RDA DIRECTOR MESSAGE

JOSH DANIELS

Dear Residents,

What began as an abandoned steel site has become one of Utah's greatest success stories in redevelopment—and Vineyard's Redevelopment Agency (RDA) is at the heart of it.

Since 2009, the RDA has helped us turn the former Geneva Steel Mill into a thriving community with homes, parks, trails, schools, businesses, and world-class institutions like UVU and the Huntsman Cancer Institute. All of this has been made possible without raising tax rates on residents. Instead, the RDA uses a state-approved tool called Tax Increment Financing (TIF), which allows future tax growth—created by redevelopment—to fund roads, utilities, and public infrastructure. Importantly, schools and other taxing entities have kept every dollar they were receiving before the RDA began. After the RDA sunsets, they'll benefit from significantly higher property tax revenues generated through RDA investments.

The results speak for themselves: exponential growth in property values, thousands of jobs, major infrastructure improvements, and a community that continues to flourish. Without the RDA, none of this would have been possible.

Keeping Public Trust at the Center

As we build a city for the future, transparency and public trust remain foundational to everything we do—just as important as building roads and parks. That's why we've taken proactive steps in response to the recent State Auditor's review of our financial reporting process.

Our finance team, working with external auditors, confirmed that Vineyard's records are accurate and that no funds were misused.

Steven Rowley, external CPA stated, "As we suspected, the items not included in the quarterly reports are the items that look to be accruals for revenues and expenditures, which are part of normal operations as revenues are not always received within a month after quarter end, as well as expenses - vendors do not always provide invoices in a timely manner… The annual upload to replace the quarterly reports corrected previous years' data and will correct for all of those differences going forward."

The issue identified was a technical reporting discrepancy—one experienced by many cities—which we've already corrected by implementing a new process to ensure complete and timely data uploads. In fact, Vineyard's solution is now being shared statewide as a best practice. *See full audit report here.*

To go even further, we're rolling out new accountability tools, including:

- **Quarter-End Review Protocols**
- **Annual Data Uploads and Outreach**
- **A Public Transparency Dashboard** (coming soon)
- **Ongoing community education** through newsletters, social media, and open houses

Vineyard welcomes independent oversight and embraces continuous improvement. We remain committed to transparency, fiscal responsibility, and fact-based leadership—because that's what you deserve.

Together, we've transformed this land—and we're doing the same with how we lead.

We will be putting out more information on the RDA on our website in the coming weeks.

Josh Daniels
RDA Director

VYC

YOUTH COUNCIL KICK-OFF

JULY 14TH | 6 PM | CITY HALL

Come meet new friends, learn how to make a difference in our community, and have some fun while you're at it! Parents are encouraged to attend.

SUMMER SAFETY

Summer is here and the temperatures have been above average so far. Please keep your children out of hot vehicles. According to the NHTSA, 53% of hot car deaths are the result of someone forgetting a child in the vehicle. Get in the habit of checking the back seat before locking the doors.

Keep your car locked. Deaths don't only happen when a child is forgotten. Unlocked doors give children access to the car where they could get trapped inside.

Never leave a child alone in a parked car, parking in the shade won't help and temperatures can rise quickly even when the windows are rolled down a little. If you see a child alone in a car, make sure they're okay. If they're okay, try to find the parents. If the child is not responsive, call 911. For more information, visit the following link: https://www.nhtsa.gov/child-safety/you-can-help-prevent-hot-car-deaths

The phone number for Central Utah Dispatch non-emergency line is 801-798-5600. If it's an emergency, call 911.

You can also follow us on Facebook and Instagram for additional updates about things going on around Vineyard. Be safe and have a great July!

HELP US CONSERVE WATER!

Dear Residents and Business Owners,

We are asking for your help in reducing outdoor water use during this critical time. With the growing need to conserve water in our community, we are encouraging everyone to limit landscape watering to **every other day** based on your street address.

To help distribute water usage more evenly, please follow this simple schedule:

- Even-numbered addresses (ending in 0, 2, 4, 6, 8):
- Water only on Monday, Wednesday, and Friday
- Odd-numbered addresses (ending in 1, 3, 5, 7, 9):
- Water only on Tuesday, Thursday, and Saturday

We kindly ask that no watering take place on Sundays. Sunday will be a day for City watering.

Frequent and/or everyday watering is harmful to root health. Frequent watering encourages shallow roots which makes it less able to find nutrients in the soil. Constant wet grass also creates breeding ground for fungal diseases.

Your cooperation will make a meaningful difference in preserving our water supply, especially during the time of completing our new storage tank and the hot, dry months. Thank you for doing your part to support our community and our environment.

If you have any questions or need tips on efficient watering, please don't hesitate to reach out.

Sincerely,

Vineyard City Water Team

KEEP THE STORMDRAINS CLEAN

July brings barbeques, fireworks and surprise rainstorms, all of which can send unwanted debris into our storm drains (and straight to Utah Lake).

• **Water Wisely:** Governor Cox's drought order is still on; most turf only needs watering 2–3 times per week. Check the Weekly Lawn Watering Guide before you set your timer.

