IMPORTANCE OF HIRING A LICENSED CONTRACTOR

As a home owner you want to enhance and improve your property to create a wonderful home for you and your family. In previous GOV101 articles we've covered when you need to pull building permits and how to pull those permits.

This article will cover why hiring licensed contractors is important.

When bidding out to contactors for projects you can review contractor license status and see if there has ever been any disciplinary action against that contractor before you hire them.

The fact that the contractor is licensed generally means that they are far more likely to have the requisite knowledge to ensure the construction work is up to code and properly performed.

Hiring a licensed contractor helps to minimize the risk to your family's financial security if a worker is injured on your property, your property is damaged, or if the work is incomplete/faulty.

Damage that arises from work performed by an unlicensed contractor may not be covered under your homeowner's insurance policy and may result in additional unwanted and avoidable project costs for repairs, property damage, etc.

Please understand that general contractors are not licensed to perform electrical, plumbing, or HVAC installations. These installations must be done by a contractor licensed specifically for those specialties.

If you want to make sure that a contractor is licensed you can use the online DOPL License Lookup tool (https://secure.utah.gov/llv/search/index.html) or contact the Vineyard Building Department at (801) 226-1929.

Remember that building permit information is public information and as a home owner you can also reach out to us if you want to ensure that your contractor is doing their part and that your project is on track including; checking the status of your permit, cost of the permit, completed inspections or copies of inspection reports.

In addition, May is Building Safety Month! Watch for fun activities and social media posts coming in May to help make sure your home is as safe as it could be.

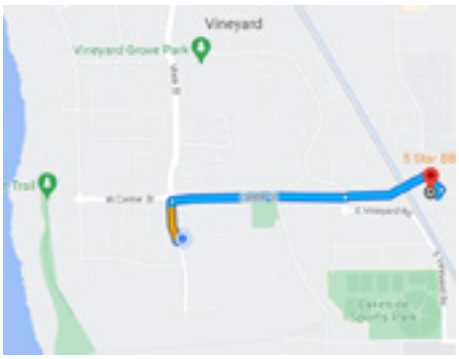

WE'RE MOVING!

SOME CITY DEPARTMENTS WILL NOW BE AT THE UVHBA BUILDING

Coming Soon: Vineyard City Development Services.

Beginning April 11, instead of coming to the City Offices for building permits and planning and engineering needs, residents can visit our new Development Services office located on the 2nd Floor of 707 E Mill Road. Hours and phone number remain the same, M-Th 8 a.m. to 5 p.m. and Fridays from 8 a.m. to 12 p.m.

ARBOR DAY

Did you know Vineyard was recognized as a Tree City USA last year? We love to celebrate Arbor Day and encourage our residents to plant and maintain trees. You can also purchase tree seedlings through April 19 through the Timp-Nebo Tree Sale. Resources for kids' activities about Arbor Day can be found here

OUR HERITAGE

THAT THERE'S A "TEMPLE FISH"

