August 2025

MESSAGE FROM THE CITY MANAGER ERIC ELLIS

Fire Update, Fire Station Progress, City Services, and More

Dear Residents,

It continues to be a privilege serving as your City Manager over the past 21-months. Each month, I share a City Manager Update with our City Council, which can be found in the agenda packet. You can view the most recent report to get up to speed on the latest initiatives, challenges, and successes happening throughout our community. You can also learn more about the city-initiated audit and our commitment to transparency here.

FIRE IN HOLDAWAY FIELDS & NEW FIRE STATION PROGRESS

Earlier this week, a fire broke out in the new Holdaway Fields Development. While it damaged some property and natural landscape, we are deeply grateful that no homes or individuals were harmed. Our sincere thanks go to the first responders from our Fire Department, Utah County Sheriff's Vineyard Division, and Orem Police—along with residents who stepped in to help protect nearby structures. A special shoutout to Danny Sorensen, whose quick thinking and use of his skid steer to create fire lines greatly aided our firefighters. The cause remains under investigation, and we'll continue to share updates. If you spot overgrown weeds or areas of concern, please report them through Code Enforcement via our "Report a Concern" tool on the website.

This incident is also a powerful reminder of why we're investing in public safety infrastructure. Our brand-new fire station—now under construction at the corner of 80 South and Sicula Road, next to the 300 West collector—is on track to be completed before year's end. Once open, it will dramatically improve emergency response times and strengthen our city's readiness for any crisis. Funded entirely through the property taxes you already pay for public safety, this station will be staffed with top-tier teams dedicated to protecting every home in Vineyard.

CITY BUILDING

We've heard community questions about the cost and planning for our new city center. As Vineyard continues to grow, we must ensure our staff and residents have access to the necessary space and tools to maintain high-quality services to the city.

continued...

Recently, the City Council discussed bonding options for the city center partnerships—which would not result in any new taxes. Instead, funding would come from both savings set aside by the Council and sales tax revenue, thanks to years of successful economic development. That said, the Council unanimously voted to wait until further education and design work is completed before moving forward.

Here is the current project timeline:

- 2023-2024: Concept Designs with Nelson Partners
- December 2024: Selection Process of Design & Engineering Firm - Method Studios
- January: Design & planning kickoff
- January - February: Program verification
- March - April: Schematic design
- April - July: Floor plans with partner/space sharing reviews
- August - September: Community focus group/Alternative scenarios workshop
- October: Bring focus group recommendations to Council

ROADS & TRANSPORTATION

We know how important road access and transportation connectivity are for everyday life. The City is actively working to open more roads and ease congestion. Current priorities include:

- 400 S: Alignment for schools and pedestrian crosswalks (Summer 2026)
- Center Street: Widening and connection to I-15 (4-5 years out, immediately after rail spur removal)
- 400 N: Providing connection and access near Trailside to UVU site over UP tracks (conceptual & alignment phase underway)
- 800 N: Regional trail from I-15 to Utah Lake (Summer 2026 completion)
- 1200 N: Vineyard Connector, past the new Huntsman Cancer Institute and through to East Geneva (< 3 years)
- 300 W: Connecting to Downtown Mainstreet and Vineyard Connector (Fall 2026)
- 1600 N: Expanding connection to Vineyard Connector, Geneva, and I-15 (Fall 2027)
- Noise and vibration study along railroad (continuing)

You'll have the opportunity to view the latest updates on these projects on August 13 during the presentation of the Vineyard Transportation Master Plan. Councilmember Cameron and Mayor Fullmer have both worked hard to secure funding, and we're excited to see several key projects—like 300 W Promenade and 1200 N, already underway.

continued...

UPCOMING EVENTS
I'd also like to let you know about some upcoming events next month.

First, is our 9/11 Event and Day of Service, which will include multiple service projects to volunteer for as well as a special program, concert, and firework show.

Second, September is recognized as Constitution Month in Utah, a time to remember our founding fathers and the roots of our American heritage.

Lastly, our Splash Pad will be closing Labor Day weekend. We've loved seeing all the kids and families enjoying this awesome resource and are sad to say goodbye after a great season.

150 DAYS OF SERVICE
Finally, I want to thank Mayor Fullmer for her ongoing 150 Days of Service project. To finish out her term strong, she has committed to serving the community in a variety of impactful ways. You can read her full update and learn how to get involved here.

Thank you again for the opportunity to serve you. If you have any questions, concerns, or suggestions, please don't hesitate to reach out.

With gratitude,

Eric Ellis

How Vineyard Uses an RDA to Help Schools and Build the City

When Vineyard began its transformation from the industrial Geneva Steel site into one of the fastest-growing communities in Utah, city leadership knew they would need new tools to make it possible. One of the tools used is a Redevelopment Agency (RDA), which uses Tax Increment Financing to fund long-term infrastructure necessary for growth. This growth shifts the tax burden off the residents while creating jobs, homes, schools, and spaces for communities to raise families.

