FALL CLEAN UP

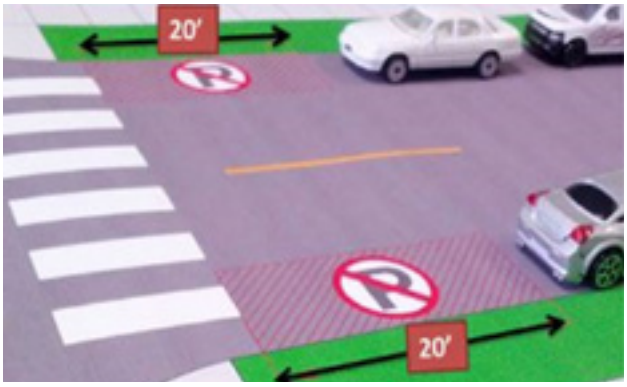

PARKING 101

If you have a home, if you have neighbors, and if you have a car, then you probably at one time or another have had an issue or question about parking along the street where you live.

First, as we all know that it is important that vehicles are not to block the flow of traffic, whether its vehicles, bicycles, or pedestrians from utilizing the public roads, trails, and sidewalks. This is especially important for emergency vehicles, fire and police response, and for public services, such as trash collection trucks.

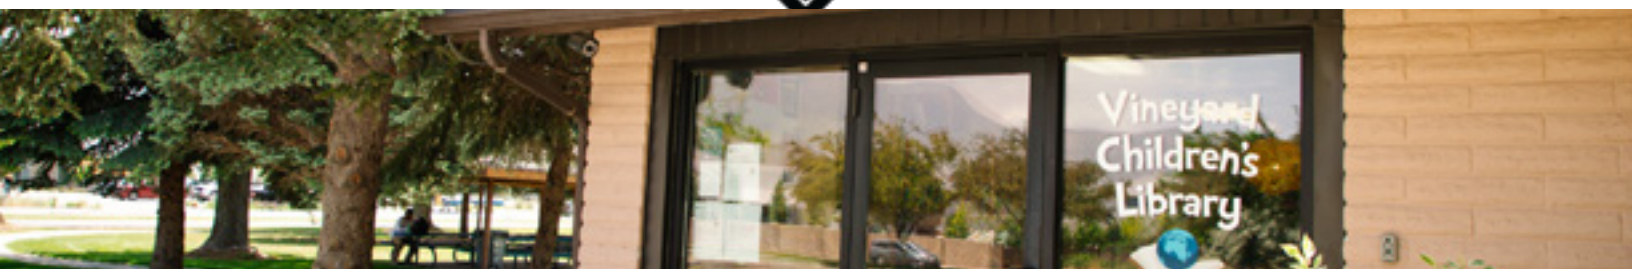

One thing to always remember is that if you're parking along the side of a public street, you are required to have all the tires on the right side of your vehicle within 12 inches of the curb, per Utah State Law. This means that you can't park on the opposite side of the street where you would face oncoming traffic. This also means that you can't park facing a curb, even if you're in a cul-de-sac. Also, did you know that is illegal to park in front of a public driveway or a private driveway, or closer than 30 feet away from traffic control signs, such as flashing beacons, stop signs, yield signs, and traffic signals? Also ensure that if you do need to park temporary along a neighborhood street, that it needs at least 20 feet away from areas for pedestrian use, such as intersections.

Did you also know that Vineyard City has a neighborhood parking program that limits overnight parking along residential streets, in which communities can participate? This program is intended to limit vehicles who are temporary parked along the street overnight to certain neighborhood residents. For more information, please contact your Homeowners Association.

For more information about Utah parking laws, you can find it on the Utah State Law website at http://www.le.utah.gov/ and search for Title 41 Chapter 6a Part 14.

LIBRARY UPDATES

Thank you for your support and participation in Vineyard's first library! We have loved to see families and children enjoying the library since we opened in May.