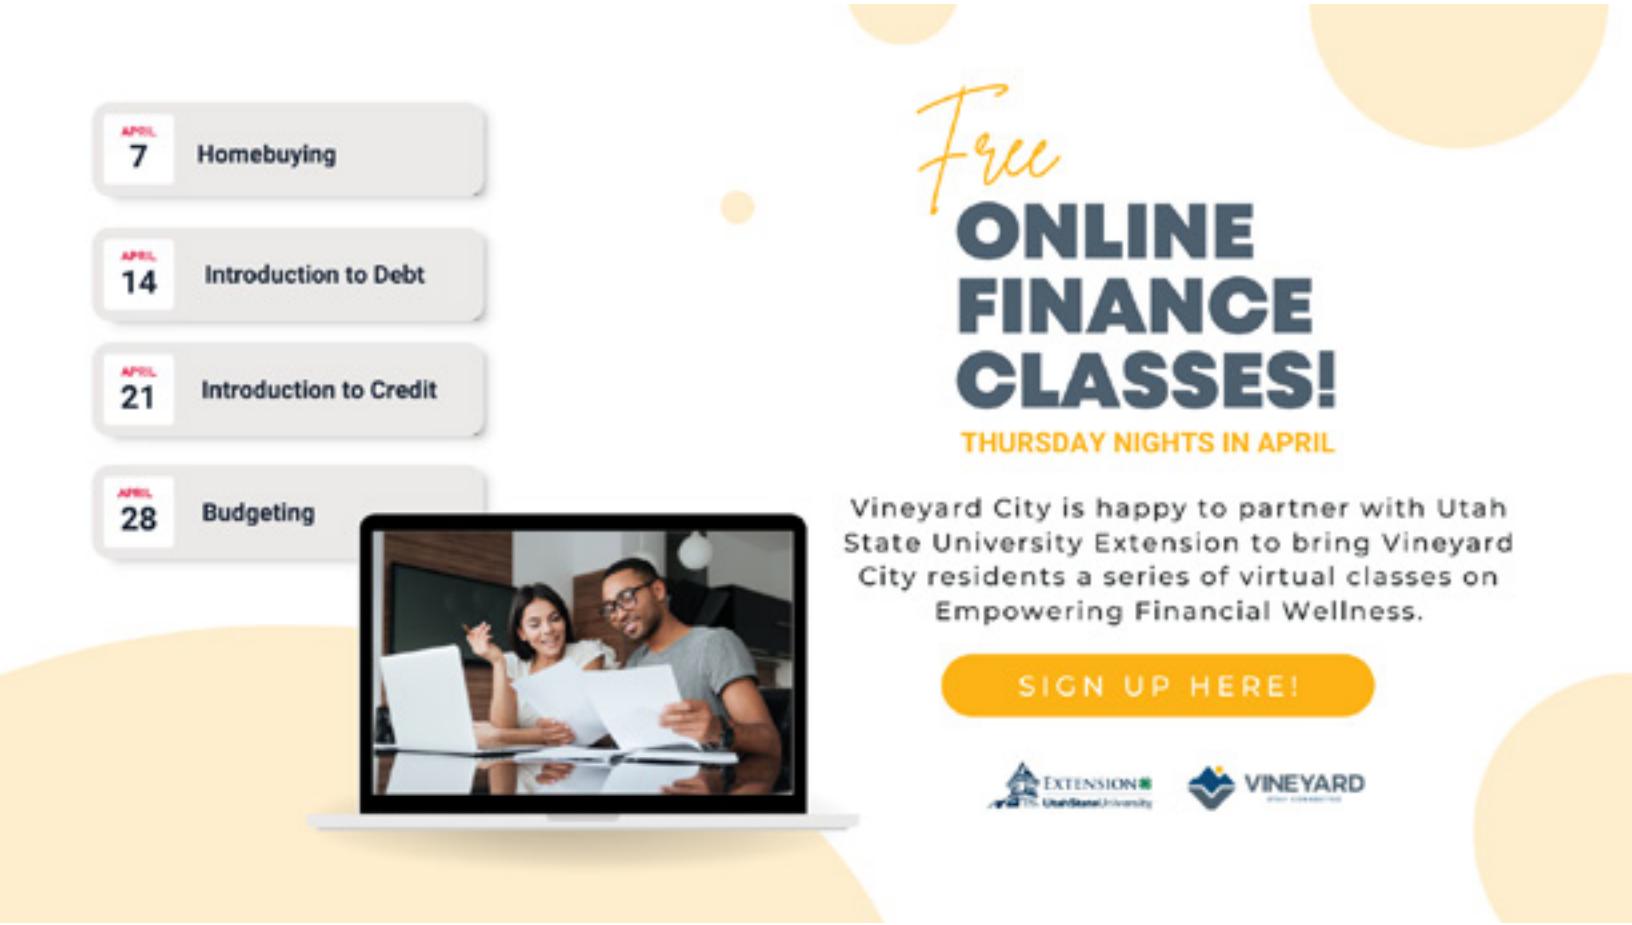

In the 1850s, leaders of the LDS Church established tithing yards where members could pay their tithing with non cash donations. As fishing on Utah Lake was an important industry, loyal church members were expected to pay 10 percent of every catch to the church. For several decades, thousands of pounds of "temple fish" were distributed as payment for public workers tasked with building many landmarks.

SHERIFF'S OFFICE

As the weather warms up, more children are outside riding bikes and scooters. Do your part to keep our kids safe. Please put your phone away and slow down when driving. Talk to your children about watching for vehicles on the road and backing out of driveways. It's important to have regular conversations about bike safety and wearing a helmet properly. Follow us on Facebook and Instagram for additional updates about things going on in our community! Do your part and help us by calling if you see or hear anything suspicious. Non-emergency dispatch: 801-794-3970. If it's an emergency, call 911.

COUNCIL EMAIL

Vineyard City Council has a new email address: council@vineyardutah.org. Connect with all members of the City Council by sending just one email to share your concerns and comments. We look forward to communicating with you this way!

MOSQUITO MANAGEMENT

For the last couple of years, the city has been working with Utah County Health Department for mosquito management throughout the city. Active spraying occurs May through October. The county treats for mosquitos by using both Larvicides and Adulticides. Larvicide treatment is a treatment in the water. This is intended to eradicate the larvae before they hatch. They also use an Adulticide treatment, which is the treatment in the air. The county sprays on Monday through Thursday evenings depending on weather conditions and surveillance data. They do not spray on weekends or holidays.

