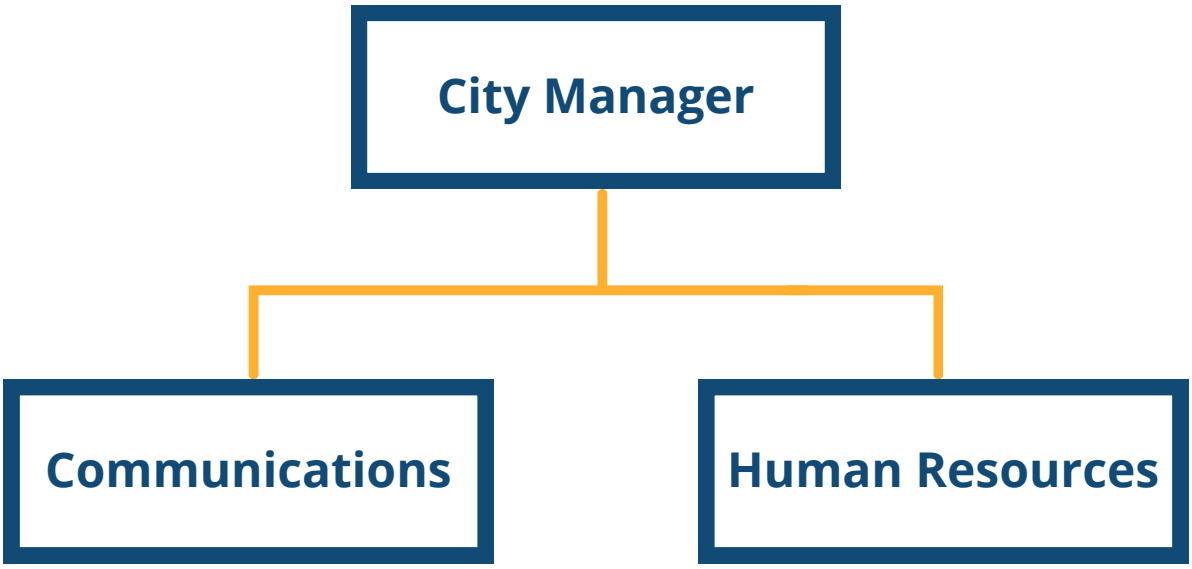
NON-DEPARTMENTAL





ADMINISTRATION



The Administration Department is comprised of the City Manager, Communications, and Human Resources divisions of the City. The department is in charge of the implementation of many policies and procedures within the City and public relations with the community. While the Human Resources Division falls under the Administration Department from a supervisory standpoint, its budget is found in the Internal Services Fund.

CITY MANAGER DIVISION - BUDGET DETAILS

CITY MANAGER DIVISION - GOALS & PERFORMANCE MEASURES

1. IMPROVE ACCOUNTABILITY BY ENSURING DEPARTMENTS ESTABLISH MEASURABLE GOALS THAT ARE TRACKED, FOLLOWED UP ON, AND SUPPORTED WITH APPROPRIATE RESOURCES

Why is it important?

City operations are ultimately a collective of the work of individual departments. Nothing is improved without adequate tracking. By departments having more accountability and specific goals to work towards, City operations will be improved, and amenities and services will be enhanced.

What will we do?

As part of the Yearly Evaluation Process, departments will establish goals that reflect their department objectives for the benefit of the public. Goals will be broken down into measurable accomplishments so department heads can track their progress and focus on concrete improvement measures.

Performance Measures:

1.1 Each department/division will establish 2-3 goals that they will work on for the coming year.

1.2 Departments/divisions will accomplish their goals and improve quarter-over-quarter.

1.3 The City Manager will reevaluate the completion of these goals periodically and with the department head at their yearly review to support and provide necessary resources for department heads to accomplish them.

Space Intentionally Left Blank

2. INCREASE THE LEVEL AND EFFICIENCY OF COMMUNICATION WITHIN THE ORGANIZATION, TO THE ELECTED OFFICIALS, AND TO THE PUBLIC

Why is it important?

Making our communication more succinct will highlight important details for public-facing actions and will increase our internal ability to communicate to other departments and elected officials. Cross-collaboration between departments has been shown to improve employee morale and sense of purpose for people working within an organization. Increasing connectivity in communication will increase transparency and confidence in City operations.

What will we do?

“You don’t really understand something unless you can explain it to your grandmother.” A quote often attributed to Albert Einstein is the basis for this goal. As City leaders, we need to be able to break down the complex parts of our job to explain to each of our citizens. The City will work to be more cross-collaborative between departments and be able to provide succinct executive level summaries of projects they are working on.

Performance Measures:

2.1 The City Manager will provide executive summaries to the Council as part of the first council meeting of each month.

2.2 The City Manager will work with the communications team to assure the City’s programs and major projects are highlighted on its various communication channels; social platforms, website, and/or the City’s mobile app.

2.3 The City Manager will ensure staff reports provide well-vetted policy recommendations for members of Council to consider. The vetting process may include a combination of public input, work session discussions, inclusion of best practices, and/or the advice of experts and consultants from pertinent fields.

COMMUNICATIONS DIVISION

The Communications Division disseminates information about the City to residents, businesses and stakeholders. The Division coordinates with all of the other City departments and divisions to collect information on all aspects of City operations to present to the public through a variety of tactics. These tactics include several social media platforms, Podium, targeted weekly emails and monthly newsletters, Facebook Live, and print and broadcast media. The Division also builds strategic relationships with entities through public relations efforts and public outreach to enhance the overall regard for Vineyard's elected officials and staff throughout the city, county, and state.

COMMUNICATIONS DIVISION - BUDGET DETAILS

COMMUNICATIONS DIVISION - GOALS & PERFORMANCE MEASURES

1. CREATE A BRANDING GUIDE FOR THE CITY

Why is it important?

A comprehensive branding guide is essential for the City to maintain a consistent, professional, and cohesive image across all printed and digital materials. By providing clear guidelines on logo usage, color schemes, typography, and tone of voice, the guide ensures that all City communications align with the City's identity and values.

What will we do?

Create a thorough branding guide that staff can use when putting out printed or digital material to the City.

Performance Measures:

1.1 Create a comprehensive branding book that employees can refer to when necessary.

1.2 Ensure staff is fully implementing the City's branding.

Space Intentionally Left Blank

COMMUNICATIONS DIVISION - GOALS & PERFORMANCE MEASURES

1. INCREASE CITY-RESIDENT COMMUNICATION

Why is it important?

Effective communication between City officials and residents is essential for building transparency, trust, and community engagement. When residents are actively informed and able to provide feedback, it fosters a sense of connection and participation.

What will we do?

To strengthen communication and transparency, we will implement strategies focused on proactive messaging and increasing opportunities for feedback such as Increase Surveys to help increase feedback from residents, Proactive Messaging to help residents feel connected to the City, and Interactive Platforms, the City will be implementing an app to make receiving information an easy process and reaching out to the public even easier.

Performance Measures:

2.1 Increase the number of both short-term and long-term surveys throughout the City.

2.2 Implementing and promoting the new Vineyard City app.

Space Intentionally Left Blank

LIBRARY DIVISION - BUDGET DETAIL

The Vineyard Children's Library was originally opened in May of 2021. The library relocated to its new location during June of 2022 to serve Vineyard's children and their caregivers. The objective of the library is to maintain and circulate a well-balanced, up-to-date, accurate, and desirable collection of materials to meet the informational, recreational, and cultural needs of children from infancy to grade 12. In 2024, the library has continued to grow its programs by adding programs geared more towards pre-teen ages such as Coding and Science Club.

Currently, the library has one full time employee who is supervised by the Communications Manager. The library also relies on a number of wonderful community volunteers to provide all of the programs and activities that are available.