As a result of the bathrooms in Gammon Park closing for the winter, the Vineyard Children's Library closed for the season at the end of October. We plan to re-open the library in May of next year when the park bathrooms re-open. Until then, there are a couple of things to let you know about:

If you were unable to turn in your books this month during library hours, you can bring them to the city building during its normal business hours where there will be a bin to turn them in there.

We now have book Inter-library Loans available for residents. If you would like to check out a specific book through this service, come to the city building and ask for an ILL form to fill out.

OVERDRIVE

Our library is now set up on OverDrive! You can access the state digital library through this link https://www.overdrive.com/. To register, select 'register with my library card' and then enter the number from your Vineyard Children's Library card. The pin is the last 4-digits of the same card number. You will have access to ebooks and audiobooks all year! You can also use your Bookmobile card to access OverDrive. The Bookmobile will still stop in Vineyard every other Monday from 5-6:30 p.m. at Vineyard Grove Park.

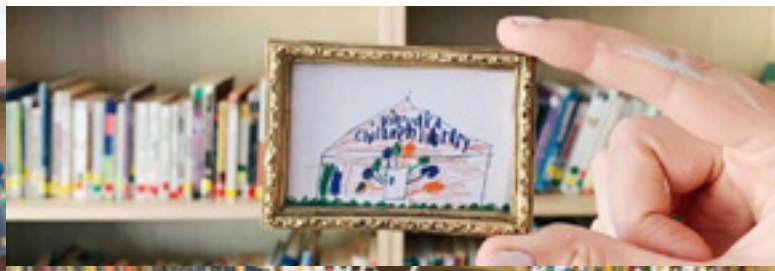

If you have any questions or need help with getting on OverDrive, please email us at vineyard.childrens.library@gmail.com

This library is the result of the volunteer efforts of the Vineyard Youth Council and other dedicated community volunteers that we are so grateful for! We hope that next year we will come back even stronger and continue to build on this offering to all Vineyard residents.

IRRIGATION SHUT OFF

It's that time of year! If you haven't already, you need to winterize your sprinkler system to avoid frozen pipes. Systems vary, but here are the basic steps...

TURN SPRINKLER/ IRRIGATION SUPPLY OFF

DRAIN BACKFLOW PREVENTER VALVE

DRAIN OR BLOW OUT WITH AIR ALL IRRIGATION PIPING

TURN OFF TIMER/ CLOCK

OUR HERITAGE

BEAUTIFUL GARDEN

Anna Isabella Clegg's beautiful garden attracted people from near and far in the early 1900s. An amazing feat considering she helped milk cows morning and night, reared a family and cared for the home. Furthermore, as plumbing was not yet available, she carried water in buckets from artesian wells some distance away for her garden as well as for household use.

FACEBOOK LIVE EVENT

Join Vineyard elected officials and City Staff for a Facebook Live event on November 3rd at 11 a.m. to hear an update on various projects around the City. If you can't make the live event, you can find the recording (and previous episodes) under the video tab of our Facebook page.

RSVP HERE

READING CHALLENGE

Although our library may be closing, we have partnered with PBS Utah for a city wide reading challenge for our youngest residents. We have reading logs printed at City Hall you can pick up or you can print your own here!. The reading challenges children in preschool through grade 6 to read 20 minutes each day for the month of November. Vineyard Children who participate in the reading challenge will receive an Adventure Pass from PBS Utah and also receive a ticket to attend a very special Vineyard Science Saturday event in January.

