VINEYARD CARES

Vineyard City is pleased to announce we are a new part of the Communities that Care program. Communities that Care (CTC) is a program developed at the University of Washington nearly thirty years ago. CTC has been implemented in several cities in Utah County; including Pleasant Grove, American Fork, Payson, and Eagle Mountain. CTC is focused on prevention science and is proven to create positive outcomes in the communities that implement initiatives.

The Vineyard branch of CTC will be known as Vineyard Cares. Vineyard cares about you!

Jessica Maxwell has been hired to act as the coordinator between Utah County and Vineyard City. You may know Jessica from her work in children's programming this summer. She led Storytime in the Park as well as Music & Movement. Jessica is also heavily involved in the Vineyard Children's Library and assisted with the activities for Library+ Days. Jessica graduated from the University of Utah in 2014 with a Bachelor's of Science Degree in Health Promotion and Education. She has lived in Vineyard for two years with her husband and two daughters. She says, " I have a vested interest in Vineyard. We live here, my children go to school here! I am so excited to bring prevention programs to Vineyard and continue to build and enrich the wonderful people and community we have here."

The main focus of Vineyard Cares will be substance use prevention, anti-bullying campaigns, suicide prevention, and community strengthening programs. To do this, Jessica will be forming a coalition, which will then write a mission statement and begin programs that promote The Social Development Strategy. The Social Development Strategy is proven, by science, to give young people the motivation to adopt healthy standards for behavior. Gone are the scare tactics and dated ways of yester-year, CTC is solely based on evidence-based initiatives. Higher protective factors are proven to lower risk factors.

Vineyard Cares is focused on the health of the rising generations. Health is not only physical wellbeing; it is all encompassing and includes physical, emotional, social, spiritual, and intellectual aspects. Vineyard Cares is about empowering and teaching parents how to arm their children against poor influences. This will create strong bonds, increase protective factors, that will in turn lower risk factors and prevent further tragedy.

If you are interested in Vineyard Cares and would like to join the coalition, Jessica can be reached at jessicam@vineyardcity.org or 801.687.7705

@VINEYARDCARES VINEYARD CARES

The Utah Department of Public Safety has some safety tips regarding bus safety and we'd like to pass a few of those on to you. Have a great school year!

"First of all, slow down. Watch for children – they can come from all directions, especially if they're running late. Yellow flashing lights mean the bus is preparing to stop, load or unload children. Drivers should slow down and prepare to stop. Red flashing lights and extended stop arms mean the bus has stopped and that children are getting on or off. Drivers must STOP and WAIT until the red lights stop flashing, the extended stop arms are withdrawn, and the bus begins moving again before they can continue driving.

When do drivers have to stop for school bus with flashing red lights & stop arms?
•DRIVERS MUST STOP
•On a two-lane road when approaching from front or rear of bus
•On a road with 3 or more lanes, with no median or physical barrier (i.e., just a double yellow line) when approaching from front or rear of bus
•On a road with 3 or more lanes with a median or physical barrier when approaching from rear of bus (drivers approaching from the front of the bus may proceed)
•On a road with 5 or more lanes and a center turn lane when approaching from the rear of the bus (drivers approaching from the front of the bus may proceed).

OPT OUT OF RECYCLING

During the month of September all residents have the opportunity to opt-out of recycling services. If residents currently have a recycling can but no longer want it, they need to fill out a recycling opt-out form and the office will contact the resident once the removal date has been set with further instructions.

OUR HERITAGE

VINEYARD FINDS SOME CULTURE

The Vineyard School did not have any musical instruments until 1920, when a joint effort of school board funding and parental fund-raising resulted in the school getting its first piano. This purchase enabled the children to put on a spring play called "The Pixies" in 1920, and by 1924 the opera "Snow White" was presented. "Cinderella in Flowerland" was also performed.

- VINEYARD HERITAGE COMMISSION

KEEPING THAT LATE SUMMER COOKOUT SAFE

The last of the summer cookouts are near, Labor Day weekend is here! Here are some tips that will help keep those fun events safe for everyone.

. Never use charcoal or propane grills indoors under any circumstance

. Keep your grill at least 10 feet away from your house

. Clean your grill prior to starting, a clean grill cuts down on the flair-ups

. If it's a gas grill, check for leaks when you turn it on (use a dish soap and water solution)

. Turn on the gas with the lid open

. Keep a spray bottle of water handy to put down any flair ups, it also won't harm the burgers

. Never leave the grill unattended, burnt food or a singed child's hand will spoil the day

. Keep decorations and activities away from the grill area

. If using starter fluid on a charcoal grill use caution, never reapply once the fire is started

. Do not overload your grill, this will help avoid a possible large flare-up

. Never leave food that requires refrigeration in direct sunlight or in summer heat for an extended time

-Councilmember Tyce Flake

WELLBEING SURVEY

Vineyard's results are in! Click this link to see how our residents feel about well-being in Vineyard. This valuable data will be used by our City Council and Staff in the general planning process. Thank you to the team at Utah State University Extension for conducting the survey and compiling this report, and to our residents who participated.

THE WELLS IN VINEYARD

You may have seen sound walls go up by Trailside Elementary this week. These are temporary sound walls used by Central Utah Water Conservancy District as they begin work on well development at Well sites 7 and 17. Work at these well sites will be ongoing through the spring of 2023 with Well 17 beginning this fall. Nearby residents can expect to see sound walls, construction trucks, and equipment on the well sites. Well drilling operations will take place 24 hours a day, 7 days a week through early 2023.

GUIDELINES TO ENSURE CONSISTENT SERVICE:

- If a holiday (only those shown above on calendar) falls on a weekday, service will be delayed one day following the holiday.
- Recycle containers that have trash in them will NOT be dumped as recycling and called into the city.
- All containers MUST be placed outside by 7 a.m.
- Containers should be placed in the street with the wheels against the curb or within 2 feet of blacktop with the front of the container facing the street.
- The container must be placed 4 feet apart from other containers and 8 feet from mailboxes, poles, fences, trees, or parked vehicles for easy access.
- Please break down cardboard boxes.

FOR MORE INFORMATION PLEASE CALL (801) 924-8500.