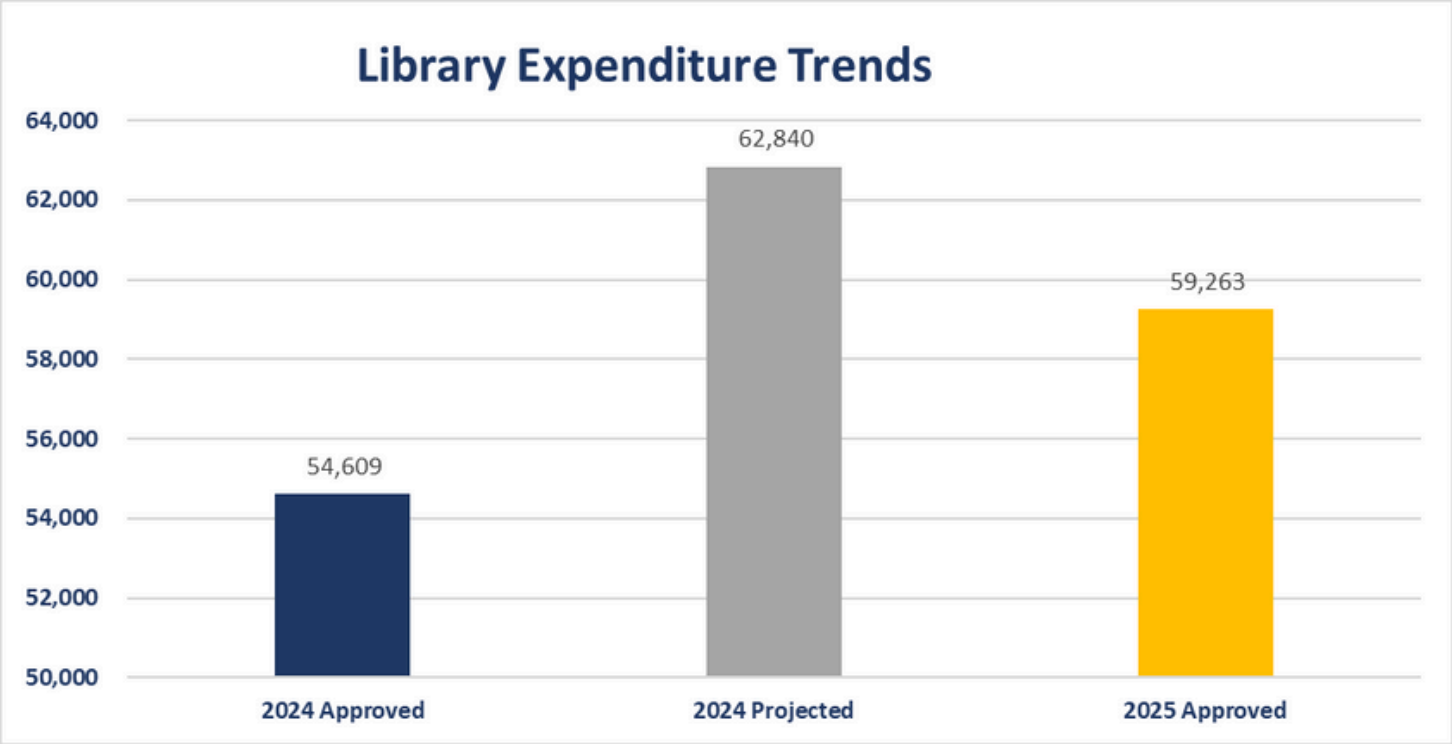
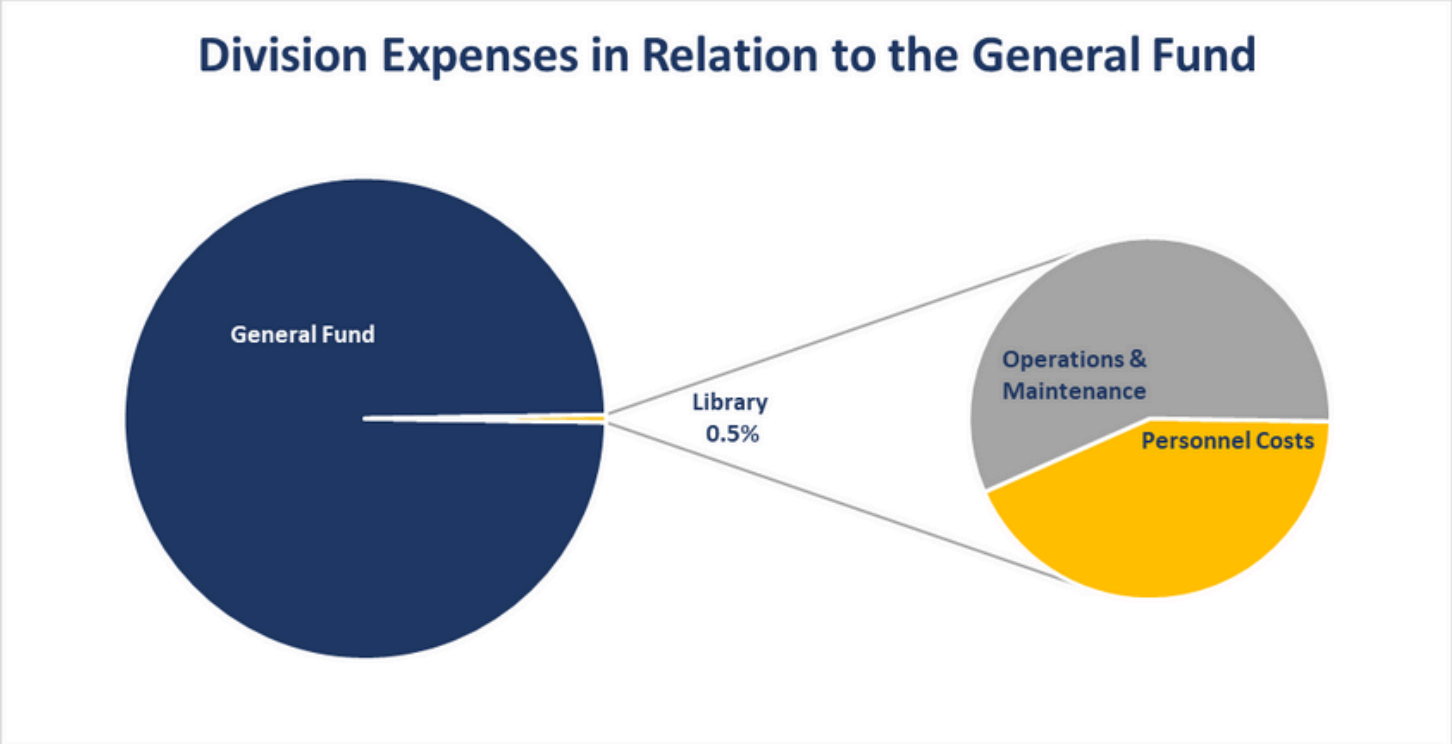
LIBRARY DIVISION - BUDGET DETAIL





LIBRARY DIVISION - GOALS & PERFORMANCE MEASURES

1. INCREASE THE NUMBER OF RESIDENTS WITH A VINEYARD CHILDREN'S LIBRARY CARD

Why is it important?

The number of patrons with a library card indicates how many residents are aware of and have engaged with the library.

What will we do?

The Library Department will promote the library and its programs through a variety of tactics to encourage attendance and interaction with the library.

Performance Measures:

1.1 Increase number of library card holders to 1,000.

1.2 Increase number of materials circulated.

MAYOR & COUNCIL - BUDGET DETAILS

1. ESTABLISH AND MAINTAIN A TECHNOLOGY INFRASTRUCTURE THAT SUPPORTS ECONOMIC DEVELOPMENT GOALS, CITY SERVICES, AND TRANSPORTATION INFRASTRUCTURE, AND IS FLEXIBLE ENOUGH TO CHANGE AS NEW AND BETTER TECHNOLOGIES EMERGE

Why is it important?

Vineyard is an innovative community. We want to be the best city for innovative projects and be on the cutting edge of future technology.

What will we do?

The City will utilize effective permitting and licensing software as well as asset management software. Both of these will enable the City to better serve its customers and improve the efficiency with which the City operates.

Performance Measures:

1.1 Permitting and licensing software utilized.

1.2 Asset management software implemented.

Space Intentionally Left Blank

2. PROVIDE OPPORTUNITIES FOR MODERATE INCOME HOUSEHOLDS TO PURCHASE ATTAINABLE HOUSING TO SUPPORT THE ECONOMIC VITALITY OF THE COMMUNITY

Why is it important?

Vineyard is an inclusive community. We strive for a diverse economy and want people to be able to afford to start families and careers here.

What will we do?

The City will continue to encourage the planning and development of moderate-income housing.

Performance Measures:

2.1 Number of moderate-income housing units.

RECORDER'S OFFICE - BUDGET DETAILS

RECORDER'S OFFICE - GOALS & PERFORMANCE MEASURES

1. IMPROVE ACCESSIBILITY OF RECORDS

Why is it important?

One of the most important values in public service is transparency. A major part of transparency is the ability for the public (especially residents) to access information about the policies and practices of their city. Improving the ease of access to City records will enable citizens to more easily understand and engage civically.

What will we do?

The Recorder's Office will update and maintain all records in a searchable format for transparency and ease of public access, whether through the City website or a record request.

Performance Measures:

1.1 Work on updating the records into a searchable format within six months.

1.2 Compile individual records, such as ordinances, etc., index and upload to relevant data management locations.

Space Intentionally Left Blank

2. IMPROVE TIMESAVING SEARCHABILITY

Why is it important?

Another important public service value is efficiency, which greatly contributes to the long-term sustainability of a city. Increasing efficiency will enable the staff to complete tasks more quickly, allowing City resources to go further.

What will we do?

The Recorder's Office will create digital versions of all City records, decreasing the time it will take for employees to find needed documents. This includes creating digital versions of City records from past decades.

Performance Measures:

2.1 Compile agreements, index and upload them to relevant data management.

2.2 Search, record, number all agreements, and add to retention schedules.

Space Intentionally Left Blank

3. TO HAVE VINEYARD STAFF EMBRACE RECORDS AND DATA MANAGEMENT TECHNOLOGY

Why is it important?

The Recorder's Office manages documents and agreements for the City of Vineyard. They also record and transcribe all the meetings held by the City.

What will we do?

The Recorder's Office currently uses data management software to help with document management efficiency. They are striving to train other departments in the use of Laserfiche for data management. New agenda management software was introduced to staff in December of 2023 and fully implemented in February of 2024.

Performance Measures:

3.1 Departments independently use the agenda software program with occasional questions. The Recorder's office is putting together an annual training to be presented at departmental staff meetings. This will train staff on the use of our data management software and document retention.

3.2 Meet with department heads, managers, team leads. Have them assign a team member to import documents to Laserfiche. Train team members in Laserfiche.

The Finance Department is responsible for managing the financial affairs of the City. Its main tasks include budgeting, accounting, revenue collection, financial reporting, and ensuring compliance with federal and state financial regulations. The department handles the allocation of funds, monitors expenditures, manages debt, and oversees investments to ensure the efficient and transparent use of public funds. Additionally, the department analyzes economic trends, prepares financial forecasts, and provides financial advice to support informed decision-making by local officials. The Finance Department also handles the utility billing for all City provided utility services.

FINANCE DEPARTMENT - BUDGET DETAILS

FINANCE DEPARTMENT - GOALS & PERFORMANCE MEASURES

1. IMPROVE FINANCIAL TRANSPARENCY TO RESIDENTS

Why is it important?

Citizen trust is the key to innovation. Trust is generated through transparency, engagement, performance, and accountability. Citizens are invited to City Council meetings to understand and contribute to the governing of their own city. They develop trust in their elected officials and the professional staff working on their behalf.

What will we do?

The Finance Department will create materials to help the public understand the role and functions of their government, especially the financial and budgetary aspect, and how they can contribute as citizens to helping make Vineyard a thriving city.

Performance Measures:

1.1 Create and submit an annual budget book to the Government Finance Officers Association (GFOA), detailing government structure, functions and financial health, earning a Distinguished Budget Presentation Award each year.

1.2 Create and publish an annual Citizen's Budget - a condensed and simplified guide for residents to understand how their tax contributions are being used.

1.3 Create and submit an annual comprehensive financial report to GFOA, providing citizens with the information they need to assess the financial health of Vineyard, earning the Certificate of Achievement Award (COA).

1.4 Create and submit a popular annual financial report to GFOA, condensing many aspects of the annual comprehensive financial report to provide citizens a more readily understandable version of the City's financial reports, earning the Popular Annual Financial Reporting (PAFR) Award.

2. DEVELOP SUSTAINABLE FINANCIAL POLICIES THAT WILL ACCOMMODATE THE PROJECTED CITY GROWTH AND CHANGES IN DEMANDS ON RESOURCES AND AMENITIES

Why is it important?

Vineyard is one of the fastest growing cities in the state of Utah. As the City physically expands and the population grows, there is an increasing need for well-drafted and well-executed financial policies that will allow each department to run effectively and maintain a high level of service.

What will we do?

The Finance Department will work with all other departments in the City to develop financial policies that will address the changing needs of the City and maintain good fiscal health.

Performance Measures:

2.1 Update two finance-related City policies to ensure that the policies adapt to meet the needs of a rapidly growing city.

2.2 Update policy on reporting fraud and abuse as a safeguard against potential fraud risk.

2.3 Update a policy on cash receipting and deposits to better codify the procedures carried out by the Finance Department.

The Community Development Department works to shape the future of Vineyard by generating an extraordinary vision for the General Plan and maintaining the Zoning Ordinance. The department works to protect the health, safety, and welfare of the residents and businesses, to guide and manage future growth and development, and to promote the orderly use of lands within the City by ensuring all developments are consistent with both the General Plan and Zoning Ordinance. In fiscal year 2024, the business licensing function moved from the Recorder's Office to the Community Development Department.