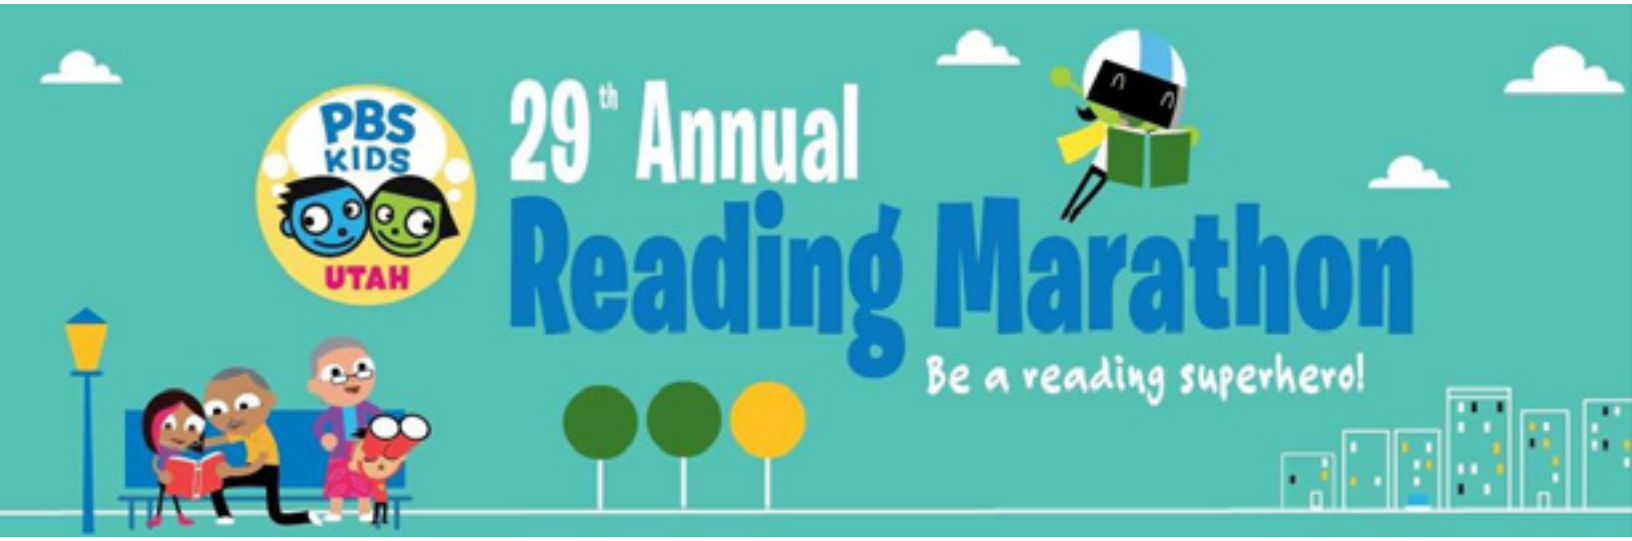

STEP 1: Children preschool to 6th grade read at least 20 minutes each day, or 600 minutes total, between November 1st and 30th.

STEP 2: Visit https://www.pbsutah.org/kids/reading-marathon/29th-annual-reading-marathon/ on November 30th to submit your minutes for the whole month. The submission form will be open from November 30th to December 15th.

STEP 3: You will receive your Adventure Pass via email after you submit your minutes!

How the Adventure Pass Works
The Adventure Pass includes tickets and coupons to your favorite museums, zoos, and activities around town.The Adventure Pass is valid different months in 2022. Most are valid the whole year.. Child must complete the Reading Marathon and be between preschool – 6th grade. Adults and other family members who do not have an Adventure Pass will pay regular admission prices.
The Adventure Pass can only be used one time at each location.

Look in our December City Newsletter for a form to submit your reading minutes to the City to qualify for our science event.

CITY COUNCIL AGENDAS AND RECAPS

The Vineyard City Council meets on the 2nd and 4th Wednesdays. On Tuesdays before City Council meetings, the City Council agenda is posted to our Vineyard City Government

Can't make it to City Council meetings? The council meets the 2nd and 4th Wednesday of each month After the City Council meeting, we will post a short recap on our facebook page to keep you informed of what occurred at the Council Meeting.