As new homes, businesses, parks, and infrastructure have been developed in the former Geneva Steel site, property values have grown significantly. Tax Increment Financing (TIF) allows Vineyard's RDA to reinvest a portion of those new property tax revenues back into the area itself.

Each year, around 75% of the new tax increment is reinvested in the area's backbone infrastructure—paying for things like roads, utilities, environmental remediation, and public infrastructure. The remaining 25% goes to taxing entities like Alpine School District.

Why Would Schools Agree to This?

Alpine School District (ASD) supported the Geneva TIF because it recognized the long-term benefits of redevelopment: A stronger tax base in the future.

Once each phase of the TIF expires (25 years after activation), 100% of the property taxes goes to the schools and other taxing entities. The result? ASD will ultimately receive a significantly larger amount of property tax revenue than it would have without redevelopment.

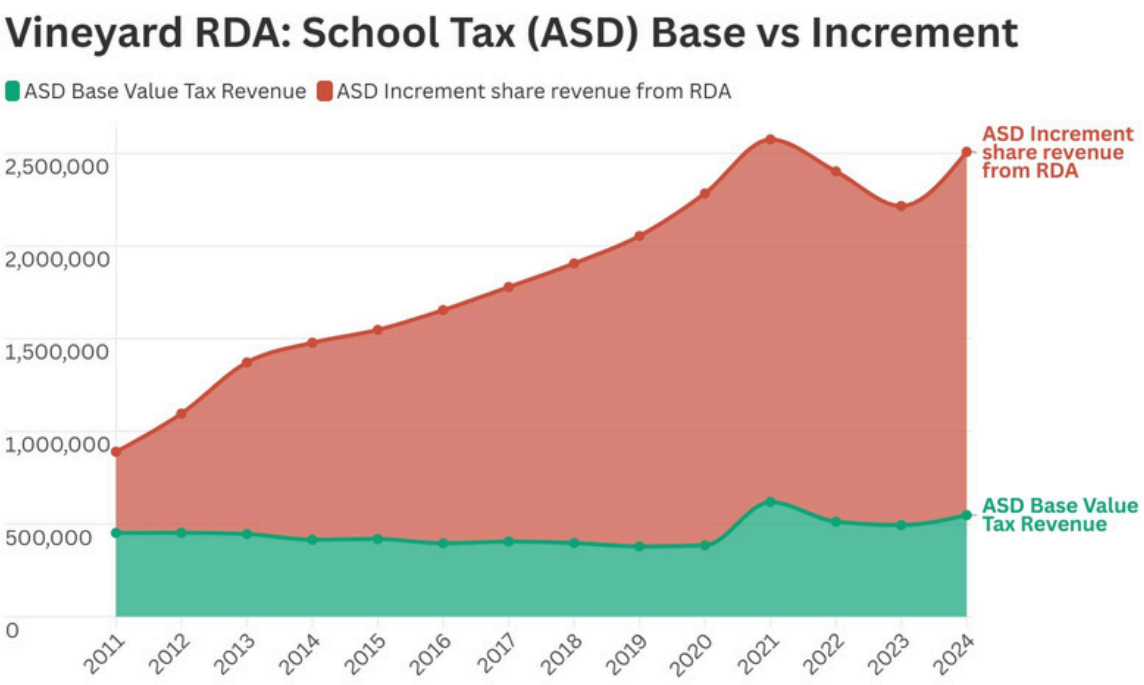

For example, property values in the RDA have already risen significantly above the base value of $120M in 2006 to over $1B in 2024. Without the infrastructure funded by the RDA through TIF, that kind of growth and development likely wouldn't have happened. This means that the school's 25% share of this incremental revenue far exceeds the revenue they would have gotten on mere undeveloped land.

Here's how it works:

- The school district continues to receive its full share of tax revenue from the original base property values (the amount the land was worth before redevelopment).
- In addition, 25% of all new tax revenue from rising property values—called tax increment—is also paid directly to the school district each year.

The result? ASD's total annual revenue from the Geneva area has more than quadrupled.

In 2011, ASD received just under $900,000 from the Geneva project area. By 2024, that number has grown to over $2.5 million per year—nearly triple the revenue thanks to the combination of base and incremental property taxes.

Source: Utah Co Land Records • Assessed Values and tax revenues to schools from triggered RDA Phases. Base value revenue is 100% of the tax revenue for the base value in the RDA (green) whereas the red shows the 25% share that schools receive of the incremental revenue.
Stacked chart, totals represent all revenue to schools in triggered RDA areas.

*This chart shows the school's 25% share of incremental tax dollars on top of the base tax revenues from the original undeveloped land values. The revenue for schools has grown significantly beyond the base thanks to development. Without this project, the schools would receive very little tax revenue from undeveloped and industrial impacted land in Vineyard.

The Bottom Line

TIF has been a critical tool in turning a contaminated, underused site into a thriving community. It's a temporary reinvestment strategy designed to grow Vineyard's future—creating a cleaner environment, more housing opportunities, and stronger long-term revenues for schools and other public services.