The city also contracts with the Links at Sleepy Ridge. We have them spray around the parks each Friday and Saturday evening, and before any major city sponsored events.

types of chemicals used by the health department

how you can help protect yourself from mosquitos

submit an additional service request, or a no-spray request

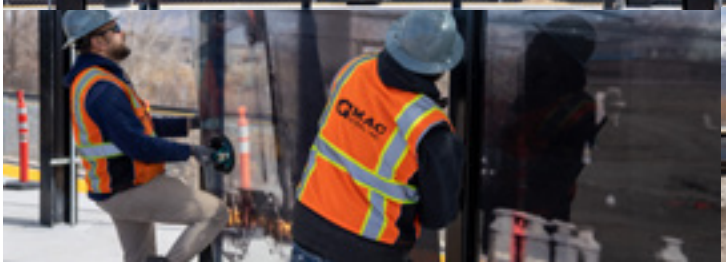

TINY GARDEN, BIG IDEAS

The Vineyard Community Garden team is led by people with eyes bigger than their gardens. As a community of volunteers, we are always looking for additional help or donations. If you'd like to learn more about gardening and nature in the Vineyard area, come check out future classes, join our local Facebook page, and stop by to see our community produce stand any time.

Interested in volunteering? Help us build new garden boxes for the Vineyard Community Garden at 240 E Gammon Road, Vineyard UT, 84059 on Thursday, April 14 at 2:00 pm.

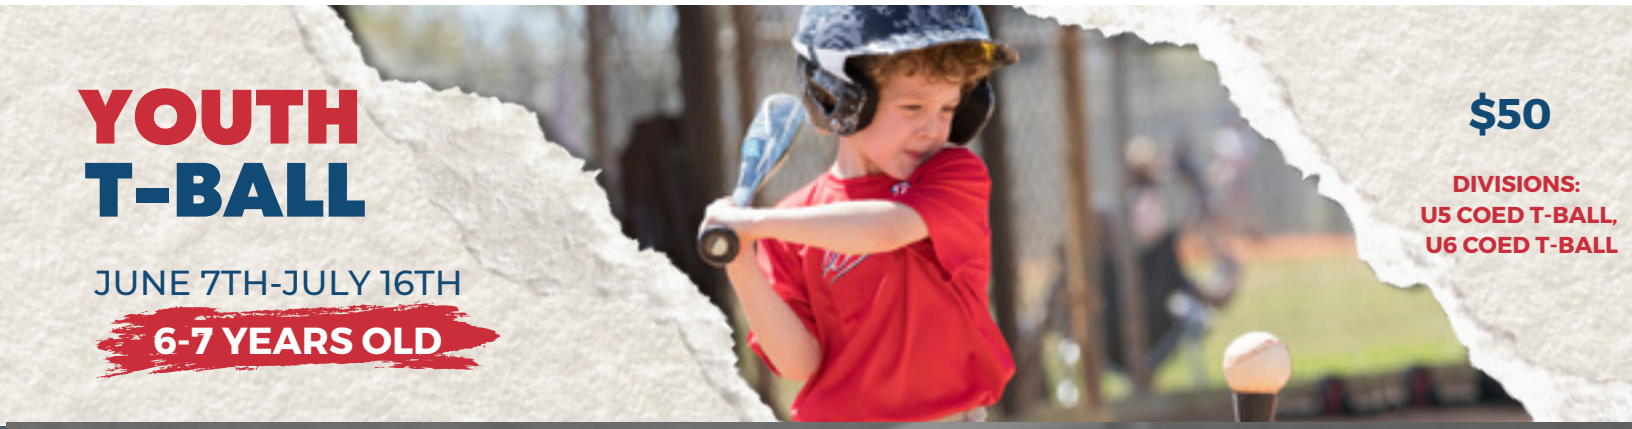

FRONTRUNNER

The FrontRunner station grand opening will be delayed by a few weeks due to issues with crosswalks and pedestrian access. We anticipate an opening as soon as the necessary infrastructure is in place, which we hope will begin by early May. Watch our social media channels for more information and updates. The FrontRunner station's glass art panels were installed last month and feature historic photographs highlighting Vineyard's rich heritage.

GUIDELINES TO ENSURE CONSISTENT SERVICE:

- If a holiday (only those shown above on calendar) falls on a weekday, service will be delayed one day following the holiday.
- Recycle containers that have trash in them will NOT be dumped as recycling and called into the city.
- All containers MUST be placed outside by 7 a.m.
- Containers should be placed in the street with the wheels against the curb or within 2 feet of blacktop with the front of the container facing the street.
- The container must be placed 4 feet apart from other containers and 8 feet from mailboxes, poles, fences, trees, or parked vehicles for easy access.
- Please break down cardboard boxes.

FOR MORE INFORMATION PLEASE CALL (801) 924-8500.