FALL CLEAN UP

Vineyard City's Fall Cleanup will take place from October 27 through November 9. There will be two 30-yard containers available for the disposal of your bulk items - one at Grove Park and the other at Penny Springs Park.
Hazardous waste materials WILL NOT be accepted. Additional unaccepted items include paint, chemicals, e-waste (TVs, microwaves, etc.), tires, fridges, and rocks/dirt.

EVERYDAY STRONG

Vineyard City is an EveryDay Strong community...which means as a community we are committed to helping parents and caregivers foster strong connections with the children in their lives. To access articles and resources from EveryDay Strong, please visit this website:

EVERYDAY STRONG WEBSITE

PACKAGE THEFT

Utah County Sheriff deputies have been responding to an increased number of vehicle burglaries. To deter theft from your vehicle, always take your keys, never leave anything of value in your vehicle and always lock it.

As the holiday season gets closer and more packages are delivered, we'd like to remind you to remove packages from your porch as soon as possible to prevent them from being stolen.

Please report any suspicious activity to the Utah County Sheriff's Office at 801-794-3970. If it's an emergency, dial 911. Follow us on Facebook or Instagram for additional updates about things going on around Vineyard. Be safe and have a great November!

YOUTH JR JAZZ BASKETBALL LEAGUE

SEASON: JANUARY 4 - MARCH 12

LATE REGISTRATION: NOVEMBER 1ST -15TH, 2021

Kindergarten Coed: $69, 6 games, Tuesday
1st Grade Coed: $69, 6 games, Tuesday
2nd Grade Coed: $79, 8 games, Saturday
3rd Grade Boys: $79, 8 games, Saturday
3rd-4th Grade Girls: $79, 8 games, Saturday
4th Grade Boys: $79, 8 games, Saturday

TODDLER SPORTS CLINIC SERIES

REGISTRATION OPEN
Season: Jan 4 - 27 OR Feb 1 -24

2:30 PM Tuesday & Thursdays (4-PreK Coed)
3:30 PM Tuesday & Thursdays (3 Coed)

$49 for 6 Clinics, 45 minutes each
Basic skills to be taught in following sports: basketball, soccer, t-ball, and football

BLIZZARD 5K

NOVEMBER 6TH

@ VINEYARD GROVE PARK
(5K @ 8:30AM, KIDS 1K @ 9:30AM)

Registration:
5K: $15
1K: $5
Race Shirt: $10
Households of 3+ persons wanting to register cost is $30 total + $10 per shirt if wanted
Groups of 5+ persons for 5K are $10 each, shirt not included

Preliminary election results can be found here. https://www.utahcounty.gov/dept/clerkaud/elections/ElectResults.html Please check back periodically for updates.

A Note from the Director

Welcome to the garden! Our first year as Vineyard Community Garden has been a success, and as we observe the shift of seasons and leave growing behind, it's time to reflect on what exactly that means.

Armed with zeal and purpose, members of city staff and community volunteers came together to offer a new opportunity to residents. With funding from Orem Community Hospital, we pulled together a small set of plots where ten families were able grow food. Equipped with an automatic drip system, the garden boxes required minimal maintenance, though as many a passersby could see, the gardeners thoughtfully tended their plants on a regular basis. We all marveled at how rapidly they exploded with growth, and we celebrated with a plentiful harvest. It was more than just a garden, however. It was a beacon of hope. It offered an opportunity for people in our city to develop skills, connect with others, and, of course, grow an abundance of food. This abundance went beyond those involved in the program, providing fresh produce to many residents throughout the city. It was a way to enhance our physical, emotional, and mental well-being, and a tangible way to make the world a more beautiful place.

As we continue through the winter months, I know it can get gloomy. I hope you will follow along with us online and through our newsletters, where you will find recipes, garden tips, activities, and much more provided by a remarkably generous and diverse group of people who are determined to share their passion for people, plants, and all things delicious.

Thank you for the opportunity to serve as Director for this important project. I am proud to be a part of progress in Vineyard, a city that grows together.