Without the infrastructure and environmental cleanup funded by RDA reinvestment, this area likely would have remained underdeveloped and generated far less revenue.

VINEYARD SUMMER MOVIE SERIES

AUGUST 11TH - INSIDE OUT 2

Join us for bracelet making and bike/scooter/wagon decorating at 8:30pm before the movie starts at dusk. There will be a short ride around the park on the decorated bikes. Updates will be posted here.

ANNOUNCEMENT REGARDING UTILITY RATES

North Pointe has recently increased their rates by $1.50

After review and consideration, Vineyard **will NOT be increasing** rates but will continue to monitor rates going forward.

It's an ELECTION YEAR!

This year's primary election will be held on August 12. If you are an active, registered voter, you should have received a ballot in the mail. If you didn't receive your ballot, make sure to contact the Utah County Elections office at 801-851-8128. Not sure if you're registered? Visit vote.utah.gov to check your status. You can also register to vote during the early voting period and on election day and vote provisionally.

Early voting runs from August 4 to August 11, 8:00 AM to 5:00 PM at the Utah County Offices, 100 East Center Street, Suite 3100, Provo, Utah. Primary Election Day is August 12, 2025, from 7:00 AM to 8:00 PM.

As a reminder, recent changes in legislation require that ballots for this year's primary election must be received by the Utah County Election Office no later than 8:00 PM on August 12, 2025. To ensure your ballot is counted, we recommend placing your signed and sealed ballot/envelope in the ballot drop box located in the parking lot at the Vineyard City offices before 8:00 PM on August 12, 2025.

Vineyard will not have a vote center, so please check the Utah County website to find locations where you can vote in person.

Free Parenting Workshop

for parents of kids aged 9–14

MONDAYS 6pm-8:30 at the PG Rec Center
Sept. 8th, 15th, 22nd
Oct. 4th & 13th

Guiding Good Choices is a national, research-based program for parents of kids in grades 4–8. Over the course of five weeks, you will learn to:

- strengthen family bonds
- improve communication
- handle conflict in a healthy way
- help your kids avoid risky behaviors

FREE WORKSHOP INCLUDES:

*Dinner for the whole family
*$50 gift basket
* Childcare for ages 8 and under
*Activities for ages 9 and up
*Must attend all 5 sessions

PROMOTION ANNOUNCEMENT!

Through the years, Vineyard has grown tremendously, and the population continues to increase, creating the need for a chief Deputy position in the city. Lieutenant Holden Rockwell has been promoted to that position.

Chief Deputy Rockwell has managed the Vineyard office since 2017. He works closely with Vineyard City to provide the best service possible for you. He enjoys serving the citizens of Vineyard and appreciates the sense of community. Chief Deputy Rockwell has worked for Utah County for the past 14 years. Prior to that, he worked for the South Jordan Police Department. In his free time, he likes camping, hunting and spending time with his family. He loves a good steak and a cold Pepsi.

Congratulations Holden! You are amazing to work with! We appreciate the work environment you create, the countless hours you put in and your no-nonsense approach.

HELP US CONSERVE WATER!

Dear Residents and Business Owners,

We are asking for your help in reducing outdoor water use during this critical time. With the growing need to conserve water in our community, we are encouraging everyone to limit landscape watering to **every other day** based on your street address.

To help distribute water usage more evenly, please follow this simple schedule:

- Even-numbered addresses (ending in 0, 2, 4, 6, 8):
- Water only on Monday, Wednesday, and Friday
- Odd-numbered addresses (ending in 1, 3, 5, 7, 9):
- Water only on Tuesday, Thursday, and Saturday

We kindly ask that no watering take place on Sundays. Sunday will be a day for City watering.

Frequent and/or everyday watering is harmful to root health. Frequent watering encourages shallow roots which makes it less able to find nutrients in the soil. Constant wet grass also creates breeding ground for fungal diseases.

Your cooperation will make a meaningful difference in preserving our water supply, especially during the time of completing our new storage tank and the hot, dry months. Thank you for doing your part to support our community and our environment.

If you have any questions or need tips on efficient watering, please don't hesitate to reach out.

Sincerely,

Vineyard City Water Team

KEEP THE STORMDRAINS CLEAN

July brings barbeques, fireworks and surprise rainstorms, all of which can send unwanted debris into our storm drains (and straight to Utah Lake).

• **Water Wisely:** Governor Cox's drought order is still on; most turf only needs watering 2–3 times per week. Check the Weekly Lawn Watering Guide before you set your timer.

• **Sweep Up Fireworks:** Post-show sparkler wires contain perchlorate and metals. A quick sweep and putting them in the garbage keeps them out of our lake.

• **Watch for Algae:** A harmful algal bloom is active in Provo Bay; steer clear of green scum and rinse gear.

• **Fertilizer Smarts:** Use slow-release products, apply to dry soil, and sweep stray granules off hard surfaces.

• **Pick Up After Pets:** Bag it, trash it, keep bacteria out of the bay.

Thank you for keeping Vineyard City's waterways sparkling clean and free of stormwater gunk, trash, and debris!