COMMUNITY DEVELOPMENT DEPARTMENT - BUDGET DETAILS

1. IMPROVE THE SERVICE EXPERIENCE FOR ALL CUSTOMERS, AIMING FOR EXPEDIENCY AND EFFICIENCY

Why is it important?

As the City physically expands and the customer base grows, it becomes increasingly important to improve the service experience for all customers. This will ensure that we can meet the rising demand while maintaining high standards of expediency and efficiency.

What will we do?

To improve the service experience, we will implement a satisfaction survey for permit applicants, target a 24-hour response time for inquiries, and track repeated complaints. The website will be updated monthly with development status and story maps, and the application process will be reviewed annually for clarity and accessibility.

Performance Measures:

1.1 Create a satisfaction survey, distributed to all entries that have applied for permits, to assess quality of service received, and work to obtain a 50% response rate.

1.2 Strive for a 24-hour or less inquiry response time for all inquiries to enhance communication and measure the number of complaints received by the same person on the same issue.

1.3 Update the website monthly with development status and story maps.

1.4 Complete an annual update of the application process to make it clear for the public's consumption.

2. COMPLETE ONGOING MASTERPLANNING PROCESS

Why is it important?

The ongoing master planning process is essential for guiding the City's growth and development, ensuring that it evolves in a sustainable and organized manner. Completing these plans will help manage resources effectively, meet community needs, and maintain a cohesive vision for the City's future.

What will we do?

We will produce at least three annual updates to the General Plan or other relevant development plans as needed. Additionally, we will aim to complete 50% of ongoing master plans each year and ensure the implementation of finalized master plans.

Performance Measures:

2.1 Produce at least three annual updates to the General Plan and annual updates to the General Plan or other development plans as needed.

2.2 Complete 50% of ongoing master plans each year.

2.3 Implement completed/finalized master plans.

Space Intentionally Left Blank

3. CREATE A HEALTHY AND ROBUST COMMERCIAL PRESENCE IN THE COMMUNITY

Why is it important?

Creating a healthy and robust commercial presence is vital for the local economy, supporting job creation, increasing tax revenues, and enhancing the overall quality of life in the community. A thriving commercial sector also attracts investment, fosters innovation, and provides essential services to residents.

What will we do?

We will launch the Vineyard Business Association to support local businesses, develop financial programs through the RDA like small business loans and tax incentives, and produce an annual Economic Development Report to track progress and growth.

Performance Measures:

3.1 Initiate Vineyard Business Association

3.2 Research and develop strategies to implement financial programs through the RDA such as small business loans, tax increment reimbursement, etc.

3.3 Amend ordinance or agreements to allow for live-work units in POD 1.

3.4 Produce an annual Economic Development Projects and Activity Report.

4. UPDATE DEVELOPMENT CODES AND POLICIES

Why is it important?

Updating development codes and policies is crucial to ensure that the City's planning and development align with current laws, best practices, and community needs. It helps maintain an efficient, sustainable, and well-organized urban environment while addressing emerging issues.

What will we do?

We will meet quarterly with the Planning Commission to review planning issues, update the Subdivision and Site Plan Code to meet state laws (50% per year), adopt a short-term rental program, establish a zoning ordinance for the Station Area Plan, and update the parking code based on the parking study findings.

Performance Measures:

4.1 Meet with Planning Commission on a quarterly basis to update and review planning issues as they arise.

4.2 Update the Subdivision and Site Plan Code to conform with updated state laws (50% per year).

4.3 Adopt a short-term rental program.

4.4 Adopt a zoning ordinance for the Station Area Plan.

4.5 Update the parking code to reflect findings from the parking study project.

5. ADOPT THE VINEYARD ECONOMIC DEVELOPMENT STRATEGIC PLAN (EDSP) WHY IS IT IMPORTANT?

Adopting the Vineyard Economic Development Strategic Plan (EDSP) is vital for shaping the City's long-term economic growth, ensuring sustainable development, and addressing the dynamic needs of the community. A strategic plan will help guide decision-making, improve resource allocation, and foster partnerships that support economic vitality.

What will we do?

We will work on developing the EDSP by collaborating with key stakeholders, including local businesses, community members, and consultants. The Finance Department will take the lead in coordinating efforts across departments to ensure the plan is comprehensive, well-structured, and aligned with the City’s goals.

Performance Measures:

5.1 Establish a steering committee to provide feedback to staff and consultants.

5.2 Give monthly updates to the City Manager and City Council as to the status of the plan throughout the process.

5.3 Obtain a high level of involvement from local and regional stakeholders in eight stakeholder meetings with at least 50% business participation.

6. IMPROVE INTERNAL COMMUNICATION AND COORDINATION WITH OTHER DEPARTMENTS FOR INCREASED EFFICIENCY

Why is it important?

Improving internal communication and coordination is essential for enhancing efficiency, reducing delays, and ensuring that all departments work together seamlessly. This will lead to better decision-making, quicker service delivery, and more effective execution of city projects.

What will we do?

We will support Development Services in updating and streamlining application processes. We will also create agendas for at least 75% of internal and external meetings to ensure clear communication and efficient discussions. Additionally, we will hold weekly meetings with Engineering to improve work coordination and address issues more effectively.

Performance Measures:

6.1 Support Development Services to update, improve, and streamline application processes.

6.2 Create agendas for at least 75% of internal and external meetings i.e., DRC, department staff meeting, Pre-Con meetings, etc.

6.3 Hold weekly meetings with Engineering for better work coordination at least 50% of the time.

7. DEVELOP AND MAINTAIN AN EFFICIENT WORKING RELATIONSHIP WITH COMMUNITY MANAGERS WITHIN VINEYARD

Why is it important?

Developing and maintaining efficient working relationships with community managers is crucial for fostering collaboration, addressing community needs, and ensuring the success of local projects. Strong relationships will enhance communication and align the goals of the City with the needs of residents and stakeholders.

What will we do?

We will establish a working community with community managers and hold quarterly quadrant meetings to ensure regular communication and collaboration. Additionally, we will aim for active participation from key stakeholders such as the Vineyard Business Association, developers, city staff, and residents in these meetings.

Performance Measures:

7.1 Establish the working community and hold quarterly quadrant meetings.

7.2 Achieve a high level of involvement from stakeholders i.e., Vineyard Business Association, developers, city staff, and residents/property owners in meetings with at least 10% stakeholder participation.

BUILDING DEPARTMENT - BUDGET DETAILS

	2023	2024	2025
Building			
Building Official	1	1	1
Deputy Building Official	1	1	1
Building Inspector in Training	2	1	1

BUILDING DEPARTMENT - BUDGET DETAILS

BUILDING DEPARTMENT - GOALS & PERFORMANCE MEASURES

1. TO CONTINUALLY WORK TO IMPROVE CUSTOMER SERVICE TO RESIDENTS AND CONTRACTORS

Why is it important?

In order to encourage developers and residents to choose Vineyard, the department prioritizes efficiency and quality service to guarantee all customers a satisfying experience. The department continues to serve as a model within the region for providing regulatory services and exceeding customer expectations as it manages burgeoning residential and commercial growth.

What will we do?

The Building Department will continue to make the process of scheduling and paying for permits and inspections convenient and accessible. The department will also adhere to a 10-day turnaround time to review submitted residential plans - 4 days faster than the state mandate.

Performance Measures:

1.1 Maintain next-day inspections when scheduling building inspections.

1.2 Maintain a 10-day turnaround for submitted plans.

Space Intentionally Left Blank

2. TO PROMOTE BUILDING SAFETY IN THE COMMUNITY

Why is it important?

Encouraging safety in the home through education is important during all stages of development. Informing residents of safety procedures and routine maintenance care in terms that are accessible and using sources they know and trust can prevent safety hazards and issues helping make homes and Vineyard a safer place.

What will we do?

The Building Department will promote and enhance the public's involvement and participation in Building Safety month through public outreach. This will help increase the public's awareness of the importance of building safety and how to increase it in the community.

Performance Measures:

2.1 Have at least 50 public participants in Building Safety Month events.

Space Intentionally Left Blank

3. TO CREATE AND TRAIN A DEPARTMENT THAT VALUES PERSONAL AND PROFESSIONAL DEVELOPMENT

Why is it important?

The success of the Building Department relies on the individual and collective knowledge and expertise of all its members. As opportunities to enhance their professional expertise and personal leadership skills are provided, the department's quality of service offered will improve, and continuity of management is ensured.

What will we do?

The Building Department will allow for staff to participate in local professional chapters, with a target of at least one member serving on the board of each organization. The department will also make accommodations for every staff member to attend at least 18 hours of training a year.

Performance Measures:

