GOV101

YOUR LOCAL GOVERNMENT INFORMATION STATION

Vineyard City has elected officials and staff who work hard each day to assure that the City is running and developing smoothly and that your needs as a resident are being met. However, local government can sometimes be a bit of a mystery to those who aren't involved in it daily. So we've created GOV 101 to demystify it a bit. Every month, you can come here to find out more about what your local government does everyday to make Vineyard great!

PLANNING AND ZONING

The Vineyard Planning Department, under the direction of the Planning Commission, works to shape the future of Vineyard by generating an extraordinary vision for the General Plan and maintaining the Zoning Ordinance. The department works to protect the health, safety, and welfare of the citizens and businesses of Vineyard, to guide and manage future growth and development, and to promote the orderly use of lands within Vineyard by ensuring all developments are consistent with both the General Plan and Zoning Ordinance.

The Planning Department is currently working on updating the general plan. You can call the Planning Department if you would like to be involved or have questions.

- Community Development Director, Morgan Brim
- Planner, Elizabeth Hart
- Planning Intern, David Jellen

We have no shortage of information on how your local government works that we want to share with you, but if there is something specific you'd like to learn more about, please reach out to us by phone at (801) 226-1929 or by email at info@vineyardutah.org.

GARBAGE DAY CHANGE

Due to the high growth around the county, Republic Services is making changes to the collection schedules for cities around Utah County. The collection day for garbage will move from Tuesday to Wednesday beginning April 4th. The collection day for recycling will remain the same. The new sanitation schedule can be found on our website.

BASEMENT FINISHES

Expecting an addition to your family? Wanting to create the ultimate game room? Just need some extra space? Well, whatever the reason, as you make plans to finish your basement, remember that you'll want to make sure to stop by the Building Department to submit a building permit application.

A permit will ensure that your basement is built to code and will protect your family's health and welfare. It will also help you with any insurance claims should any mishaps take place in the future.

In Vineyard, we don't want a Basement Finish permit to be cost prohibitive. Vineyard charges only the cost of inspections for the work that you are proposing to do. Most basement finishes will cost approximately $300. You can always contact the Building Department for the most up-to-date information at 801-226-1929.

You can also find an updated handout on basement finishes and putting together basement plans on our website.

SHERIFF'S DEPARTMENT

With warmer weather approaching, please slow down and watch for kids playing outside and walking to school. Look out for suspicious activity and immediately report anything to the Utah County Sheriff's Office at 801-794-3970.

As always, lock your vehicles and place your valuables out of sight.

THE WELLS @ VINEYARD

The Central Utah Water Wells @ Vineyard project is moving along! They are now drilling at well #9. For more information about the project, including the noise barriers, visit their website or reach out to their hotline!

VINEYARD TREE MANUAL

Arbor Day is almost here! Vineyard City has recently published the Vineyard Tree Manual, a fantastic resource for property owners and developers desiring to plant trees. Everyone loves trees, but it is important that we take time to choose an appropriate species for our surroundings, use proper planting techniques, and plan for ongoing tree maintenance. The Vineyard Tree Manual must be followed when planting trees in the city's right-of-way, which includes most parking strips. This manual is also a good resource when planting trees on your private property. All recommended trees are appropriate for our environment, low maintenance and have low water usage.
When planting trees in the city's right-of-way, residents need to contact to the Public Works Department first to ensure visibility is maintained on street corners and driveways, and that the tree species being planted will not conflict with public utilities or street lights.
Plant a tree and see Mother Earth smile.
Happy Arbor Day!

GENERAL PLAN PUBLIC OPEN HOUSE

When: April 12 | 5 PM - 8 PM

Where: Franklin Discovery Academy | 320 E Gammon Road

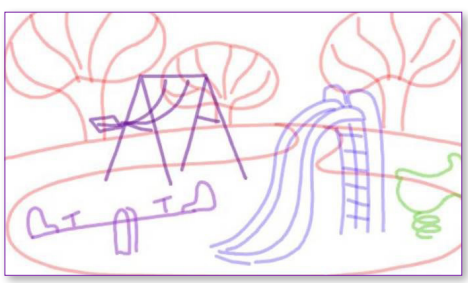

Vineyard is in the process of updating its General Plan and will be hosting an open house to get your feedback to help guide our future!

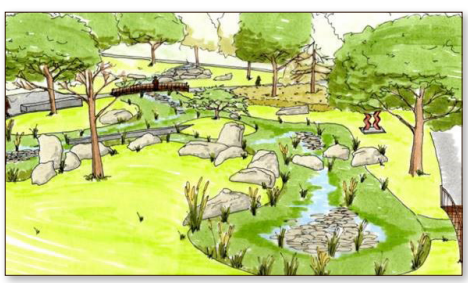

What is a General Plan?