Amber Rasmussen

Potato Recipes

01 Vegan potato stew

3 cups of vegetable broth
1 cup Oat Milk or Soy milk
2 garlic cloves, minced
2 shallots, minced or 1 tsp onion powder
2 cups sliced carrots
1 cup sliced celery
1 tsp black pepper
1 tsp kosher or sea salt
*optional for thickening (2 tbsp Marrow root or tapioca starch)

Potatoes best used in recipe: Yukon
Prep time: 30 mins - 1 hr

Peel and cut 5 potatoes in half
Boil in water for 5 minutes. Drain and set aside.

In a medium to large sized pot, Saute garlic, onion and carrots on low until browned and carrots have softened. Add broth, milk alternative, black pepper, and salt, stir and bring to a light boil, add potatoes and celery. *Add marrow root or tapioca starch. Cover and let simmer for 5 minutes. Enjoy!

02 Potato burger patties

1 Cup of Shredded Potato
½ Cup of shredded carrots
3 tbsp of shredded Onion
1 Piece of Smashed Garlic
¼ Cup chopped Cilantro
¼ Cup Parsley
1 tbsp Mayo
1 tsp of mustard
1 tbsp Ketchup
1Cup of Chopped Bacon
3 Cups of ground Beef
2 raw eggs
2 tbsp bread crumbs or Panko

Mix all ingredients into a bowl, (use dough hook if using a hand mixer). Form mixture into patties.
2. use light oil. Cook both sides till golden brown.

03 Chimichurri Crash hot Potatoes

6 Potatoes
<u>Chimichurri sauce:</u>
1 cup firmly packed fresh flat-leaf parsley leaves
3 to 4 garlic cloves
2 tbsp fresh oregano leaves (substitute 2 tsp dried oregano)
⅓ cup extra Virgin olive oil
2 tbsp red or white wine vinegar
½ tsp sea salt
⅛ tsp black pepper
¼ tsp red pepper flakes

Preheat oven to 475° F
Place potatoes on an oiled parchment paper in a large pan. Crush each potato ¾ to 1 inch thick, with a potato masher or a measuring cup. Drizzle potatoes with olive oil or put 1 tsp of butter on each. Season with garlic salt, dried parsley and black pepper.

<u>Chimichurri sauce:</u>
Blend all ingredients into a blender for 30 seconds.
Once potatoes are done, drizzle chimichurri sauce on top and enjoy!

04 Ages 10+ Kid friendly recipe: Baked Potatoes

5 Potatoes
1 1/2 cup of Greek Yogurt or Sourcream
1 tsp of dry parsley leaves
1 tsp of garlic powder
1 tsp of onion powder

1. Preheat oven to 425° F
2. Clean and scrub 5 Potatoes and pat dry with a towel.
3. Slowly Poke each potato once, with a fork or a paring knife. Be careful!
4. Lightly brush olive oil or butter on top of each potato.
5. Wrap each potato in tin foil or in an oven safe cooking bag.
6. Place onto a large oven safe pan.
7. Set into middle rack of the oven
8. Set a timer for 45 minutes.
9. In a medium bowl, add Greek Yogurt, Sour cream, dry parsley leaves, garlic powder, onion powder

Garden Friends

You may have seen these curious little creatures around your homes and gardens. Composed of over 4,000 species nationwide and 300 countrywide, the diverse family of jumping spiders consumes small insects and spiders, making them useful for pest control. Unlike other spiders who use webs to catch prey, jumping spiders use their unusually good eyesight to sneak up on and catch prey. These friendly little spiders can be quite interactive and are sometimes even kept as pets.

Butterfly Release

Mayor Julie Fullmer and Mayor Mark Johnson of Lehi in conjunction with the Hutchins Museum in Lehi gathered with a group of local residents at the shores of Utah Lake for a butterfly release last month. Vineyard City has committed to the National Science Foundation's Monarch Pledge which means Vineyard will be a monarch-friendly city. Vineyard will be planting milkweed, which is the only plant that monarch's will lay their eggs.