3.1 Representation by at least one staff member on boards of local building professional chapters.

3.2 Every staff member attends at least 18 hours of training a year.

PARKS AND RECREATION DEPARTMENT - BUDGET DETAILS

PARKS DIVISION - BUDGET DETAILS

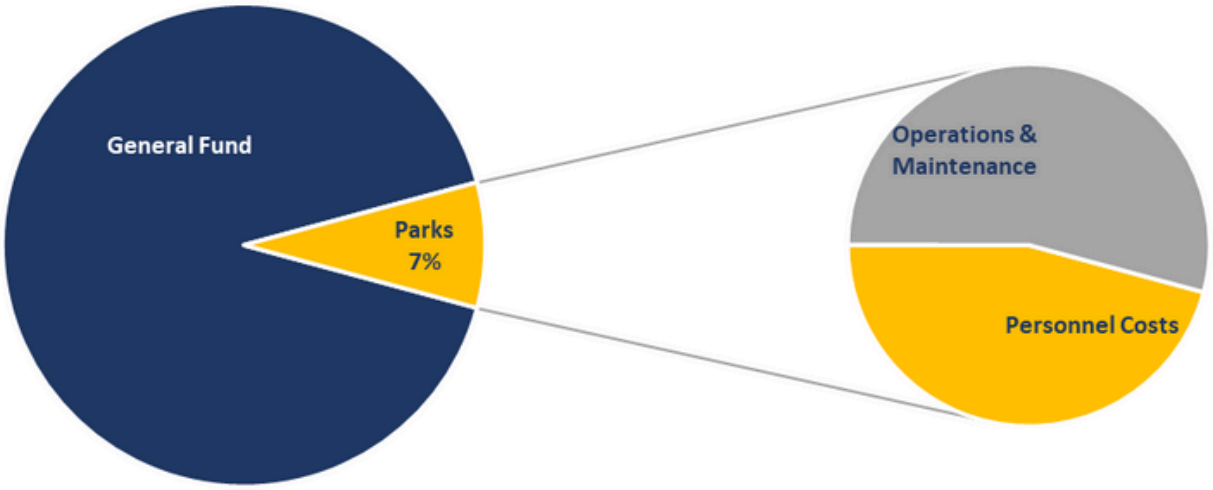
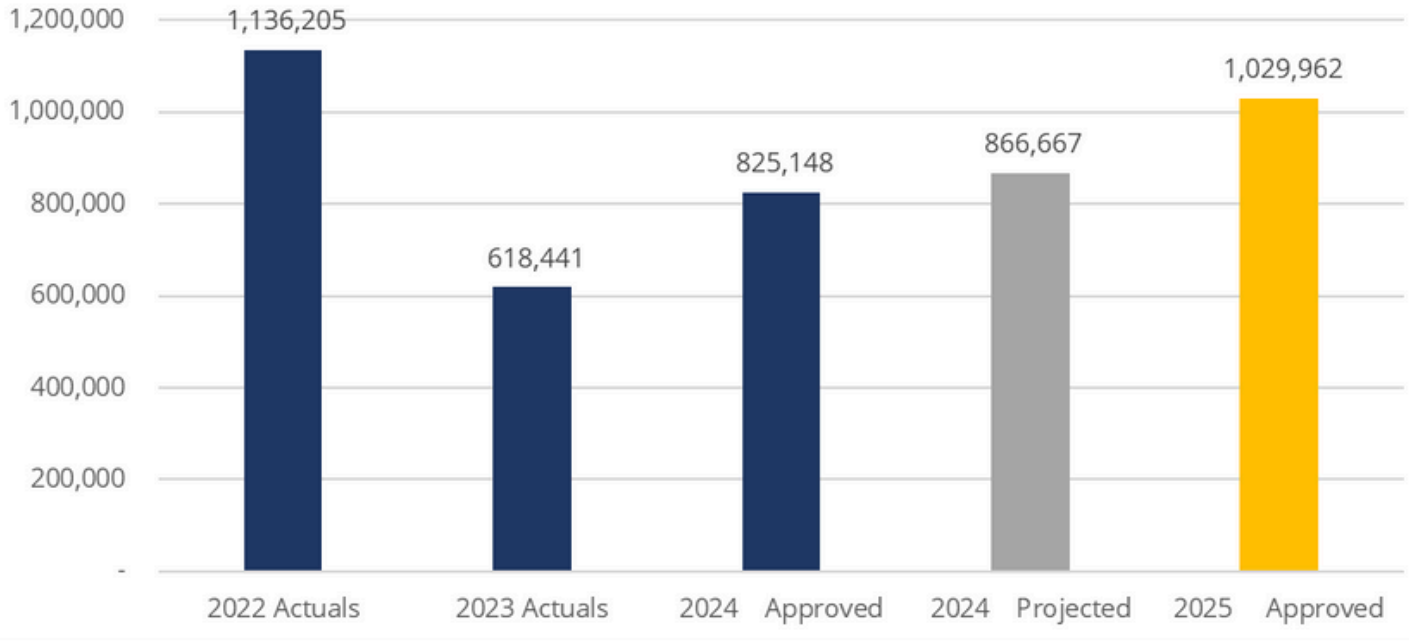
Division Expenses in Relation to the General Fund



Parks Expenditure Trends



PARKS DIVISON - GOALS & PERFORMANCE MEASURES

1. ENHANCE AESTHETIC APPEAL AND USABILITY OF PUBLIC SPACES AND FACILITIES THROUGH REGULAR MAINTENANCE AND BEAUTIFICATION

Why is it important?

Investing in the beauty and natural environment of Vineyard City not only increases the quality of life for residents but also helps establish Vineyard as a unique place. Well-maintained park amenities allow residents to become healthier as they enjoy parks and trails, feel more connected to their communities as they interact in clean spaces, and develop a sense of pride that can translate to support and promotion of the work their local government does.

What will we do?

The Parks Division will work to keep parks and public spaces clean, healthy, and welcoming through a staff that is trained and invested in the goals of the division. The division will also perform regular and thorough surveys of park facilities to complete maintenance and determine necessary improvements.

Performance Measures:

1.1 Perform monthly inspections of every City-owned play area and splash pad.

1.2 Implement Gammon Park upgrades to make the park more presentable and welcoming.

1.3 Have all full-time employees obtain AFO, CPSI, and Non-Commercial Pesticide Applicator certifications by the end of the fiscal year.

1.4 Make all garbage cans uniform throughout the City.

1.5 Keep a record of all inspection reports.

RECREATION DIVISION - BUDGET DETAILS

Total	**3.5**	**4.73**	**5.5**

The Recreation Division was created in 2018 as a response to the continued population growth and increasing demand for additional recreational services. The division works to promote healthy lifestyles and community unity by working to facilitate activities and resources that make Vineyard a fun, engaged, and active community. The Recreation Division is responsible for organizing community events such as races, tournaments, and managing youth and adult sports leagues.

RECREATION DIVISION - GOALS & PERFORMANCE MEASURES

1. ENHANCE THE QUALITY OF CURRENT RECREATION PROGRAMS

Why is it important?

With an active Vineyard community consisting of individuals and families, there is demand for high-caliber recreation program offerings. To satisfy Vineyard resident needs and continue to grow in recreation participation, there is a need to ensure our programs are well organized and well managed.

What will we do?

The Recreation Division will work to provide quality programs to the Vineyard community by: incorporating pre-season deadline checklists, finding higher quality jerseys/shirts, and improving seasonal staff recruitment and retention.

Performance Measures:

1.1 Create a deadline checklist prior to opening each program's online registration to ensure organization in program planning and execution.

1.2 Find higher-quality shirts to purchase for races in the 2024-2025 fiscal year.

1.3 Will look into other sports that can be added to enhance the current line up.

Space Intentionally Left Blank

2. PROVIDE RESOURCES FOR FAMILIES IN POVERTY TO PARTICIPATE IN RECREATION PROGRAMS

Why is it important?

Making Vineyard City a place of inclusion can allow for added diversity, value, and unity. Improved affordability can result from efforts to lower program registration fees.

What will we do?

The Recreation Division will work to implement a process to improve the ability for families in poverty to participate in Vineyard recreation programs.

Performance Measures:

2.1 Create a process for families in poverty to participate in Vineyard recreation programs.

SPECIAL EVENTS DIVISION - BUDGET GOALS

	2023	2024	2025
Special Events			
Special Events Manager	1	1	1.5
Total	**1**	**1**	**1.5**

The Special Events Division is responsible for organizing and running the special events that are sponsored by Vineyard City throughout the year. Most notably, this includes planning and putting on the annual Vineyard Days community event, which draws thousands of residents for activities like vendor booths, food trucks, carnival rides, and a fireworks display. The division is also responsible for receiving and processing special event permit requests from outside entities and making recommendations to the City Council for event approval or denial.

SPECIAL EVENTS DIVISION - BUDGET DETAILS

1. ESTABLISH A STRONG PARTNERSHIP FOR EVENTS WITH THE ARCH COMMISSION

Why is it important?

The ARCH Commission is a newly formed group of Vineyard residents that will help shape the vision for the City's arts, recreation, parks, culture, and heritage. Involving the Commission in decisions regarding special events will ensure that the residents' voices are being heard and accounted for when determining what type of events the city residents want to see.

What will we do?

The Special Events Division will collaborate with each ARCH Commission member to create an innovative approach to our City events and restructure and/or add to events based on the feedback from the Commission. The division will also establish a feedback system that allows the ARCH Commission the opportunity to propose new ideas or improvements after each event.

Performance Measures:

1.1 ARCH Commission feedback system established.

Space Intentionally Left Blank

2. IMPLEMENT THE NEW PERMITTING SOFTWARE SYSTEM TO ENHANCE THE SPECIAL EVENT PERMITTING PROCESS

Why is it important?

Implementing the new permitting software system for special events will streamline the process of requesting special event permits and improve the customer experience.

What will we do?

The Special Events Division will create a workflow process within the permitting software to ensure all groups involved in the special event permitting process have an opportunity to review, comment, and make recommendations. The division will also update application requirements based on the current code.

Performance Measures:

2.1 Will continue to work on streamlining process as we become more familiar with the new software.

2.2 Update application requirements based on the current code.

Space Intentionally Left Blank

3. CREATE OPPORTUNITIES FOR COMMUNITY ENGAGEMENT AND FEEDBACK

Why is it important?

The more feedback that we receive from residents, the more applicable the events we offer will be to the wants of those residents.

What will we do?

The Special Events Division will develop a plan for public outreach to educate the community about the ARCH Commission and the opportunity to attend and participate in ARCH Commission meetings. The division will regularly evaluate and assess Vineyard residents' feedback and make necessary improvements to enhance events in the City. This feedback can be collected through semi-annual surveys and City Council meetings.

Performance Measures:

3.1 Community Public Outreach Plan developed.

3.2 Semi-annual survey published.

CROSSING GUARDS

	2023	2024	2025
Public Safety			
Crossing Guards	2.5	1.3	1.52
Total	**2.5**	**1.3**	**1.52**

The Police Division function is provided by contract with the Utah County Sheriff's Office. Including the additions in this budget, we have one lieutenant, two sergeants, eight patrol deputies, as well as a school resource officer, detective, and part-time office specialist that are dedicated to the city. The division spends 100% of ITS time working in city limits. This contract is renewed on an annual basis and position requests are handled similarly to other departments in the City. As this division is primarily contracted out, the only organizational structure included specifically in the Police Division budget are the crossing guards.

PUBLIC SAFETY DEPARTMENT - POLICE DIVISION

POLICE DIVISION - GOALS & PERFORMANCE MEASURES

1. IMPROVE AND MAINTAIN EMERGENCY RESPONSE TIMES

Why is it important?

Response time goals must be tailored to the local community and take into consideration the division's overall strategies, geography, demographics, and how emergency calls are prioritized. In a community that is rapidly growing and nowhere near built-out, this goal will help influence the size of the department and its relationship with the public.

What will we do?

The Police Division will work to improve response times for Priority 1 and 2 calls through improvements in staffing and dispatching.

Performance Measures:

1.1 Achieve and maintain a response time of <4 minutes for all high-priority calls.

Space Intentionally Left Blank

2. MAINTAIN APPROPRIATE STAFFING LEVELS TO ADDRESS RESIDENT NEEDS AS THEY ARISE, AND TO ESTABLISH A PRESENCE THAT WILL PROMOTE PEACE AND SAFETY

Why is it important?

The size and character of a police division and the types of services that it provides are a reflection of the personality and demands of the community. Determining the appropriate allocation and deployment of officers to meet that demand is essential to efficient and impactful policing.

What will we do?

The Police Division will perform regular analysis of the current and projected future workloads expected as the City grows to ensure adequate staffing by hiring qualified officers.