The General Plan is the city's vision for the future and provides a framework for growth. This plan will guide the future development of the following items:

- Land Use (Residential density, housing, commercial & entertainments uses)
- Transportation (Roadways, sidewalks, trail system, front runner station & other transit projects)
- Open Space (Park, Trails, Utah Lake access & nature open spaces)
- Economic Development (Business retention & recruitment, regional & statewide development)
- Sustainability (Water conservation, energy consumption, protecting natural open space & Utah Lake)
- Heritage (Celebrating our past and preserving our roots into the future)

Come design a **New City Park**! Recently, the city purchased the 11-acre property west of the existing Gammon Park. This provides a unique opportunity for the us to add a significant park space to the city. We would love to get your ideas and is asking our youth to participate in designing this space. We want to hear all big and small ideas. What is your Dream Park? Please have your kids ready to showcase their amazing arts skills. *Prizes and snacks will be provided*!

| Aliesha Shepherd

HOUSEHOLD HAZARDOUS WASTE COLLECTION

When: April 14 | 9 AM - 3 PM
Where: Provo Towne Centre Mall Parking Lot
The annual Household Hazardous Waste Collection day is coming up! This is a FREE event for Utah County residents! Visit our Facebook event page for the full list of acceptable and unacceptable items!

WHAT TO BRING	WHAT **NOT** TO BRING
• Medications • Gasoline/fuels • Batteries • Solvents/Paint thinners • Aerosol Cans / Paints • Pesticides / Herbicides • Glass	• Containers over 5 gallons • Ammunition / Explosives • Compressed gas tanks/ Propane tanks • Asbestos materials • Electronics • Gas cans

ELECTIONS

In this year's elections we will be electing State and Federal officials. Utah County will be running an all vote-by-mail election. Watch for your ballot in the mail early June. If you haven't yet, update your voter registration at vote.utah.gov.

MAY - BIKE MONTH

This year the city will be doing bike events throughout the month of May in celebration of Bike Month! Some events include Bike to School, Bike to Work, and Bike with the Mayor! We will have prizes and fun activities along the way! Watch and follow our Facebook page for all the details!

VINEYARD HERITAGE DAY

When: Saturday, May 12th | 11:00 AM-3:00 PM
Where: Gammon Park
The Vineyard Heritage commission has planned a free community event! Get ready for live entertainment, old time games, food trucks, a petting zoo, pony rides, mini train rides, ice cream social, vendor booths, prizes and giveaways, and so much more! Bring your blankets and chairs and plan to stay a while.

VINEYARD HERITAGE COMMISSION CORNER

As we approach Spring and watch the few remaining Vineyard farmers prepare the ground for planting, we are reminded about those early farmers who made their living by taming and utilizing the soils we all now live on. One such was Elmer Holdaway. "Elmer was one of the early users of tractors to do the heavier draft work on the farm. His first tractor was a Fordson. This tractor was small and seemed to be underpowered. Much of the soil was of a heavy clay nature. After trying several tractors, including one of the earliest track type, he bought a larger tractor called a Twin City. This tractor was quite large and a little awkward to drive, but it was powerful enough for the hearty work and belt work in filling silos, etc. This tractor, and about six horses, furnished the power on the farm from 1919 to the early 1930's." (Our Vineyard Heritage, page 245)"

FYI

BROUGHT TO YOU BY THE COMMUNITY DEVELOPMENT DEPARTMENT

Building Height and Setbacks

How is building height measured?

Building height is measured from the top of the back of curb to the highest point of the building or structure (Defintions - Building Height).

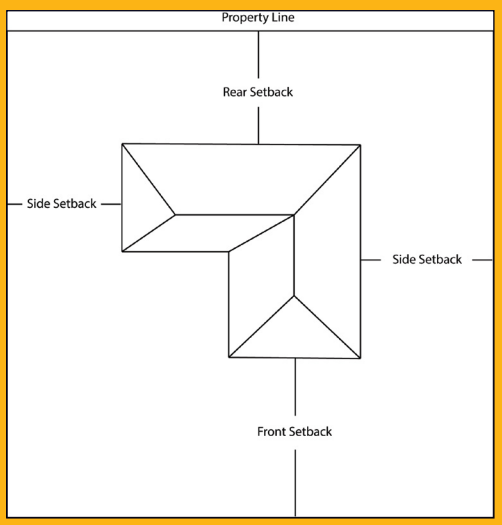

How are setbacks determined?

A setback is the required distance by which a building or part of a building is set back from the property line, and is measured from the property line to where the building begins. Often, there are required setbacks from the sides, front, and rear of the property line.

Are there any exceptions that are made for objects obstructing setback areas?

All required setback areas shall be open to the sky and unobstructed except for permitted and approved accessory buildings and structures, and for projections of sills, unenclosed steps, unwalled stoops, bay-windows, unenclosed porches and similar building features, provided that such features do not encroach more than three (3) feet into the required setback area (Section 1622).

Additionally, walls and fences are permitted, so long as they comply with the requirements of Section 1622 and required approval by a Land Use Authority.

For additional information about building height and setbacks, please view the FYI in its entirety on our website.