WATCH THE VIDEO HERE

Welcome fall! As much as we love to see cooler weather, unfortunately that means it's time to pull up the garden and prepare for winter and the next season. Here are a few things you'll want to do and keep in mind when wintering your gardens to keep them healthy in the coming years.

BY JUVENTA VEZZANI AND BRITTNEE VOORHEIS

MONTHLY GARDEN TIPS

Pull up dying plants. Make sure you are throwing your diseased and pest infested plants, such as those with powdery mildew or spider mites, in the garbage and not in the compost pile. If they are in the compost pile, they overwinter there and come back the next year.

Keep your non-diseased leaves. After raking up your leaves, consider adding them to your compost pile. This provides shelter for needed bugs during the winter as well as becoming an addition to your composting soil. Leaves contain vital nutrients for your soil.

Collect seeds from garden plants, flowers, and herbs.

Winterize your water system. Empty all water hoses and store them for winter. Either hire someone to winterize your sprinklers or do it yourself. Freezing pipes and backflows means a lot of headaches in the spring as well as a hit to the wallet! Consider getting an insulated faucet cover for winter to protect your exterior faucets from freezing.

Amend your soil. Have your soil tested and add what you need to in the fall so it has time to decompose by spring, leaving you with wonderful, plant growing soil.

Plant flower bulbs, trees, shrubs, as well as onion or garlic.

Not everything needs to be cut down to ground level in the fall. Plants such as sunflowers, coneflowers, and other plants that stand up straight with interesting seed heads provide winter food and shelter for butterfly eggs and birds to nest. If you cut everything to the ground, you could be eliminating some of the butterflies for next season.

Harvest the last of your crops and store them. If you like to can your produce, now is the time to finish your canning. Winter squash, as well as produce like potatoes and onions, can be stored in a cool, dry place to overwinter and use as needed. Blanch and flash freeze food on trays such as carrots, broccoli, and other vegetables, then transfer to Ziploc bags and can then be stored in the freezer and pulled out as needed during the year. Herbs can be dried and placed into spice bottles or they can be frozen with olive oil in ice cube trays to make flavoring dinners easy.

Pollinator Gardens

by Alexa Dadson

Recently pollinator populations have been declining at an alarming rate. A normal honey bee population will decline 5-10 percent over the winter. Between April 2020 and April 2021 beekeepers across the United States recorded about a 45% population decline. Population loss like this is happening for a variety of factors including habitat loss and pesticides, and it's really detrimental to ecosystems worldwide.

Somewhere between 75 and 95% of all the flowering plants in the world require pollinators to help them reproduce, so it's really important that we help our local pollinator get their populations back up to a healthy place. Luckily there's a lot we can do as a community to support pollinators and in turn, our local gardens and farms.

The Vineyard City Youth Council is currently working on plans for a community pollinator garden. We intend to have bee hives, bee houses, and native nectar plants without pesticides. The community pollinator garden world be really beneficial for Vineyard's ecosystems because it would provide food and a habitat to pollinators and a beautiful garden for Vineyard residents. Look out for more ways to help our pollinators on social media, and the Youth Council is always accepting more youth members.

Linden Tree Chocolate

By Morgan S Abbott, Head Botanist & Owner of Abbott Botanical Assessments, LLC

As I was pursuing TikTok last week, a video came across my feed from @TheBotanican, showing how to identify, forage and process linden fruits & seeds into chocolate. I was immediately intrigued as I love linden trees and I'm always looking to improve my foraging recipes.

American basswood (or American Linden, Tilia americana), a tree within the Mallow (Malvacae) family, have a delicious honeyed fragrance during the summer months that attracts all of the pollinators in the vicinity, provides lovely shade, and are wonderful trees that are native to forests along the east coast and midwest of North America. The pyramidal shape and glossy cordate (heart-shaped) leaves are a striking combination that endears both the arborist and the home gardener.