Performance Measures:

2.1 Consistently maintain a police-officer-to-resident ratio of 1:1650.

Space Intentionally Left Blank

FIRE DIVISION - BUDGET DETAILS

The Fire and EMS Service functions are provided by contract with the City of Orem. The current contract is a 5-year contract that began in 2023 and may be auto-renewed every 5 years until 2036.

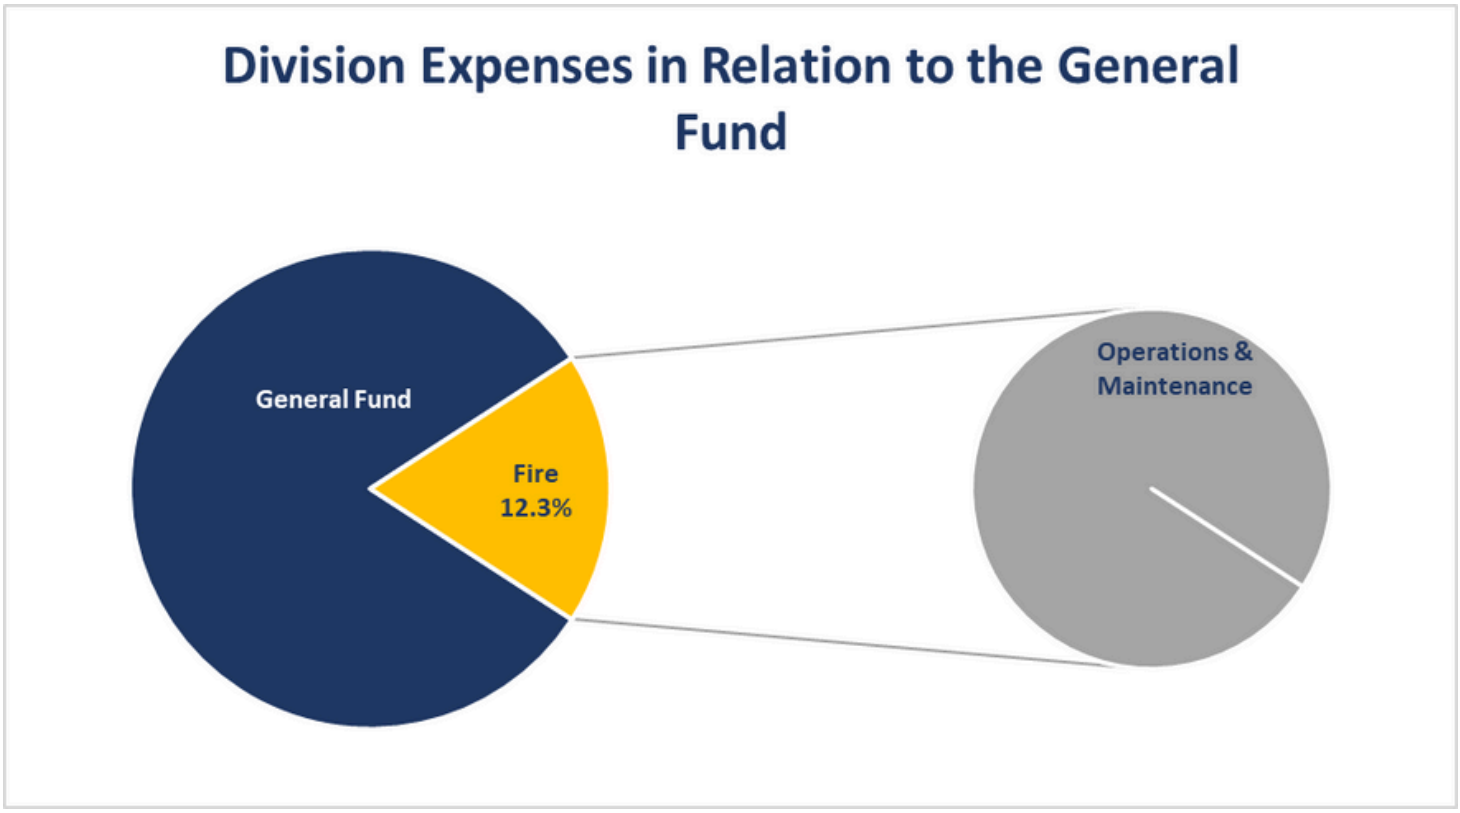
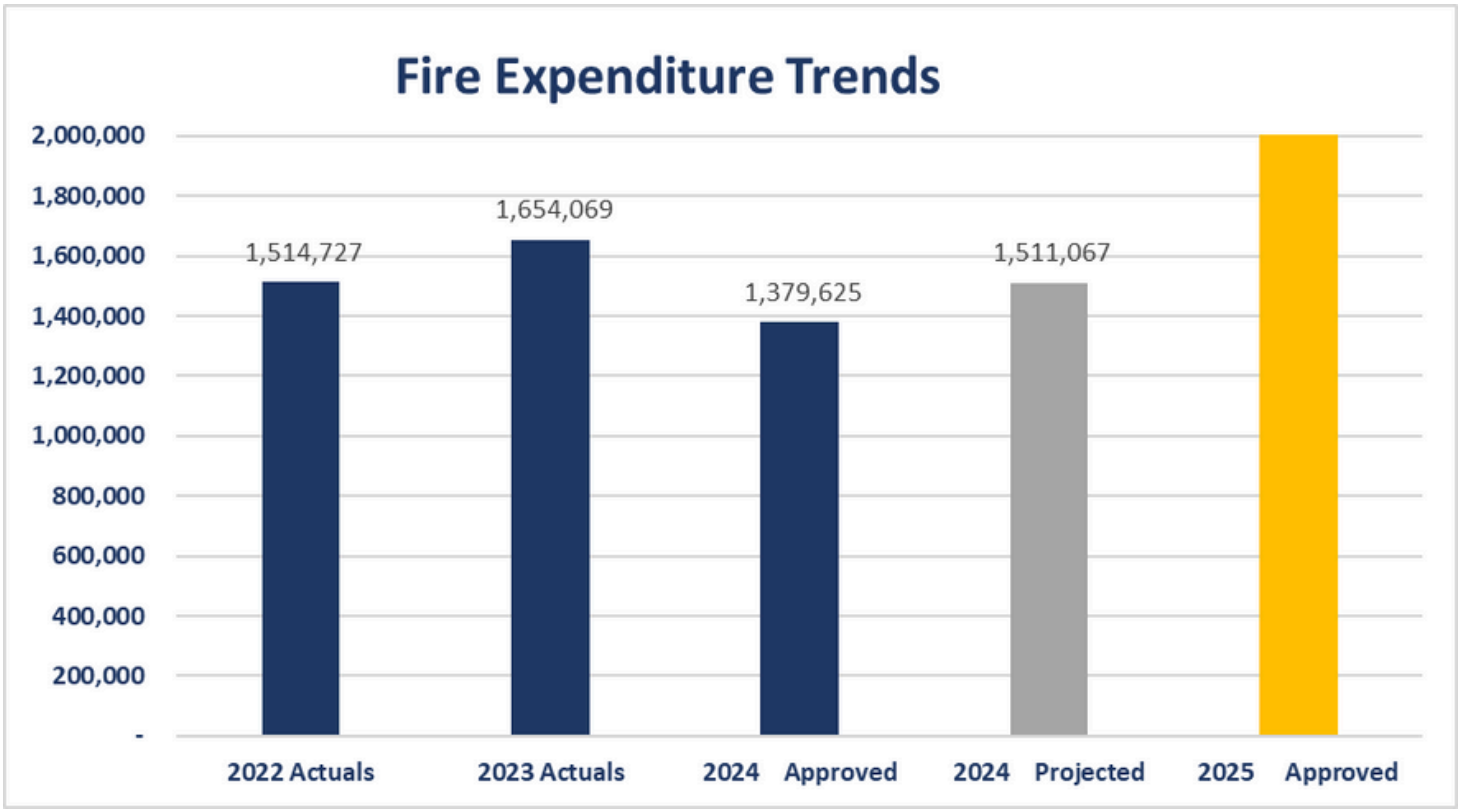
FIRE DIVISION - BUDGET DETAILS





FIRE DIVISION - GOALS & PERFORMANCE MEASURES

1. IN CONJUNCTION WITH VINEYARD CITY LEADERSHIP, FINALIZE THE STATION AND STAFFING MODEL, SUPPORTING THE TIMELINE IDENTIFIED IN THE CONTRACT CURRENTLY UNDER REVIEW

Why is it important?

Because of Vineyard's rapid growth, we need to plan appropriately for the buildout of a massive downtown development and be ready for high-density areas as it arrives.

What will we do?

The Fire Department will continue working with Vineyard City leadership to finalize the fire station and staffing model.

Performance Measures:

1.1 Construction of a new firehouse is set to finish July 2025.

1.2 The City will hire 6 full time firefighters in conjunction with the completion of the firehouse.

Space Intentionally Left Blank

2. PARTICIPATE IN A MINIMUM OF SIX PUBLIC RELATIONS EVENTS IN THE FISCAL YEAR 2025

Why is it important?

Because Vineyard is a contract city, the Fire Department wants to help the residents feel as appreciated as they would if they had their own fire department. These events will help increase public trust.

What will we do?

The Fire Department will continue to participate in Vineyard City public events to increase visibility, provide education, and build relationships of trust with the residents of Vineyard.

Performance Measures:

2.1 Number of public relations events actively participated in.

Space Intentionally Left Blank

PUBLIC WORKS - ADMIN AND MAINTENANCE DIVISON

	2023	2024	2025

Maintenance Manager/Arborist	0	0	1
Public Works Technician	2.5	2.5	3.5
Seasonal Public Works Technician			1.08
Total	**2.5**	**2.5**	**5.58**

The Public Works Department is charged with the construction, operation, maintenance, and replacement of the public infrastructure, making sure that all of the utility systems (sewer, land drain, water, and storm drain) are in excellent working condition to ensure the health, safety, and comfort of the residents of Vineyard. In addition to this, the department maintains 30 plus miles of public roadways, 60 plus miles of walking/biking trails, and approximately 52.29 acres of public parks as well as landscaping along the sidewalks and trails. Due to the interconnectedness of the public works system, some staff members are part of several departments. The Administration and Maintenance division of the department is shown here, and the other divisions will follow.

ADMIN AND MAINTENANCE DIVISON - BUDGET DETAIL

1. ENHANCE ASSET MANAGEMENT

Why is it important?

Streamlining our asset management will create more efficient planning and resource allocation.

What will we do?

Public Works will transition assets into the new asset management system.

Performance Measures:

1.1 Ensure all assets are integrated into the new system by the end of the fiscal year.

1.2 Conduct quarterly audits of asset data accuracy, achieving a 95% accuracy rate.

Space Intentionally Left Blank

2. IMPROVE WORK ORDER EFFICIENCY

Why is it important?