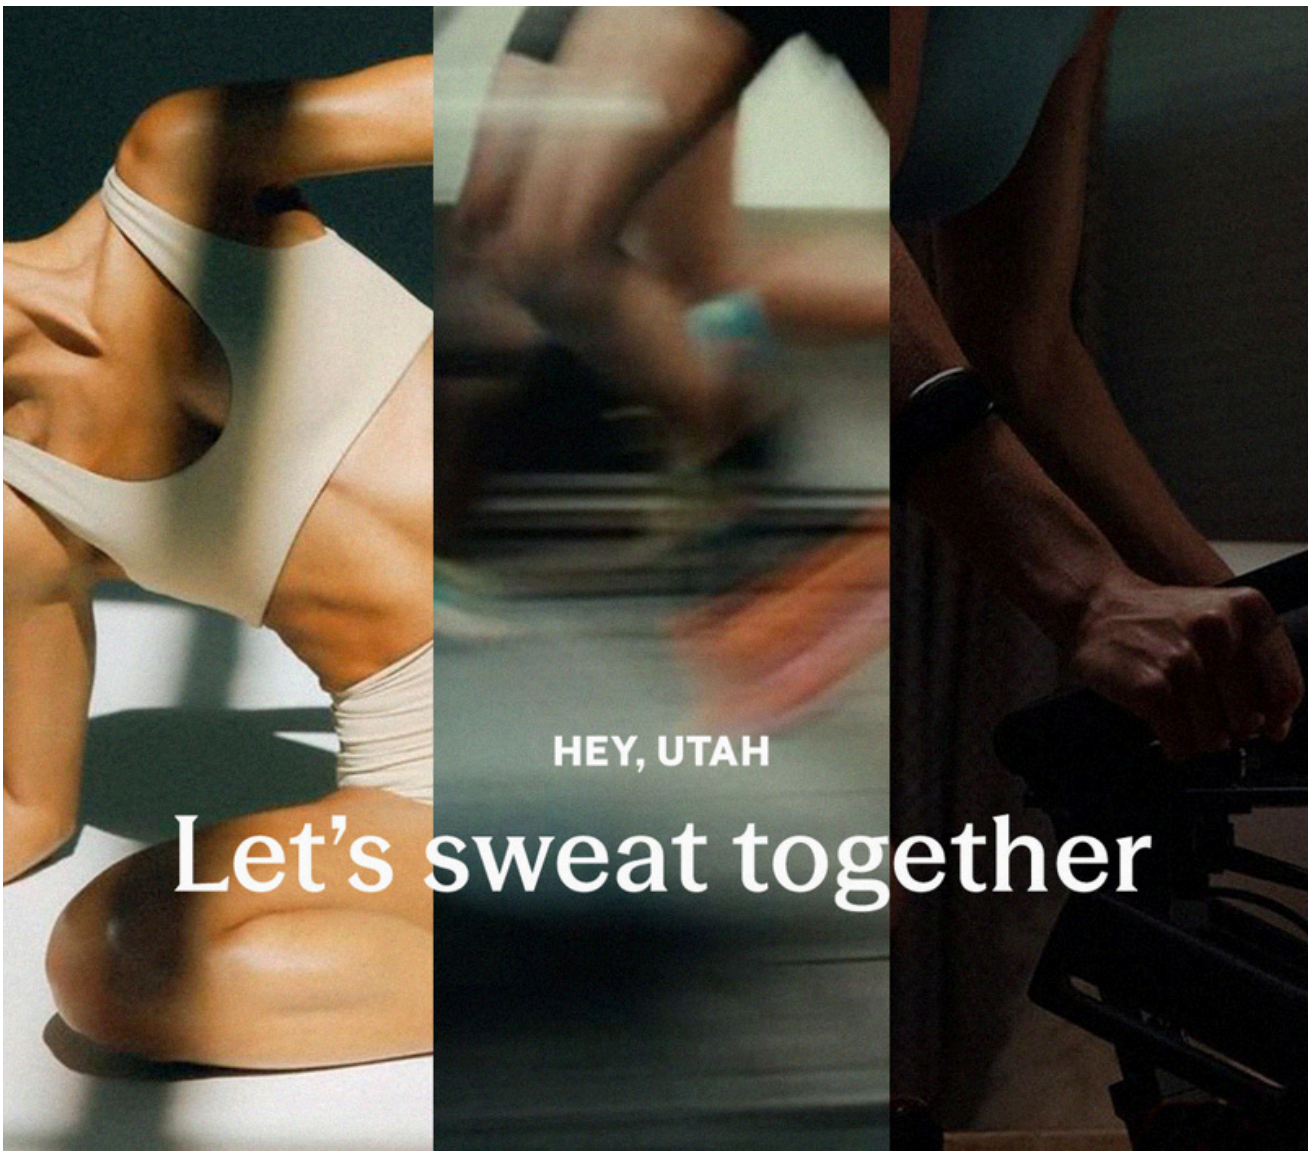

• **Sweep Up Fireworks:** Post-show sparkler wires contain perchlorate and metals. A quick sweep and putting them in the garbage keeps them out of our lake.

• **Watch for Algae:** A harmful algal bloom is active in Provo Bay; steer clear of green scum and rinse gear.

• **Fertilizer Smarts:** Use slow-release products, apply to dry soil, and sweep stray granules off hard surfaces.

• **Pick Up After Pets:** Bag it, trash it, keep bacteria out of the bay.

Thank you for keeping Vineyard City's waterways sparkling clean and free of stormwater gunk, trash, and debris!

The first 250 RSVP's will receive a Peloton workout mat and custom Utah City Sweat towel for your session & to take home. Check in by 9:15 am to claim.

9:00 am: check in + warm up
9:15 am: strength session starts
9:45 am: 10-minute stretch
10:00–11:00 am: stay for a sweet treat