We don't have a native equivalent in the West, but if you're looking for a disease, clay and drought-tolerant tree, Tilia americana comes highly recommended. While its European cousin (Tilia cordata, Littleleaf Linden) may be more common in nurseries, I would go the extra mile to source the American species. Pollinators native to North America will prefer it and will be disease- and pest-resistant that are native to North America. A more heat-tolerant species to consider would be Tilia Mexicana.

If you're wanting to see them in person, check out the trees established in the Library Park in Spanish Fork and along the Senior Center. There are multiple cities within the valley that have these trees as part of their urban landscape. You can call the Parks and Recs department for a specific city to see a catalog and location for their established trees.

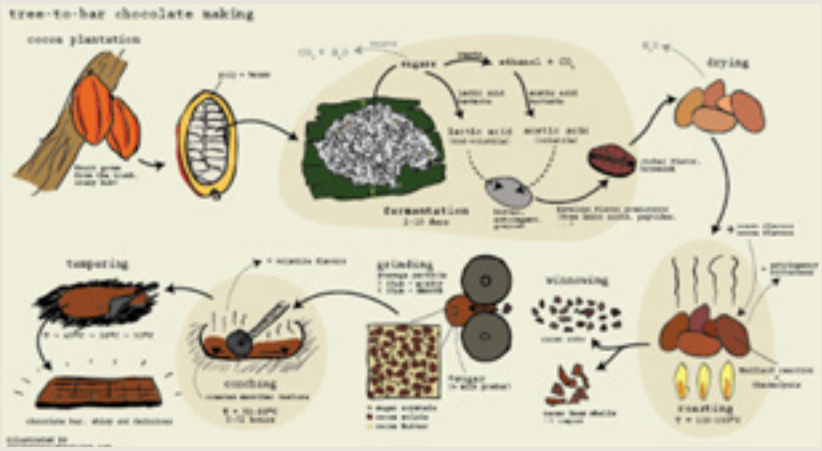

Onto the chocolate! In the Tiktok referenced, @thebotanican discusses a reference to an excerpt of a 18th-century recipe. Found on page 17 of "A Taxonomy of American Species of Linden (Tilia), this reference:

> The fruit of Tilia had long been thought of little use until Missa, a physician of the faculty of Paris, by triturating it, mixed with some of its flowers, succeeded in procuring a butter perfectly resembling chocolate; having the same taste, and giving the same paste, as cocoa. This was in the time of Frederick the Great; who, feeling a greater interest in the discovery than the French, who were in possession of plantations of the cocoa in their colonies, engaged the chemist Maregraf to prove the observations of Missa, which he did entirely to the satisfaction of Frederick; but, unfortunately, it was found that the lime tree chocolate did not keep. On this Ventenat remarks, that, if the subject had been pursued a little further, and the fruits of some of the American species of limes, taken, the success would probably have been complete.

As she states in the video, the recipe is very vague. There aren't clear instructions. Many of the recipes listed online didn't include roasting the nutlets first, so she tried that! You must first harvest raw immature (green) nutlets and flowers from the tree. Grind the fresh flowers using a mortar and pestle, then set aside. Roast the nutlets in the oven at a low temperature until brown like cacao nibs. Remove from the oven when cooled, grind into a fine powder, sift and combine with the flowers. Bind with a neutral oil, like almond oil or avocado oil and add sugar to taste. Do keep in mind that this recipe doesn't keep and must be eaten quickly.

Some users recommended trying to ferment the unroasted, raw nutlets to encourage sugar production to make it sweeter, like cacao beans. I actually wouldn't recommend that. Referencing the infographic below from sweetmatterphysicist, I am curious to see if there would be a similar result. There isn't a pulp surrounding the nutlet of Tilia americana that contains sugars, which is why one must add the sugar to taste at the end of the recipe. My suggestion would be to ferment the flowers fromTilia americana as there are sugars within the nectar, then add the fermented flowers to the final mixture. Additionally, this would help bind the "nibs" with the oil and could help preserve the "chocolate" mixture to eat at a later date.