Efficiently addressing maintenance and service requests will enhance resident satisfaction.

What will we do?

Public Works will transition work orders into an electronic work order system.

Performance Measures:

2.1 Achieve a 90% or higher closure rate for emergency work orders within 24 hours.

2.2 Maintain a 95% or higher closure rate for all work orders within 7 work days.

2.3 Collect and analyze feedback to continuously improve response times.

Space Intentionally Left Blank

3. PROVIDE EXCELLENT CUSTOMER SERVICE WITH A STREAMLINED PROCESS

Why is it important?

Ensuring that customer service in development processes meets high standards enhances the experience of residents, developers, and applicants while streamlining the process for efficiency.

What will we do?

Public Works will strive to provide exceptional customer service by addressing inquiries, concerns, and applications promptly and professionally while streamlining the development process for efficiency.

Performance Measures:

3.1 Respond to customer inquiries within 24 hours.

3.2 Maintain a 90% or higher customer satisfaction score.

3.3 Achieve a 15% reduction in the average time required for development application processing.

Space Intentionally Left Blank

4. INVENTORY AND ASSESS TREES

Why is it important?

Properly managed and preserved city trees provide environmental and aesthetic benefits.

What will we do?

Public Works will incorporate a City-wide tree condition assessment and inventory into an electronic system.

Performance Measures:

4.1 Assess and document the health and condition of 90% of City trees.

4.2 Plant a minimum of 50 new trees in designated areas.

4.3 Implement recommended maintenance actions for 80% of assessed trees.

Space Intentionally Left Blank

5. ENHANCE PUBLIC PARK STRIPS

Why is it important?

Enhancing and properly maintaining public park strips improves public spaces and the City's overall appearance.

What will we do?

Public Works will implement the "Flip-The-Strip Project" for 1.5 miles of public park strips.

Performance Measures:

5.1 Successfully transform and upgrade designated park strips with water-efficient landscaping.

5.2 Monitor and report a 30% increase in community satisfaction with park strip enhancements.

5.3 Document a 15% reduction in ongoing park strip maintenance costs driven by water-saving practices and technology.

Space Intentionally Left Blank

6. EFFICIENTLY MAINTAIN VINEYARD CITY'S FACILITIES AND FLEET WHILE ACHIEVING A 10% COST REDUCTION OVER FIVE YEARS

Why is it important?

Efficient maintenance of City facilities and fleet ensures the continued provision of essential services to residents by City staff.

What will we do?

Public Works will employ a strategic maintenance approach, emphasizing prevention, cost-effective repairs, and resource optimization, aiming to reduce costs by 10% over five years while maintaining top-notch facilities and fleet performance.

Performance Measures:

6.1 Reduce annual maintenance costs by a minimum of 2% each year for the next five years.

6.2 Increase the utilization rate of City fleet vehicles by 15% by the end of five years.

6.3 Implement a predictive maintenance program for all City facilities, reducing unscheduled downtime by 20% within the first three years.

6.4 Conduct an annual review of maintenance processes to identify areas for further cost reduction and operational improvement, with documented outcomes.

ENGINEERING DIVISION - BUDGET DETAIL

	2023	2024	2025
Engineering			
City Engineer	1	1	1
Assistant City Engineer	0	1	1
Engineering Inspector	1	1	1
Total	**2**	**3**	**3**

The Engineering Division strives to protect the public's health and safety through sound engineering judgment with excellent customer service to our customers. The Engineering Division handles the construction administration, standard drawings, and specifications as well as administers the Utah Pollutant Discharge Elimination System (UPDES). Other services they are in charge of include: infrastructure planning, maintenance, and construction as well as utility fees, impact fees, and Right of Way (ROW) permitting. In prior years, the Engineering budget was contained within the general Public Works budget.

1. MAINTAIN UPDATED MASTER PLANS

Why is it important?

Ensuring that long-term planning remains current and relevant will help the City to develop and grow in the way that is desired by the elected officials and residents of the City.

What will we do?

The Engineering Division will regularly review and update master plans.

Performance Measures:

1.1 Review and update master plans every two years, ensuring compliance.

1.2 Document and track all significant changes or additions made to master plans.

1.3 Collect stakeholder feedback through surveys and public meetings, measuring a minimum 20% increase in stakeholder satisfaction with plan updates.

Space Intentionally Left Blank

2. ALIGN WITH STATE DEVELOPMENT STANDARDS

Why is it important?

Ensuring that development standards comply with state regulations will help with the consistency and compliance of developments within the City.

What will we do?

The Engineering Division will align City development standards with Utah's state standards.

Performance Measures:

2.1 Conduct an annual audit to confirm compliance with state standards.

2.2 Document any revisions or updates to development standards.

2.3 Monitor and report a 3-week turnaround in development application review times.

Space Intentionally Left Blank

SANITATION DIVISION - BUDGET DETAIL

The Sanitation Division is responsible for taking care of solid waste needs in the City. Vineyard contracts with Republic Services for sanitation services. As such, the division is simply budgetary, and has no organizational structure.

WATER DIVISION - BUDGET DETAIL

WATER DIVISION - GOALS & PERFORMANCE MEASURES

1. DRINKING WATER COMPLIANCE

Why is it important?

Water is the lifeblood of the planet. Safe, clean drinking water is essential to maintaining a vibrant and sustainable community. Compliance with the state environmental requirements for drinking water is crucial for ensuring the health and safety of the community.

What will we do?

The Water Division will proactively manage the water distribution system to consistently meet and surpass the environmental requirements established by the State of Utah.

Performance Measures:

1.1 Maintain a 100% compliance rate with all State of Utah environmental regulations for drinking water throughout the fiscal year.

1.2 Conduct monthly water quality tests and achieve zero instances of non-compliance during the year.

1.3 Conduct inspections of all fire hydrants every two years, documenting and making needed repairs.

1.4 Provide comprehensive annual reports to regulatory authorities.

1.5 Monitor state regulations, ensuring that all required adjustments are made prior to the required compliance date.

WASTEWATER DIVISION - BUDGET DETAIL

	2023	2024	2025
Water and Wastewater			
Environmental Utilities Manager	1	1	1
Environmental Utilities Crew Leader	1	1	2
Environmental Utilities Operator	4	4	4
Total	**6**	**6**	**7**

The Wastewater Division works to maintain a collection system that provides a safe and reliable mechanism for all wastewater contaminants disposed of in household or business sinks, toilets, and floor drains. The division ensures compliance with the National and Utah Pollutant Discharge Elimination Systems (NPDES & UPDES) as it manages the transfer of wastewater to nearby treatment facilities. The division operates and maintains 3 pump stations and 33 miles of sewer lines to safeguard the health of residents and employees.

WASTEWATER DIVISION - BUDGET DETAIL

WASTEWATER DIVISION - GOALS & PERFORMANCE MEASURES

1. SANITARY SEWER COMPLIANCE

Why is it important?

Ensuring the system complies with state regulations will prevent sanitary sewer violations and help safeguard the environment.

What will we do?

The Wastewater Division will implement measures to achieve zero reportable sanitary sewer violations.

Performance Measures:

1.1 We will conduct daily inspections of lift stations to ensure proper operation.

1.2 Complete inspections of all sewer manholes annually to determine maintenance needs and make corrections.

1.3 Sewer lines to be cleaned every two years to ensure no flow restrictions.

1.4 Video inspection of all sewer lines every three years to verify no flow restrictions and compliance with Fats, Oils and Grease discharge limits.

1.5 Annual asset management inspections to track life-cycle costs for budgeting repairs and replacements for lift stations.

STORMWATER DIVISION - BUDGET DETAIL

	2023	2024	2025
Streets and Stormwater			
Streets and Stormwater Manager	0	1	1
Streets Manager/Public Works Inspector	1	0	0
Streets and Stormwater Operator	3	2	3
	4	**3**	**4**

The Stormwater Division works to provide and maintain a system for handling stormwater runoff in compliance with the National and Utah Pollutant Discharge Elimination Systems (NPDES & UPDES). It achieves this by controlling discharges of pollutants to the City's stormwater system and maintaining and improving the quality of the receiving waters into which the outfall flows, including lakes, rivers, streams, ponds, wetlands, and groundwater of the City. The division subsequently protects and enhances the environment of the City, as well as public health, safety, and the general welfare of the residents.

STORMWATER DIVISION - BUDGET DETAIL

STORMWATER DIVISION - GOALS & PERFORMANCE MEASURES

1. SWIFT STORMWATER DISCHARGE RESPONSE

Why is it important?

Rapidly addressing illicit stormwater discharge protects the environment and the public health.

What will we do?

The Stormwater Division will clean up stormwater illicit discharge within 24 hours.

Performance Measures:

1.1 Respond to and resolve 100% of stormwater illicit discharge incidents within 24 hours.

1.2 Document and report any environmental impact assessments for discharge incidents.

1.3 Maintain an average response time of 12 hours for stormwater discharge cleanup.

The Transportation Division's mission is to maintain and improve the transportation infrastructure of the City to produce a safe, reliable, accessible, and efficient system—thereby promoting a livable and vibrant community across the City. The Transportation Division is responsible for the care and maintenance of the City's 30 plus miles of public roadways, and 60 plus miles of walking/biking trails. The division also works to forecast future infrastructure needs for the City in order to manage current and future transportation needs.

TRANSPORTATION DIVISION - BUDGET DETAIL

TRANSPORTATION DIVISION - GOALS & PERFORMANCE MEASURES

1. MAINTAIN PAVEMENT QUALITY

Why is it important?

As cities age, failure to consistently invest in infrastructural maintenance can lead to unexpected costs when problems arise, significant transportation issues, and potentially catastrophic endangerment to human lives. Maintaining the pavement quality will ensure safe and accessible roads for residents and visitors and improve the overall transportation infrastructure.

What will we do?

The Transportation Division will regularly assess and repair city-wide pavements.

Performance Measures:

1.1 Maintain an average pavement condition score of 70% or higher.

1.2 Complete annual pavement condition surveys with a minimum of 90% coverage.

1.3 Repair reported potholes within 48 hours of notification.

Space Intentionally Left Blank

INTERNAL SERVICE FUND - BUDGET DETAIL

The Internal Service Division is primarily a budgetary division. The supervisory structure for employees that are paid out of this fund is included in various other departments of the City, such as the Public Works Department for facilities and fleet maintenance, and the Administration Department for human resources. The purpose of this fund is to manage the needs of the fleet, facilities, information systems, and human resources that are internal to the City operations.

INTERNAL SERVICE FUND - BUDGET DETAIL

HUMAN RESOURCES DIVISION - BUDGET DETAILS

	2023	2024	2025
Internal Services			
Human Resources Manager	1	1	1
Administrative Assistant	1	1	1
Total	**2**	**2**	**2**

The Human Resources Division is part of the Administration Department. In previous years, the human resources functions of the City were divided between the Finance Department, Communications Manager, and a contracted Human Resources employee. Starting in FY 2023, the City of Vineyard hired a full-time Human Resources Manager to manage hiring, onboarding, training, payroll, and benefits.

Space Intentionally Left Blank

1. TALENT ACQUISITION AND RETENTION ENHANCEMENT: STREAMLINE RECRUITMENT PROCESSES AND IMPLEMENT STRATEGIES TO ATTRACT, HIRE, AND RETAIN TOP TALENT TO BUILD A SKILLED AND COMMITTED WORKFORCE.

Why is it important?

Building a skilled and committed workforce is crucial for the City's success. Skilled employees are more likely to contribute to the company's growth and innovation. Attracting and retaining top talent can lead to increased productivity, higher-quality work, and improved customer satisfaction. Employee turnover is costly, so retaining talent can help reduce recruitment and training expenses.

What will we do?

We will implement a recruitment strategy that includes targeted job postings, candidate assessment methods, and response times; enhance onboarding procedures to ensure new hires integrate smoothly into the organization and feel engaged from the start; and conduct employee satisfaction surveys and analyze feedback to identify areas of improvement for retention strategies, including career development and work-life balance initiatives.

Performance Measures:

1.1 Average time taken to fill open positions 60 days or less.

1.2 Maintain an employee turnover rate under 15% (Number of employees who left during the year / Average number of employees during the year x 100).

1.3 Achieve a satisfaction rate of 80% or higher in new hire onboarding surveys.

2. EMPLOYEE WELL-BEING AND ENGAGEMENT ENHANCEMENT: PROMOTE A SUPPORTIVE WORK ENVIRONMENT, PRIORITIZE EMPLOYEE WELL-BEING, AND STRENGTHEN OVERALL ENGAGEMENT LEVELS.

Why is it important?

Employee well-being directly impacts productivity and job satisfaction. Employees who are physically and mentally healthy are more engaged and perform better. Engaged employees are more likely to stay with the company, reducing turnover and associated costs. Team-building activities and recognition programs create a positive work environment, fostering a sense of belonging and loyalty. High employee engagement is linked to increased job performance, which can lead to better business outcomes.

What will we do?

We will introduce wellness initiatives such as health challenges and mindfulness workshops to foster physical and mental well-being; organize regular team-building activities, both in-person and virtual, to enhance camaraderie and create a sense of belonging among employees; and recognize and celebrate employee achievements through a structured recognition program that highlights outstanding contributions and milestones.

Performance Measures:

2.1 Maintain engagement levels of at least 85%, measured with employee engagement surveys.

2.2 Maintain at least 70% employee participation in wellness activities.

2.3 Maintain a post-event satisfaction rate of 90% or higher, measuring the impact of team-building activities on employee relationships and morale with post-event surveys.

CITIZENS BUDGET

Fiscal Year 2024-2025

Vineyard, Utah

BUDGET PROCESS

2025
Road to the Budget

1 FEBRUARY 2024
- City Council Budget Retreat
  Mayor, Council and department heads met to discuss goals for the coming year
- Set City Council Goals/Priorities for FY25
  Mayor, Council and City Manager met to discuss individual priorities and goals for the upcoming year.

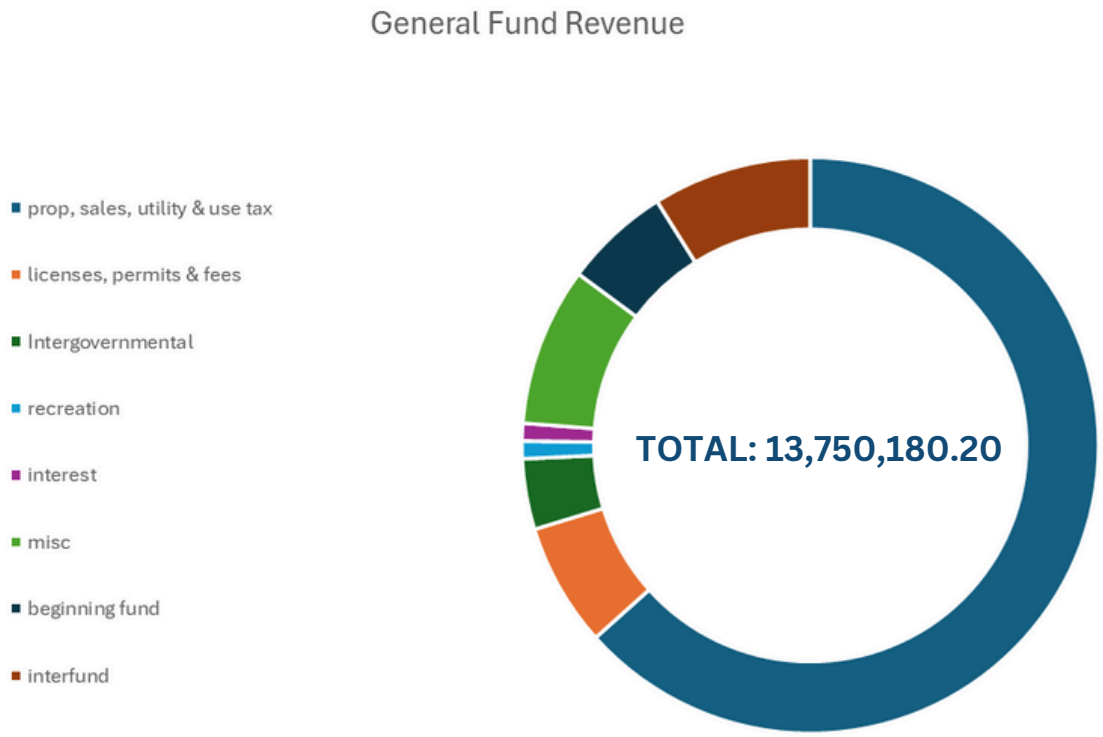
2 MARCH 2024
- Revenue Projection
  Finance Department began making financial projections
- Goal Analysis
  Finance Department began analyzing goals from the annual retreat
- Budget Packets
  Finance Department sent out budget packets to other departments
- Department Meetings
  Department heads met to discuss budget requests

3 April 2024
- Compile Budget Document
  Finance Department created a budget document from department requests
- Budget Distribution
  City Council received preliminary budget and will begin their review
- Budget Work Session
  Finance Department presented the tentative budget in a work session

4 May 2024
- Tentative Budget Adoption
  Finance Department created a budget document from department requests
- Tentative Budget Public Hearing
  City Council took public comments regarding the tentative budget

5 July 2024
- City Council Adopts the Final Budget
  City Council adopted the final budget and set the certified tax rate
- City Council Sets Certified Tax Rate
  City Council adopted and set the certified tax rate

REVENUES



Where do the General Fund revenues come from?

VARIOUS TAXES
Transportation Tax, Franchise Tax, RAP (Recreation, Arts and Parks) Tax, Sales Tax, Property Tax

64%

LICENSES, PERMITS, & FEES
Fees collected from building permits and business licenses, fire inspections, plan reviews and other development related fees.

7%

BEGINNING FUND APPROPRIATION
Funds transferred in from the prior year to use for specific projects.

6%

INTERFUND TRANSFERS
Funds transferred in from the Redevelopment Agency.

9%

INTER-GOVERNMENTAL
Funds received from other governmental entities, i.e., State of Utah, Utah County, etc.

4%

RECREATION FEES
Fees for participating in the various recreation programs offered by the city.

1%

INTEREST EARNINGS
Revenue from various investments.

1%

MISCELLANEOUS
Rents, concessions, and donations from private sources.

- Elected Officials
- Library

21%

HIGHWAY/PUBLIC IMPROVEMENTS

Managing infrastructure to create a safe and healthy environment
- Sanitation Services
- Public Works
- Engineering

12%

PARKS AND RECREATION

Creating recreation and outdoor opportunities for residents
- Parks
- Recreation

13%

HOW ARE YOUR TAX DOLLARS DISTRIBUTED?

SALES TAX

Vineyard's sales tax is 1%. For every dollar spent in Vineyard, one penny is collected as sales tax. One half of the penny goes to Vineyard, and the other half is put into a state-wide pool which is distributed to all the cities in Utah based on their population.

50% Point-of-Sale goes directly to the City

50% Distributed to each city based on population

PROPERTY TAX

Your property taxes help fund services provided by Utah County, Vineyard City, Alpine School District and the Central Utah Water Conservancy District (CUWCD).

The Utah County Assessor sets the value of your home, 55% of that value is taxable. For example, according to the US Census, the median home value in Vineyard is $431,000. 55% of that value--$237,050 is taxable.

For a home of that value, a total of $2,261.69 is paid in property taxes; $1,308.04 to the school district, $185.14 to Utah County, $94.82 to CUWCD, and $673.70 to Vineyard City.

LOOKING FORWARD

Rail Spur Removal:

Removal of old rail spurs in order to provide new transportation and development access.

Shade Sails:

Shade sails will be added to Vineyard Grove Park to provide shade to the playground area.

Grocery Store:

Construction on the City's first grocery store will begin in 2025.

Firehouse:

Construction of the firehouse will finish summer of 2025.

Downtown:

The City is working with developers to develop approximately 400 acres of land that make up the planned Downtown.

CITY COUNCIL GOALS

Enhanced Amenities:

Provide enhanced amenities by investing in a connected system of parks and trails that will highlight the uniqueness of our community and set us apart.

Multi-Modal Transport:

Provide the most diverse and interconnected transit system in the State.

Long-Range Planning:

Promote sustainable growth in the City by enhancing our long-range plan.

Economic Development:

Continued focus on economic development to provide a diverse and sustainable tax base for the City and amenities for the residents.

VINEYARD AT A GLANCE

VINEYARD IS COMMITTED TO SUSTAINABLE GROWTH, ACCESSIBILITY, AND CREATING A CITY THAT INSPIRES A SENSE OF BELONGING WHERE PEOPLE ARE ENTICED TO LIVE, WORK, AND PLAY.

GLOSSARY

A

ACTUAL: Actual, as used in the fund summaries and department and division summaries within the budget document, represents the actual cost results of operations. This category is presented on a GAAP basis, with the exception that depreciation and amortization are not budgeted and principal payments on debt in the enterprise funds are budgeted as expenses.

ACCRUAL: Accumulation or increase of something over time, especially payments or benefits.

ADOPTED: Adopted, as used in the fund summaries and department and division summaries within the budget document, represents the budget as approved by the City Council.

ADOPTED BUDGET: The financial plan for the fiscal year beginning July 1.

ALLOCATION: To set aside or designate funds for a specific purpose. An allocation does not authorize the expenditure of funds.