I've checked around my city (Spanish Fork) to see if Tilia americana is still producing fresh, raw nutlets and flowers, but it is a tiny bit late for that. There were no flowers and the nutlets were too woody. I would recommend harvesting in late summer, in late August or early September. You could source the ingredients online as Tilia species are known as medicinal plants and the flowers are used in teas and cough drops.

Abbottanical (Abbott Botanical Assessments, LLC) is a women-owned and women-run local business based in Spanish Fork, Utah by Morgan S. Abbott. A botanist with over 7 years of experience, Morgan is interested in the intersection of water, plants and cultural resources, especially regarding their relationships to paleoecology. Currently, she is working on cultivating community relationships to encourage field botany and its pedagogy within the Intermountain West. She specializes in wild plants native to the Great Basin and Colorado Plateau ecosystems.

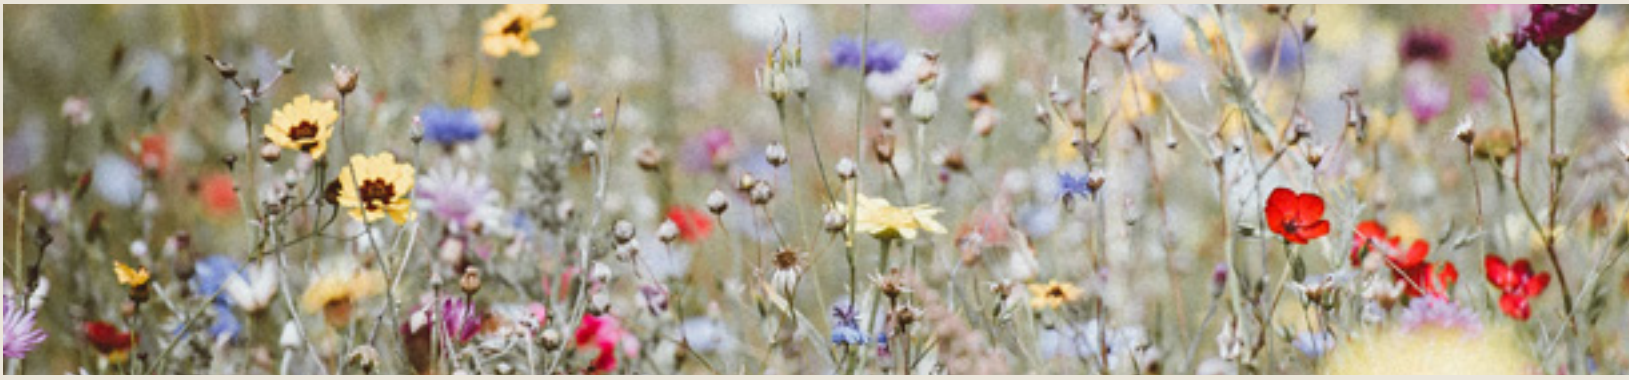

She is selling native wildflower seeds local to the Intermountain West until November 4, 2021.

Food Drive

One of the mission's of the community garden is to combat food scarcity. Thanks to the efforts of Vineyard Community Garden members and Vineyard City, residents of Vineyard made a sizable contribution to Tabitha's Way last month. Food barrels were placed in front of Vineyard City Offices and at the Villas at Water's Edge. Thank you to those who donated food and helped collect food. We are grateful that so many participated!

THANK YOU TO OREM COMMUNITY HOSPITAL FOR THEIR SPONSORSHIP OF THE COMMUNITY GARDEN!

Intermountain
Orem Community Hospital

Garden Stand

Thanks to the generosity of Orem Community Garden and the talents of Vineyard resident Andrea Jones, we now have a Vineyard Vegetable Stand. Stay tuned for information we will post in the Spring. The stand will be used as a way to distribute gardeners' extra produce to those who need it.