AMENDED OR REVISED BUDGET: The current year adopted budget adjusted to reflect all budget amendments approved by the City Council through the date indicated.

APPROPRIATION: An authorization made by the legislative body of a government which permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one-year period.

ARCH: Arts, Recreation, Culture, Heritage Commission

AUDIT: Thorough review of an organization's financial records or other processes to ensure compliance.

B

BALANCED BUDGET: A financial plan of operation in which revenues equal expenditures for the fiscal year. A balanced budget is required of municipalities by the State law.

BALANCE SHEET: A statement presenting the financial position of an entity by disclosing the value of its assets, liabilities and equities at a specified date.

BEGINNING FUND BALANCE: The Ending Fund Balance of the previous period (See ENDING FUND BALANCE).

BOND: A written promise to pay (debt) a specified sum of money (called principal or face value) at a specified future date (called the maturity date(s) along with periodic interest paid at a specified percentage of principal (interest rate). Bonds are typically used for long-term debt.

BUDGET: A plan of financial operation embodying an estimate of proposed means of financing them. Used without a modifier, the term usually indicated a financial plan for a single fiscal year. The term “A budget” is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes it designates the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether it has been approved by the appropriating body.

BUDGET AMENDMENT: A change in expenditure levels and corresponding resources needed to accomplish an existing service level or unanticipated service. All budget amendments are reflected in the current year budget and have been approved by City Council.

BUDGET CALENDAR: The schedule of essential dates or milestones which a government follows in the preparation and adoption of the budget.

BUDGET DOCUMENT: The official written statement prepared by the budget office and supporting staff which presents the proposed budget to the legislative body.

BUDGET MESSAGE: A general discussion of the proposed budget presentation in writing as a part of or supplement to the budget document. The budget message explains principal budget issues against the background of financial experience in recent years and presents recommendations made by the City Manager.

BUDGET RETREAT: A meeting scheduled for the Mayor and Council with Administration to discuss important issues to be addressed in the budget. The place of the meeting is at a location away from City Hall and usually is at least a one-day event.

BUDGETING: (APPROPRIATING): The City prepares its budget in conformity with practices prescribed or permitted by the applicable statutes of the State of Utah.

C

CAPITAL IMPROVEMENT PLAN: A plan for capital expenditures to be incurred each year over a fixed period of several future years which sets forth each expenditure.

CAPITAL OUTLAYS (EXPENDITURES): Expenditures for the acquisition of capital assets.

CAPITAL PROJECT: Any improvement or acquisition of major facilities with a useful life of at least five years such as roads, bridges, buildings, or land.

CAPITAL PROJECTS FUND: Funds that are used to account for financial resources to be used for the acquisition or construction of major capital projects (other than those financed by proprietary funds).

CERTIFIED TAX RATE (C.T.R.): A tax rate that will provide the same ad valorem property tax revenue for each taxing entity as was levied for the prior year by that entity, plus new growth, less the amount of increase to locally assessed real property taxable values resulting from factoring, reappraisal, or any other adjustment.

CHART OF ACCOUNTS: A financial organizational tool that provides an index of all accounts included in an organization's budget, enabling an organization to record, track, classify and report on transactions.

CONTRACTUAL SERVICES: Includes expenditures for services performed by firms, individuals, or other City departments. Supplies are not included in the contractual services accounts.

D

DEBT SERVICE: Payment of interest and repayment of principal to holders of a government's debt instruments.

DEFICIT: (1) The excess of an entity's liabilities over its assets. (2) The excess of expenditures or expenses over revenues during a single accounting period.

DEMAND: A type of measurement category. Demand represents the external factors that demonstrate the needs for the service(s) or program(s), i.e., population, service area, complaints, and waiting lists.

DEPARTMENT: A major unit of organization in the City comprised of subunits called Divisions.

DEPRECIATION: A decrease or loss in value, because of age, wear, or market conditions. Used in accounting as an allowance made for a loss in the value of property.

DIVISION: A subunit of a Department organization.

E

EFFECTIVENESS: A measure of performance that assesses the extent to which an organization is achieving its stated objectives.

ENDING FUND BALANCE: Funds carried over at the end of the fiscal year. Within a fund, the revenue on hand at the beginning of the fiscal year, plus revenues received during the year, less expenses equals Ending Fund Balance.

ENTERPRISE FUND: A fund used to account for operations that are financed and operated in a manner similar to private business enterprises, wherein the stated intent is that the costs (including depreciation) of providing goods and services be financed from revenues recovered primarily through user fees.

ESTIMATED USEFUL LIFE: The amount of time (usually expressed in years) that a building, piece of equipment, or other fixed asset is expected to be in active use.

EXPENDITURES: Decreases in net financial resources. Expenditures include current operating expenses, which require the current or future use of net current assets, debt

F

FEES: Charges for specific services.

FINANCIAL POLICY: A government's directive with respect to revenues, spending, reserves, and debt management as these relate to government services, programs and capital investment. Financial policy provides an agreed-upon set of principles for the planning and programming of government budgets and its funding.

FISCAL YEAR: Any period at the end of which a governmental unit determines its financial condition and the results of its operations and closes its books. NOTE: It is usually a year, though not necessarily a calendar year.

FORECAST: A prediction of a future outcome based on known and unknown factors.

FULL-TIME EQUIVALENT (FTE): One position funded for a full year. For example, a permanent employee funded and paid for 40 hours/week and 52 weeks/year or 2 employees funded and paid for 20 hours/week and 52 weeks/year would be equal to one full-time equivalent.

FUND: An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves, and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

FUND BALANCE (EQUITY): The excess of an entity's assets over its liabilities. A negative fund balance is sometimes called a deficit.

FUNDING SOURCES: A term referring to the type or origination of funds to finance recurring or non-recurring expenditures. Examples include revenues such as ad valorem taxes, user fees, licenses, permits, and grants and non-revenues such as fund balance and inter-fund transfers.

FUND SUMMARY: A combined statement of revenues, expenditures, and changes in fund balance for the prior year's actual, adopted, estimated budgets, and the current year's adopted budgets.

G

GAAP: Generally Accepted Accounting Practices

GENERAL FUND: A fund that accounts for all financial resources necessary to carry out basic governmental activities of the City that are not accounted for in another fund. The General Fund supports essential City services such as police and fire protection, street maintenance, libraries, and parks and open space maintenance. Revenues to support the General Fund are derived from sources such as property tax, sales tax, franchise fees and service fees.

GFOA: Government Finance Officers Association

GOVERNMENTAL FUND: A category of funds used in government accounting to account for the core services and activities of a government.

GRAMA REQUEST: A request for government records using the Government Records Access and Management Act.

GRANT: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specific purposes.

I

IMPACT FEES: A type of charge for services imposed on new construction in order to support specific new demands on a given service, e.g., transportation, schools, parks and fire protection.

INFRASTRUCTURE: A permanent installation such as a building, road, or water transmission system that provides public services.

INTER-FUND TRANSFER: Amounts transferred from one fund to another.

INTERGOVERNMENTAL REVENUES: Levied by one government but shared on a predetermined basis with another government or class of governments.

M

MISCELLANEOUS (FUNDING SOURCE): Revenues other than those received from standard sources such as taxes, licenses and permits, grants, and user fees.

MISSION STATEMENT: A broad statement of purpose derived from an organization's and/or community's values and goals.

MODIFIED ACCRUAL: A method of accounting that combines methods from both cash basis and accrual basis accounting.

O

OBJECTIVE: A statement specifying achievements to be attained within a prescribed time frame. An objective is exchanged/superseded by another objective at the expiration of the time frame. An objective is directly connected to how the resources of an organization will be used. An objective statement begins with an action verb and includes the quantified statement of the results expected as an outcome of the action.

OPERATING BUDGET: Plans of current expenditures and the proposed means of financing them. The annual operating budget (or, in the case of some state governments, the biennial operating budget) is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government controlled. The use of annual operating budgets is usually required by law. Even where not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government. (See BUDGET)

OPERATING REVENUE: Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day–to–day services.

ORDINANCE: A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form or law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies.

P

PERFORMANCE MEASURE: Data collected to determine how effective or efficient a program is in achieving its objectives.

PERSONNEL SERVICES: Includes the salaries and wages paid to employees plus the City's contribution for fringe benefits such as retirement, social security, health, and workers' compensation insurance.

PROGRAM: A group of related activities performed by one or more organizational units for the purpose of accomplishing a function for which the City is responsible. A program differs from a division from the standpoint that cost centers from different departments may make up a program while cost centers from the same department make up a division.

PROPERTY TAX: Based according to value of property and is used as the source of monies to pay general obligation debt (secondary property tax) and to support the general fund (primary property tax).

PROPRIETARY FUND: Used to account for business-like activities in local government.

R

REDEVELOPMENT AGENCY: An agency of the City created to administer and account for community redevelopment and economic development project areas, which are financed by incremental taxes collected on the properties in the development. The taxes are used to pay back debt created from improving the infrastructure for the project.

RESERVE: An account which records a portion of the fund balance which must be segregated for some future use and which is, therefore, not available for further appropriation or expenditure.

REVENUE: The term designates an increase to a fund's assets which: does increase a liability (e.g. proceeds from a loan); does represent a repayment of an expenditure already made; does represent a cancellation of certain liabilities; and does represent an increase in contributed capital.

S

SERVICE: A program or activity which does not produce a tangible commodity but which nonetheless contributes to the welfare of others (e.g., mail escort, motorized surveillance of neighborhoods, investigation of burglaries, etc.).

SERVICE LEVELS: Describe the present services provided by a city department and/or division within the department.

SPECIAL REVENUE FUNDS: Established to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

STANDARD OPERATING PROCEDURE: Prescribed methods for completing routine operations.

T

TAX RATE: The amount of tax levied for each $100 of assessed valuation.

TAXES: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges as sewer services.

TENTATIVE BUDGET: A preliminary budget created for review of Mayor and Council in the first meeting in May of each year. It is to be available for public inspection 10 days before the final adoption of the budget.

TRANSFERS: A term referring to monies moved from one budgetary fund or sub-fund to another. Because of legal or other restrictions, monies collected in one fund may need to be expended in other funds. A transfer is accomplished through Transfers-In (a source of funds) for the recipient fund and an equal Transfer-Out (a use of funds) for the donor fund. When this movement occurs between different funds, it is known as an Inter-fund Transfer. When it occurs between the restricted and unrestricted portions of the same fund, it is known as an Intra-fund Transfer.

U

USER FEES: Charges for specific governmental services. These fees cover the cost of providing that service to the user (e.g., building permits, animal licenses, park fees).

W

WORKING CAPITAL: The capital of a business which is used in its day-to-day trading operations, calculated as the current assets minus the current liabilities.
